***Evil and Givenness*** Brian W. Becker, 2022-02-23 *Evil and Givenness* The Thanatonic Phenomenon provides a phenomenological study of evil in its conceptual integrity Describing a phenomenological situation exclusive to evil in its distinct mode of givenness and manners of manifestation the account of evil in this book centers on the thanatonic as that phenomenality proper to evil Although situated within a phenomenology of givenness via Jean-Luc Marion the thanatonic is distinguished from saturated phenomena by giving itself in a parasitic mode Brian W. Becker identifies four figures as displaying characteristics of this parasitic givenness: trauma, evil, eye, foreign body, and abject, each expressing a dimension of the thanatonic and paralleling the four figures of the saturated phenomenon Like the four horsemen who serve as heralds for the destruction of the world, these figures beckon the destruction of our lifeworld, diminishing the self who encounters them Upon losing the will to bear the excess of saturated phenomena, the receding of horizons and the loss of singularity, this impoverished self misrecognizes itself in a manner that begins to resemble the metaphysical ego, and in doing so becomes a vector for retransmitting the thanatonic's suffering unto others

***Sounds of Black Switzerland*** Jessie Cox, 2025-01-03 Writing as a scholar, composer, and musician, Jessie Cox foregrounds the experience of Black Swiss through sound and music in his first book *Sounds of Black Switzerland* Cox himself, Black Swiss, affirms the value of Black life through sound while critiquing anti-Blackness as a cause of erasure, silence, and limitation He examines Swiss-Nigerian composer Charles Uzor's pieces for George Floyd's work by Black Swiss musicians such as DJ Matchni, reed clarinetist Jérémie Jolo, and rapper Nativ, as well as his own musical collaborations with the Lucerne Festival In these analyses Cox tackles the particularities of anti-Blackness in Switzerland, creating a practice of listening beyond what can be directly heard to explore the radical potential of Black thought and experience in a nation often claimed to be race-free In so doing, he ultimately shifts thinking about Blackness in relation to citizenship, immigration laws, gender, kinship, and belonging By listening to Black Swiss and other voices inaudible to the current world, Cox theorizes new ways of practicing scholarly study and general ways of relating to others and the world

***From Menstruation to the Menopause*** Maria Kathryn Tomlinson, 2021 This book examines menstruation, childbirth, and the menopause in contemporary Algerian, Mauritanian, and French women's writing It looks back to the pioneering work of the second-wave feminists and argues that contemporary women's writing has continued to challenge normative perceptions whilst also taking a more intersectional approach to corporeal experience

***Over the Front in an Aeroplane,***

**and Scenes Inside the French and Flemish Trenches** Ralph Pulitzer, 2022-07-20 In *Over the Front in an Aeroplane and Scenes Inside the French and Flemish Trenches* Ralph Pulitzer offers an incisive glimpse into the visceral reality of World War I as experienced through the eyes of those on the ground and in the sky Pulitzer's narrative deeply rooted in the literary tradition of wartime journalism reveals the intricacies of trench warfare and aerial combat with a detailed and evocative prose style The work exists within a milieu of historical texts that strive to make sense of the chaotic and often incomprehensible nature of war capturing the tactical evolutions of the French military amidst the larger backdrop of early 20th century conflict nRalph Pulitzer scion of the iconic Pulitzer publishing family has synthesized his experiences and observations into a profound exploration of military strategy and human endurance His personal connections and journalistic acumen likely afforded him remarkable access to the front lines thereby informing his detailed account of the war's brutal reality It can be surmised that his intent was not merely to recount events but to provide a deeper understanding of the impact and innovation of warfare during one of history's most convulsive periods nThis seminal work is a must read for military historians strategists and enthusiasts of World War I literature Pulitzer's ability to convey the complexity of trench and aerial warfare in an accessible manner ensures that *Over the Front in an Aeroplane and Scenes Inside the French and Flemish Trenches* is an informative and engaging account The book offers invaluable perspectives for anyone seeking nuanced insights into the conduct of the Great War and the evolution of modern combat

**The Grandeur and Twilight of Radical Universalism** Ágnes Heller, Ferenc Fehér, 1991-01-01 This volume provides theoretical construction to the extraordinary events that resulted in the collapse of communism worldwide The authors attribute a great deal of the problems of totalitarianism to its blind acceptance of a Marxist philosophy of practice With the failure of communist practice the collapse of the Marxist paradigm was quick to follow At its roots this volume is a critique of the idea that we can have scientific knowledge of the social and political future

*Where Two or Three Are Gathered* Daniel L. Prechtel, 2012-02-01 Much has been written about the practice of one to one spiritual directions but much less about small group communities that offer in depth mutual spiritual support and guidance to its members But small groups are most likely the more usual setting for spiritual companionship and have strong biblical theological and historical foundation in the Christian tradition This book offers a detailed presentation of ten small group models plus guidance in group leadership dynamics It also presents material related to group retreat work spiritual guidance with organizations and peer supervision consultation model for supporting leaders of spiritual companionship groups and retreats Church leaders spiritual directors and educators are looking for the kinds of resources this book provides to assist them in understanding and leading groups and retreats

*Composing the Modern Subject: Four String Quartets by Dmitri Shostakovich* Sarah Reichardt, 2017-07-05 Since the publication of Solomon Volkov's disputed memoirs of Dmitri Shostakovich the composer and his music has been subject to heated debate concerning how the musical meaning of his works can be understood in relationship to the composer's life

within the Soviet State While much ink has been spilled very little work has attempted to define how Shostakovich's music has remained so arresting not only to those within the Soviet culture but also to Western audiences even though such audiences are often largely ignorant of the compositional context or even the biography of the composer This book offers a useful corrective setting aside biographically grounded and traditional analytical modes of explication Reichardt uncovers and explores the musical ambiguities of four of the composer's middle string quartets especially those ambiguities located in moments of rupture within the musical structure The music is constantly collapsing reversing inverting and denying its own structural imperatives Reichardt argues that such confrontation of the musical language with itself though perhaps interpretable as Shostakovich's own unique version of double speak also poignantly articulates the fractured state of a more general form of modern subjectivity Reichardt employs the framework of Lacanian psychoanalysis to offer a cogent explanation of this connection between disruptive musical process and modern subjectivity The ruptures of Shostakovich's music become symptoms of the pathologies at the core of modern subjectivity These symptoms in turn relate to the Lacanian concept of the real which is the empty kernel around which the modern subject constructs reality This framework proves invaluable in developing a powerful original hermeneutic understanding of the music Read through the lens of the real the riddles written into the quartets reveal the arbitrary and contingent state of the musical subject's constructed reality reflecting pathologies ende
