## **Second Spring The Coming Of Age Of Us Catholicism:**

**Second Spring** Charles A. Fracchia, 1980      **American Catholicism Transformed** Joseph P. Chinnici, 2021-04-27

Situating the church within the context of post World War II globalization and the Cold War American Catholicism Transformed draws on previously untapped archival sources to provide deep background to developments within the American Catholic Church in relationship to American society at large Shaped by anti communist sentiment and responsive to American cultural trends the Catholic community adopted strategies of domestic containment stressing the close unity between the Church and the American way of life A focus on the unchanging character of God s law as expressed in social hierarchies of authority race and gender provided a public visage of unity and uniformity However the emphasis on American values mainstreamed into the community the political values of personal rights equality acceptance of the arms race and muted the Church s inherited social vision The result was a deep ambivalence over the forces of secularization The Catholic community entered a transitional stage in which those on the right and those on the left battled for control of the Church s vision International networking reform of religious life among women international congresses of the laity the institutionalization of the liturgical movement and the burgeoning civil right movement positioned the community to receive the Vatican Council in a distinctly American way During the Second Vatican Council the American bishops and theological experts gradually adopted the reforming currents of the world wide Church This convergence of international and national forces of renewal and resistance to them says Joseph Chinnici will continue to shape the American Catholic community s identity in the twenty first century      **The Road to Vatican II** Maureen Sullivan (O.P.), 2007 The Second Vatican Council produced a charter for the church of the twentieth century and beyond Part of the council s fascination is that it involves many stories The Road to Vatican II is an attempt to tell the story behind the stories of this landmark in church history Somehow more than 2 500 bishops who often disagreed on the most critical issues managed to produce sixteen documents that touched the very essence of the Catholic faith How is it possible that so much could have been accomplished in four brief council sessions from 1962 1965 How did the church move from Pius IX at Vatican I 1869 70 who espoused a rigid hierarchical model of church to John XXIII at Vatican II 1962 65 who ushered in a collegial communio model of church In answering these questions Sullivan s book highlights those theologians whose efforts over the years before the council were actually the seeds of what flourished at the council These theologians were indeed prophets among us often suffering because of their convictions Ultimately they were instruments of the Holy Spirit in our midst They offered the church a renewed vision of the faith and a methodology to facilitate theological endeavor They also rediscovered in the New Testament a language of life that could speak to contemporary men and women Hence this book presents the incredible theological changes that took place on the road to Vatican II it examines the contributions of some of the key theologians on this road and it finds evidence of their influence in key documents of the Second Vatican Council Book jacket      **Eclipse of**

**Justice** George E. McCarthy, Royal W. Rhodes, 2008-12-21 A sociologist and a church historian provide a probing scholarly critique of Economic Justice for All the American bishops pastoral letter on Catholicism and the U S economy McCarthy and Rhodes examine the letter s focus on poverty inequality and powerlessness in American society They review classical concepts of social ethics and economic justice as applied by the bishops to analyze the social political and economic institutions of American By examining reactions to the letter from both the political left and right Eclipse of Justice opens up the full range of debate about the nature of social ethics The first part of Eclipse of Justice presents the moral dilemma created by the bishops critique of liberalism they pronounced it a social and moral scandal and explores the antecedents papal episcopal and lay that provided the ideas and vocabulary for the bishops letter The second part analyzes the pastoral letter and locates it within the larger context of debates about economic structures in modern liberalism The third part examines attempts of the bishops to relate Christian social doctrine to international political and economic issues and probes the contributions of liberation theology and dependency theory

**Habits of Devotion** James M. O'Toole, 2018-07-05 For generations American Catholics lived out their faith through countless unremarkable routines Deep questions of theology usually meant little to them but parishioners clung to deeply ingrained habits of devotion both public and private Particular devotions changed over time waxing or waning in popularity but the habits endured going to mass on Sunday saying prayers privately and teaching their children to do the same filling their homes with crucifixes and other religious images participating in special services blending the church s calendar of feast and fast days with the secular cycles of work and citizenship negotiating their conformity or not to the church s demands regarding sexual behavior and even diet It was religious practice carried out in daily and weekly observance that embodied their faith more than any abstract set of dogmas from the Introduction In Habits of Devotion four senior scholars take the measure of the central religious practices and devotions that by the middle of the twentieth century defined the ordinary week to week religion of the majority of American Catholics Their essays investigate prayer devotion to Mary confession and the Eucharist as practiced by Catholics in the United States before and shortly after the Second Vatican Council
