**CIA Documents on the Cuban Missile Crisis** DIANE Publishing Company, 1995-03     *Missiles in Cuba* Mark J.

White,1998-02-01 For many years historians of the Cuban missile crisis have concentrated on those thirteen days in October 1962 when the world teetered on the brink of nuclear war Mark White s study adds an equally intense scrutiny of the causes and consequences of the crisis Missiles in Cuba is based on up to date scholarship as well as Mr White s own findings in National Security Archive materials Kennedy Library tapes of ExComm meetings and correspondence between Soviet officials in Washington and Havana all newly released His more rounded picture gives us a much clearer understanding of the policy strategies pursued by the United States and the Soviet Union and to a lesser extent Cuba that brought on the crisis His almost hour by hour account of the confrontation itself also destroys some venerable myths such as the unique initiatives attributed to Robert Kennedy And his assessment of the consequences of the crisis points to salutary effects on Soviet American relation and on U S nuclear defense strategy but questionable influences on Soviet defense spending and on Washington s perception of its talents for crisis management later tested in Vietnam *A Military History of the Cold War, 1944-1962* Jonathan M. House,2012-11-20 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe
