The Moscow Kremlin Arthur Joyce,2023-12-22 **Survivors of War** Sang-mi Lee ,2022-11-15 BOOK SUMMARY

There are many ways we can look at the history of war history books poetry fiction novels paintings photographs and movies to name a few The possible approaches to the history of war are endless but did you know that architecture is also a lens through which we can glimpse into the wars of years past War destroys buildings but also builds new ones Those who began the wars disappear but the architecture that lived through it remains to tell stories we must not forget Famous buildings and sites that we may not initially associate with war such as The Louvre in France the Neue Wache in Germany Windsor Castle in England the Colosseum in Italy the Grand Kremlin Palace in Russia are memory trunks that hold captivating and profound stories on war waiting to be told Architecture a witness product victim and survivor of war provides a window into the history of war PREFACE The idea for this book the war histories of famous architectural buildings and sites came to me during an ordinary visit to the Louvre Museum As an art history graduate student and then after an aspiring curator working in Paris I was a frequent visitor of the Louvre Regrettably it was only after a dozen or so visits that I finally found my way to the less crowded basement floor where I came upon the preserved ruins of the museum s original architecture a medieval fortress This discovery of the Louvre s genesis struck me Aside from the well known fact that it had once been the palace that the Sun King abandoned in favor of his new Versailles residence I had never given much thought to the Louvre s history due to my preoccupation with the many histories it exhibits It was fascinating to think that this representative museum of Art with a capital A was once a twelfth century fortress that provided military defense for the city of Paris in times of war A quick online

search further uncovered the Louvre's history of war. As it turns out, war was responsible for both the Louvre's beginnings as a fortress as well as its modern-day identity as the home for art objects from all over the world. War was not a chapter in the Louvre's story but a main thread woven into its identity. Interestingly, this not only holds true for the Louvre but many landmarks and cultural sites throughout Europe. Years later, I had the opportunity to write about this connection between famous architecture and war. The Kookbang ilbo or the National Defense Daily approached me in early 2019 to propose I write for their Arts and Culture section. I suggested this topic and the first installment of the column War as told by Architecture The Louvre Museum was published on July 15 later that year. 17 months, 76 installments and 75 architectures later, these columns became the seed for this book. This passion project revisits the histories of war tucked away in the attics or in the case of the Louvre, the basement of these buildings. Countless places usually seen through rose-colored glasses bear painful memories and permanent scars behind their facades. Their stories prompt a reconsideration of these sites beyond their attraction as tourist spots and reflection on the impact of war on people as well as the walls that surround, defend, shelter, represent, fail, and at times imprison. Survivors of War Architecture before the 21st century is not an exhaustive history of Europe's wars or architecture. The chosen sites are organized by countries which have been narrowed down to some of the most famous locations in France, Italy, England, Germany, Russia, Spain, Poland, Austria, Czech Republic, Finland, the Netherlands, Turkey, Syria, Bosnia Herzegovina, and Greece in no particular order. The first five chapters are each assigned to a country while the last chapter groups architectural sites in multiple countries. The latter was organized in this way because these countries had less than three sites that I decided to include in this book. There are many palaces, bridges, fortresses, towers, and plazas with fascinating war stories that did not make it into this book but that I hope to write about one day. To begin here are the stories of those that are sure to capture any reader's interest.

 centers around the famous Napoleon Bonaparte 1769 1821 Napoleon entered the Paris Military Academy cole Militaire in
 1784 and within a year he was commissioned as an artillery lieutenant He took office as deputy commander of the Corsica
 National Army during the French Revolution in 1789 With the success of the November 1799 coup d tat Napoleon became a
 powerful figure of authority and eventually went on to become the emperor of France's first empire from 1804 to 1815
 Although he suffered a crushing defeat at the hands of the British Royal Navy at the Battle of Trafalgar Napoleon
 nevertheless conquered the Continent by bringing down the Prussian and Russian empires and defeating Austria which
 effectively dissolved the Holy Roman Empire THE LOUVRE MUSEUM 18p Edward IV of the victorious House of York was
 crowned king and Henry VI was executed in the Tower of London Later when Edward IV died after more than a decade of
 rule his 12 year old son Edward V was crowned king in 1483 but just two months after he ascended the throne the young
 king went missing along with his brother Richard of Shrewsbury the Duke of York In 1674 workmen repairing the stairs of
 the White Tower of the Tower of London found a box containing the remains of two children presumed to be the remains of
 the two brothers Eventually the Wars of the Roses concluded with the death of Richard III in the Battle of Bosworth Field
 thus opening up the era of the House of Tudors who ruled the Kingdoms of England and Ireland under five monarchs and the
 accession of Henry VII THE TOWER OF LONDON 65p Home to 127 factories and industries Dresden was the seventh largest
 German city and the center of telecommunications and manufacturing by the 20th century For this reason this important
 industrial city became an obvious target for Allies during World War II From February 13 to February 15 in 1945 722 British
 Air Force bombers and 527 U S Army Air Force bombers flew over Dresden and dropped more than 3 900 tons of bombs
 upon the beautiful city The heat generated by bombings and bombs created a firestorm throughout Dresden This tragic
 bombing destroyed 90% of Dresden and killed about 25 000 innocent civilians The Church of Our Lady endured two days of
 Allied bombing but eventually succumbed at 10 a m on February 15 to the heat generated 650 000 incendiary bombs that fell
 on the city This was mainly because the material of the church sandstone was particularly vulnerable to heat DRESDNER
 FRAUENKIRCHE 121p With the outbreak of World War I in 1914 the last Tsar of the Romanov dynasty of Russia Nicholas II
 1868 1918 had 15 million soldiers jump into the battlefield in order to mollify the people's discontent Sadly due to the
 incapacity of the commanders 800 000 Russians were defeated by the far fewer 160 000 Germans in the Battle of
 Tannenberg Due to the void left by the mass of young men taken into war the labor force in Russia rapidly deteriorated which
 in turn resulted in greater suffering for the people The prolonged period of such dire circumstances and hardships during
 World War I the last dynasty of Russia collapsed after the February and October Revolutions of 1917 upon which the Soviet

regime was established HERMITAGE MUSEUM 180p The name Colosseum comes from the Latin word Colossale which means colossal It is believed that the Colosseum s name came from its location near to a 30 meter tall colossal statue of Emperor Nero that no longer exists The enormous amphitheater is 188 meters in diameter 156 meters in length 527 meters in circumference and 48 meters in height Made of four arcaded stories this single structure exhibits all three architectural styles of Greece and Rome The ground level is made of columns in the simple and heavy Doric order the second story is made in the soft and delicate Ionic order and the third and fourth stories are made in the slender and decorative Corinthian order Marble decorates the outer walls while wood and reddish sand covers the stadium s floor in order to disguise the blood that was spilt from the violent games that took place there THE COLOSSEUM 192p The official symbol of UNESCO is modeled on the Parthenon The reason for this is because the Parthenon is representative of UNESCO s efforts to protect cultural treasures In order to prevent further damage due natural disasters time and wars UNESCO designated the Parthenon as World Heritage Site No I There have been renovations amde throughout the temple but different marble colors were used to differentiate between the original and repaired columns To reach this temple which sits atop the Acropolis visitors need to pass by many other sites Among them Herodes Atticus Theater is an outdoor theater located on the southwest part of the Acropolis Parts of the Parthenon are displayed in the British Museum in London England When will they return to their original home THE PARTHENON 258p
