Is There a Meaning

in This Text? Kevin J. Vanhoozer, 2009-08-30 Is there a meaning in the Bible or is meaning rather a matter of who is reading or of how one reads Does Christian doctrine have anything to contribute to debates about interpretation literary theory and post modernity These are questions of crucial importance for contemporary biblical studies and theology alike Kevin Vanhoozer contends that the postmodern crisis in hermeneutics incredulity towards meaning a deep set skepticism concerning the possibility of correct interpretation is fundamentally a crisis in theology provoked by an inadequate view of God and by the announcement of God s death Part 1 examines the ways in which deconstruction and radical reader response criticism undo the traditional concepts of author text and reading Dr Vanhoozer engages critically with the work of Derrida Rorty and Fish among others and demonstrates the detrimental influence of the postmodern suspicion of hermeneutics on biblical studies In Part 2 Dr Vanhoozer defends the concept of the author and the possibility of literary knowledge by drawing on the resources of Christian doctrine and by viewing meaning in terms of communicative action He argues that there is a meaning in the text that it can be known with relative adequacy and that readers have a responsibility to do so by cultivating interpretive virtues Successive chapters build on Trinitarian theology and speech act philosophy in order to treat the metaphysics methodology and morals of interpretation From a Christian perspective meaning and interpretation are ultimately grounded in God s own communicative action in creation in the canon and preeminently in Christ Prominent features in Part 2 include a new account of the author s intention and of the literal sense the reclaiming of the distinction between meaning and significance in terms of Word and Spirit and the image of the reader as a disciple martyr whose vocation is to witness to something other than oneself Is There a Meaning in This Text guides the student toward greater confidence in the authority clarity and relevance of Scripture and a well reasoned expectation to understand accurately the message of the Bible Is There a Meaning in This Text is a comprehensive and creative analysis of current debates over biblical hermeneutics that draws on interdisciplinary resources all coordinated by Christian theology It makes a significant contribution to biblical interpretation that will be of interest to readers in a number of fields The intention of the book is to revitalize and enlarge the concept of author oriented interpretation and to restore confidence that readers of the Bible can reach understanding The result is a major challenge to the central assumptions of postmodern biblical scholarship and a constructive alternative proposal an Augustinian hermeneutic that reinvigorates the notion of biblical authority and finds a new exegetical practice that recognizes the importance of both the reader s situation and the literal sense

Pranvera Këllezi,Bruce Kilpatrick,Pierre Kobel,2017-05-05

This publication provides an unparalleled comparative analysis of two hot topics in the field of antitrust and unfair competition law with regard to a number of key countries The first part of the book examines the prohibition of abuse of a dominant position and globalization in relation to two broad questions first whether there is consistency between the approaches of different jurisdictions to the notion of abuse and second whether there are too many restrictions on legal rights and business opportunities resulting from the prohibition of abuse of dominance The international report drafted by Professor Pinar Akman reveals that there are as many similarities as differences between the approaches of the twenty one jurisdictions studied and presented in this book This is an invitation to read the excellent international report as well as the reports on specific jurisdictions in order to grasp the variety of arguments and approaches of this antitrust area which may on the surface appear alike The second part gathers contributions on the question of protection and disclosure of trade secrets and know how from various jurisdictions The need

for adequate protection of trade secrets has increased due to digitalization and the ease with which large volumes of misappropriated information can be reproduced The comprehensive international report prepared by Henrik Bengtsson brings together these reflections by comparing various national positions The book also discusses the resolutions passed by the General Assembly of the International League of Competition Law LIDC following a debate on each of these topics and includes proposed solutions and recommendations
