The Incarnation of Ahriman Rudolf Steiner, 2013-05-16 While we know of Ahriman from Persian mythology Rudolf Steiner spoke of him as an actual living spiritual entity This being he said works to embed people firmly into physicality encouraging dull materialistic attitudes and a philistine dry intellect In these extraordinary lectures Steiner in rare prophetic mode talks about an actual incarnation of Ahriman on the earth and the potential consequences Just as Christ incarnated in a physical body so would Ahriman incarnate in the Western world before a part of the third millennium had passed Steiner places this incarnation in the context of a cosmic triad Lucifer Christ and Ahriman Ahriman will incarnate as a counterpoint to the physical incarnation of Lucifer in the East in the third millennium BC with the incarnation of Jesus Christ in Palestine as the balancing point between the two Over the period during which Steiner developed anthroposophy a speaking career that spanned two decades and more than six thousand lectures he referred to the idea of Ahriman's incarnation only six times These six lectures together with an additional supporting excerpt are reproduced in their entirety and under one cover for the first time [The Karma of Untruthfulness: v. 2](#) Rudolf Steiner, 2016-11-21 Although these lectures were given during 1916 they have much to teach us about the political spin media distortions propaganda and downright lies we encounter on a

daily basis in public life Rudolf Steiner's calm and methodological approach penetrates the smokescreen of accusations and counterclaims of illusion and untruth surrounding the Great War Hiding behind this fog and under the guise of outer events he reveals the true spiritual struggle that is taking place His words give a deeper understanding of the politics and world conflicts that confront us today through the filter of the media In the midst of the turmoil of the First World War Steiner speaks out courageously against the hatred and untruthfulness in the propaganda of the time From his detailed research into the spiritual impulses of human evolution he describes the dominant role secret brotherhoods played in the events culminating in the cataclysmic war and warns that the retarding forces of nationalism must be overcome if Europe is to find its new destiny He also emphasizes the urgent need for new social structures if further catastrophes are to be avoided At a time when political events throughout the world are moving with breathless rapidity the reader will find much in these lectures that will illuminate what lies behind the symptoms of our turbulent times This new edition reproduced in a larger format is put in a modern context and introduced by Terry Boardman

The Karma of Untruthfulness Rudolf Steiner, 2005 12 lectures Dornach January 1 30 1917 CW 174 Although these lectures were given in 1916 they have much to teach us about today s political spin media distortions propaganda and downright lies all delivered by the media on a daily basis Rudolf Steiner s calm methodological approach penetrates the smokescreen of accusations and counterclaims illusions and lies surrounding World War I From behind this fog and under the guise of outer events the true spiritual struggle is revealed Steiner s words give the reader a deeper understanding of the politics and world conflicts that confront us today through the filter of popular media Amid the turmoil of World War I Steiner spoke out courageously against the hate lies and propaganda of the time His detailed research into the spiritual impulses of human evolution allowed him to reveal the dominant role that secret brotherhoods played in events that culminated in that

cataclysmic war He warned that the retarding forces of nationalism must be overcome before Europe can find its true destiny He also emphasized the urgent need for new social structures in order to avoid such future catastrophes Political and social changes around the world are moving at a breathless pace hurtling us all toward an uncertain future These lectures illuminate much of what lies behind today's turbulent events and the scenes played out on the nightly news Like volume 1 this edition is placed within a modern context and introduced by Terry Boardman This volume is a translation from German of *Zeitgeschichtliche Betrachtungen Das Karma der Unwahrhaftigkeit Zweiter Teil Kosmische und Menschliche Geschichte Band V GA 174* Lord of the Elements Bastiaan Baan, 2013-03-21 The four classical elements of earth water air and fire are present in Genesis and continue to be significant throughout Christianity Different streams of thought such as the School of Chartres and Celtic Christianity have emphasised them in different ways In this unique book Bastiaan Baan an experienced spiritual thinker brings these elements together with ideas from Rudolf Steiner's anthroposophy He considers in particular how elemental beings nature spirits relate to the four elements and explores the role of elemental beings in our world This is a fascinating and original work on the connections between Christianity and the natural world

Growing Old Rudolf Steiner, 2019-05-03 And that is one thing we need to relearn that all of life brings its gifts not only the first two or three decades Rudolf Steiner When are we actually old What happens as we age How will we cope with old age Growing old is an art and to grow old in the right way we need spiritual understanding In this enlightening anthology compiled by a director of care homes for the elderly wide ranging cosmological perspectives alternate with detailed observations of the phenomena of ageing Rudolf Steiner sees ageing within the context of the earthly and spiritual evolution that encompasses all forms of existence The book thus begins with the primary meaning that ageing has in developmental terms and ends with a consideration of the human being as co creator in cosmic processes and with our capacity to become increasingly conscious of the tasks this implies These key texts by Rudolf Steiner show how spiritual knowledge can broaden the current debate on the study of old age the process of ageing and the particular problems faced by older people Concerns about our ageing population can be seen in a broader context that recognizes the fruits of old age The productive relationship between childhood and old age a running theme throughout this volume is one example If we grow old consciously viewing ageing not only as a period of physical decline but as a time when we can actively participate in shaping life then we can begin to find greater meaning in it Chapters include The Core Messages of Ageing Fundamental Principles of Gerontology Ageing as a Developmental Process Ageing the Risks and Opportunities The Art of Growing Old Old Age and Death Growing Old A Challenge for Education The Cosmological Dimensions of Ageing

An Esoteric Cosmology Rudolf Steiner, 2008 A congress of the Federation of European Sections of the Theosophical Society was held in Paris in May 1906 Rudolf Steiner attended with a number of students and presented a series of lectures to a small circle of friends mostly society members Edouard Schur was present and made succinct notes of those talks the result of which is *An Esoteric Cosmology* Evolution

Christ and Modern Spirituality In his foreword Schur describes his initial impressions of Rudolf Steiner and the force of his vision These priceless lectures mark a significant phase of Rudolf Steiner's thought that of the spontaneous burst of his genius and its first crystallization Indeed his notes record perhaps the first general outline and summary of what would become Anthroposophy or spiritual science At the time of these lectures most members viewed Theosophy as a kind of Europeanized Indian philosophy Thus one purpose of these lectures was to outline Steiner's Christ-centered spiritual science in contrast to the more Eastern orientation of Theosophy He carefully connected the essence of spiritual science to the role of the Christ in human evolution as well as to the Rosicrucian and Christian mystery traditions the primary carriers of the esoteric Christian stream To accomplish this Steiner presented the roots of Christianity in the ancient mysteries and in the evolution of the whole universe itself The miracle of these lectures perhaps is that Steiner was able to condense such a grand cosmology into these eighteen lectures and that Edouard Schur was able to capture their essence in the relatively brief notes that constitute this book A few years later the substance of these lectures were expanded and presented in Rudolf Steiner's Outline of Esoteric Science These lecture notes will prove invaluable for all those who wish to better understand that book as well as Rudolf Steiner's Christian cosmology and perspective on esoteric Christianity and the Christian mysteries **The**

Geoengineered Transhuman Elana Freeland, 2025-02-25 Explores how chemicals and nanotechnology are being continuously delivered via chemtrail aerosols by jets drones and rockets in the guise of climate change Examines the public private partnerships behind transhumanism including Big Pharma GMO agribusiness DARPA IARPA corporations and foundations Reveals the reality of the secret space program SSP and the planetary smart grid of 5G 6G the Internet of Things IoT and artificial intelligence AI What if the degradation of the planet is not just a byproduct of human greed but the explicit intention of government agencies bought off by corporations What if their intent is to create a post human global government run by AI populated by a genetically and electromagnetically altered Homo sapiens loaded with nanotechnology and run by 5G 6G 7G transceivers from space Building on decades of research Elana Freeland offers a comprehensive exposé of the transhumanist agenda the transformation of humanity into a slave class by means of biotechnology genetic engineering molecular nanotechnology and artificial intelligence She reveals that weather control is already a global reality thanks to the aerosol chemtrails that maintain the ionized atmosphere needed for a myriad of military and civilian wireless operations The air we breathe the soil we grow our food in and the water we drink have all been altered away from Nature and toward a synthetic metaverse Meanwhile Big Pharma injects nano sized hardware and software in vivo that activate a transhumanist brain computer interface with AI The author also examines the public private partnerships behind transhumanism and reveals the reality of the secret space program and the planetary smart grid of 5G 6G The eons old dream of global power seems to be coming of age in this overwhelmingly technological era of domination by the wealthy And yet by exposing the transhumanist agenda and studying the technology being employed to subjugate the human race we have the opportunity to

find ways not just to resist becoming machines ourselves but to utilize our technologies for restoring a high civilization in service to the Good the Beautiful and the True

A Road to Sacred Creation Rudolf Steiner, 2021-08-03 Rudolf Steiner's perspectives on technology are manifold and prophetic. He not only critiqued the technology of his day but foretold new forms of technology that would inevitably arise. Technologies that would be connected to the makers' very attitudes of soul, either the good or bad within them, in other words, their deepest motivations. How we as evolving human beings approach technology and its development will be instrumental in determining how ultimately human evolution will turn out. Our future as human beings and the future of technology are intimately connected.

Gary Lamb, *Illuminating*, compelling, challenging at times, staggering in its breadth. *A Road to Sacred Creation* is above all the definitive text for gaining a hold on Rudolf Steiner's nuanced perspectives on technology. Charting both an inner and outer course, part pilgrimage toward greater perception and knowledge, part dramatic unfolding plot line of the future of humans and machines, the metaphoric road of the title is exactly where humanity finds itself today, though the exact route and destination are still to be determined. The map is not yet drawn, but here is a beginning. Taken together, the relevant concepts, ideas, and insights of Steiner deftly brought into sequence and dialogue as the editor has done in this book, reveal how the work to arrive at a more spiritually imbued technological future not only involves all domains and fields of spiritual science and anthroposophic work but has its origins in the very core of our being, fundamentally entwined with our moral progress toward freedom and selfless love.

The Etheric Ernst Marti, 2020-12-17 Ernst Marti devoted his life to researching the etheric realm, a subtle area that exists between the physical and spiritual. Taking the numerous statements and references by Rudolf Steiner as his starting point, Marti develops our understanding of the etheric world in various fields, from the theory of knowledge to the natural world, through to music, the realm of colour, eurythmy, and medicine. In doing so, he proposes exciting bridges from the ancient and medieval worldview to the present and future of natural and spiritual science. Having studied *The World of the Ethers* in Vol 1, here Dr Marti explores *The World of Formative or Morphogenic Forces*. Beginning with the sense qualities of the visible world, he studies the nature of sense perception, the origin of morphogenic forces, and their phenomenology. In three key sections, he examines the formative forces of shape or form, including the growth movements in plants and how they relate to eurythmy; the forces of colour, the formative forces of life, the planetary origin of the morphogenic forces of life, and the seven life processes and their relation to rhythm; and the formative forces of substance, the zodiac and the planets, and the formative forces of metals. In this concluding volume of his seminal work, Marti also offers pertinent comments on the nature of potentization in medicine.

The Coronavirus Pandemic Judith von Halle, 2020-12-16 What lies at the root of the SARS CoV 2 virus and the worldwide pandemic it has caused, affecting the health and livelihoods of untold millions of people? What are the deeper spiritual realities behind COVID 19 and the global turmoil it has left in its trail? In an effort to answer these queries and many others put to her at the start of the pandemic, Judith von Halle composed two letters in March 2020 based on her

own spiritual scientific research Published in this book together with an additional essay she addresses questions such as Which entities stand behind the virus How and why does it affect human beings What measures can be taken for prevention and therapy What does the crisis mean to individuals and what possibilities does it offer for personal development The author suggests that apart from the material havoc triggered by coronavirus the spiritual causes behind it are extremely serious and if the present pandemic is not to be the first in a series of catastrophes humanity is called upon to respond in a radically transformative way In an additional article von Halle tackles the controversial issues relating to government lockdowns and the protest movements that have sprung up in opposition to them How do these events point to real questions of individual freedom and most importantly how do they relate to the central event of our time an event that tragically remains largely unknown Revealing unexpected perspectives to the COVID 19 pandemic Judith von Halle asks urgent and difficult questions and offers shattering insights for humanity s further development
