Brewer, 2015-11-17 The landscape of the Sonoran Desert Region varies dramatically from parched desert lowlands to semiarid tropical forests and frigid subalpine meadows *A Natural History of the Sonoran Desert* takes readers deep into its vast expanse looking closely at the relationships of plants and animals with the land and people through time and across landscapes ***In the Rearview Mirror*** Jerry W. "Slats" Jackson, 2011-10-12 The hearts of the people depicted in this book are for the most part as pure and white as the driven snow Well most of the time anyway There is little malice in their blunderland you might say but probably wouldn't Take for example my friend Jack Weldons well meaning but flawed odyssey when he guided much like Moses his innocent Lubbock High School classmates on their senior trip to Sligo Texas a host town that turned out to be sort of a ghost town The school board members you see had mandated that it be a day trip no longer than a certain number of miles from Lubbock because in their wisdom they reasoned that an overnighter would surely result in half the class returning home as mothers to be So Jack

simply took a compass with a pointy end that he placed on Lubbock calibrated how far he could go with the circles outer extremity to conform to the school boards edict and settled on Sligo It turned out to be a disaster despite Jacks having tried his best to avert such an outcome But you nevertheless must admire him for trying There are certain other antidotes that came along in Lubbock and elsewhere that are described in somewhat sordid detail in this collection of newspaper columns that I hope will evoke a tear or two not in sadness but hopefully in joy as I delve into occasional supercilious silliness while exploring some of lifes foibles that have cropped up along the way And as you dear reader travel lifes byways please always be cognizant of my old Uncle Bens deeply thought out truism which is to wit that it takes a mighty big dog to weigh a ton
