The Politics of Transparency in Modern American Fiction Paula Martín Salván, Sascha Pöhlmann, 2024. A much needed contribution to and critique of debates in the newly emerging field of transparency studies from the perspective of American literary studies. In the twenty-first century, transparency has become an ambiguous buzzword both in the public and the private realms. e.g. Wikileaks and the Snowden affair, social media. This volume takes its cue from the emerging field of transparency studies, recent scholarly work in sociology, political theory, and cultural studies that identifies a hegemonic rhetoric of transparency in public and political life. While scholars in this new field routinely gesture toward literature as the realm where secrecy may be productive, they rarely engage with literature directly, and literary studies itself remains notably absent from their debates. This collection of essays seeks to redress that state of affairs by focusing on literary texts written in an American cultural tradition steeped in the interplay between transparency and exposure, fear and secrecy, security and surveillance, and information and disinformation. The essays draw on authors ranging from Whitman, James, and Ellison to Pynchon, Morrison, and Eggers to argue that American literature complicates theoretical assumptions about transparency made in other disciplines. They question the field's strong theoretical emphasis on present-day technopolitical practices and discourses as the location of hegemonic discourse on transparency and instead historicize such phenomena and extend them to discursive spheres that have so far been neglected, such as issues of sexuality and race. Edited by Paula Martín Salván and Sascha Pöhlmann. Contributors: Tomasz Basiuk, Jesús Blanco Hidalgo, Cristina Chevere, San Julia Faisst, Michel Feith, Julián Jimenez Heffernan, Tiina Kakkela, Juan López de Luque, Umberto Rossi, Jelena Sesnić, Toon Staes, Julia Straub, Alice Sundman.

The Book Of Enoch Efrén Gamboa, 2018-08-31. The book of Enoch was the first book ever written in any language. The language was described as the heavenly language, which today we know it as Hebrew. Hebrew was also the language of the first humans and all living things before the fall of man at the Garden of Eden. But because of the distribution of languages during the Tower of Babel, Hebrew was forgotten until the lifetime of Abraham. Abraham was taught the language by angels of God, and he revived the Heavenly language upon the Earth. So now days there will be other languages that will test more ancient than Hebrew through discoveries of things that have a written language upon it that can be carbon dated for age, unless we can find the original books of Enoch, but until now only translations of the book have been found in other languages. In the Dead Sea scrolls, the book of Enoch was found within the books revered as the books of the Old Testament that were dated from 404 to 203 BCE. What they found was only a copy of the book and not the original. According to what language the

manuscript is found the rewriters gave the God of their religion the credit of being God creator but the world knows that only the God of Israel had angels with the name of Michael Gabriel and Ariel All others have been copycats and have tried to include the names of what they call their own angels and gods and beliefs into the book of Enoch
