Secret Hydrographic Surveys In The Spratly Islands:

Secret Hydrographic Surveys in the Spratly Islands D. J. Hancox, John Robert Victor Prescott, 1999 A Geographical Description of the Spratly Islands and an Account of Hydrographic Surveys Amongst Those Islands David Hancox, John Robert Victor Prescott, 1995 The Spratly Islands and International Law Xuechan Ma, 2021-11-29 In The Spratly Islands and International Law Xuechan Ma offers a detailed analysis of legal solutions to achieve coexistence and cooperation in the Spratly Islands in the absence of maritime delimitation This book challenges the classical territoriality model of jurisdiction in international law which is ineffective in the Spratly Islands context where complex and contentious situations call for different solutions Based on the substance procedure duality of international law Ma draws on extensive sources of international law including cases treaties practice and doctrine and formulates novel concrete proposals to indicate the way forward for the Spratly Islands **The South China Sea Arbitration** Stefan Talmon, Bing Bing Jia, 2014-11-01 On 22 January 2013 the Republic of the Philippines instituted arbitral proceedings against the People s Republic of China PRC under the United Nations Convention on the Law of the Sea UNCLOS with regard to disputes between the two countries in the South China Sea South China Sea Arbitration On 19 February 2013 the PRC formally expressed its opposition to the institution of proceedings making it clear from the outset that it will not have any part in these arbitral proceedings and that this position will not change It is thus to be expected that over the next year and a half the Tribunal will receive written memorials and hear oral submissions from the Philippines only The Chinese position will go unheard However the Tribunal is under an obligation before making its award to satisfy itself not only that it has jurisdiction over the dispute but also that the claims brought by the Philippines are well founded in fact and law UNCLOS Annex VII Article 9 This book aims to offer a not the Chinese perspective on some of the issues to be decided by the Tribunal and thus to assist the Tribunal in meeting its obligations under the Convention The book does not set out the official position of the Chinese government but is rather to serve as a kind of amicus curiae brief advancing possible legal arguments on behalf of the absent respondent The book does not deal with the merits of the disputes between the Philippines and the PRC but focuses on the questions of jurisdiction admissibility and other objections which the tribunal will have to decide as a preliminary matter The book will show that there are insurmountable preliminary objections to the Tribunal deciding the case on the merits and that the Tribunal would be well advised to refer the dispute back to the parties in order for them to reach a negotiated settlement The book brings together scholars of public international law from mainland China Taiwan and Europe united by a common interest in the law of the sea and disputes in the South China Sea This title is included in Bloomsbury Professional s International Arbitration online service **The South China Sea Maritime Dispute** Leszek Buszynski, Christopher B. Roberts, 2014-09-25 The South China Sea is a major strategic waterway for trade and oil shipments to Japan Korea as well as southern China It has been the focus of a maritime dispute which has continued now for over six decades with competing claims from China

Vietnam the Philippines Indonesia and Brunei Recently China has become more assertive in pressing its claims harassing Vietnamese fishing vessels and seizing reefs in the Philippine claim zone China has insisted that it has indisputable sovereignty over the area and has threatened to enforce its claim All of this is unsettling and draws in the United States which is concerned about freedom of navigation in the area The US has been supporting the Philippines and has been developing security ties with Vietnam as a check upon China This book examines the conflict potential of the current dispute it discusses how the main claimants and the United States view the issue and assesses the prospects for a resolution of the problem

The Regime of Islands Reframed Clive Schofield,2021-02-08 In *The Regime of Islands Reframed* Clive Schofield examines the definition of islands and other insular features under the international law of the sea Particular reference is made to the arbitration case between China and the Philippines concerning the South China Sea which as the first detailed international judicial examination and interpretation of the Regime of Islands has reframing understanding of the definition of islands Reactions to the Award in the South China Sea case are appraised confirmations and clarifications provided by the Award are highlighted as well as remaining uncertainties and scope for conflicting interpretation The high standard for fully entitled island status set by the Tribunal in the South China Sea case is underlined as is scope for flexible application of the approach to island definition adopted by the Tribunal The potential implications of the Award both within and beyond the South China Sea are explored
