Rosemond has a revolutionary message for today's parents. Your grandparents' generation knew a lot more about raising children than all of today's experts. The experts have turned child rearing into a complicated exhausting chore rather than the simple straightforward task it should be. In *Family Building: The Five Fundamentals of Effective Parenting*, Rosemond outlines the five key principles of traditional parenting that are crucial to raising well-behaved children today. It's about the family, not the children. Where discipline is concerned, it's about communication, not consequences; leadership, not relationship. It's about respecting others, not high self-esteem. It's about manners and morals, not skills. It's about responsibility, not high achievement. Each chapter includes questions from real parents faced with real-life parenting challenges, and in his typical no-nonsense style, Rosemond provides practical solutions. *Family Building* restores common sense to parenting and puts the parents back in charge. Once again, John Rosemond delivers child-rearing wisdom that no parent should miss.
