Lord Salisbury And Foreign Policy The Close Of The Nineteenth Century:

Lord Salisbury and Foreign Policy John A. S. Grenville, 1970

Lord Salisbury's World Michael Bentley, 2001-09-06

Lord Salisbury 1830 1903 is now a subject of intense historical attention This important study moves away from conventional biography and presents an original portrait of the mental world inhabited by late Victorian Conservatives at the time when their world view was coming under severe strain At the centre of the picture is the 3rd Marquess of Salisbury but Lord Salisbury's World does not simply tell the story of his life and politics Instead it asks sensitive questions about how the political intellectual and religious environments of the late Victorian period seemed to one of its sharpest intellects and it situates Salisbury and his immediate entourage in a wide landscape of relationships perceptions and problems Professor Bentley takes the reader into Conservative assumptions about time and space property and society religion and the state and the past and the future the very language in which they expressed themselves The End of the Spanish Empire, 1898-1923

Sebastian Balfour, 1997 This is the first full account in any language of Spain's disastrous war with the United States in 1898 in which she lost the scattered remnants of her old empire It is also the first comprehensive analysis of the ensuing political and social crisis in Spain stretching from the loss of the Empire to the military coup of 1923 Sebastian Balfour weaves together political economic and social history in his study of the reaction to war and crisis by a wide range of participants from rioters to rulers He examines the rise of Catalan nationalism the fruitless efforts of politicians and intellectuals to regenerate Spain from above the disintegration of Spain's political system before 1923 and the creation of an imperial myth in the subsequent dictatorship of Primo de Rivera and Franco This is essential reading for anyone wishing to understand the roots of the Spanish crisis in the first half of the twentieth century **A New England?** G. R. Searle, 2005-07-29 G R Searle

s absorbing narrative history breaks conventional chronological barriers to carry the reader from England in 1886 the apogee of the Victorian era with the nation poised to celebrate the empress queen's golden jubilee to 1918 as the war to end all wars drew to a close leaving England to come to term with its price above all in terms of human life but also in the general sense that things would never be the same again This was an age of extremes a period of imperial pomp and circumstance with a political elite preoccupied with display and ceremony alongside the growing cult of the simple life the zenith of imperialism with its idealization of war on the one hand the start of the Labour Party a socialist renaissance and welfare politics on the other and a radical challenging of traditional gender stereotypes in the face of the prevailing cult of masculinity Under Professor Searle's historical microscope all the details of daily life spring into sharp relief Half forgotten figures such as Edward Carpenter Vesta Tilley and Sir Henry Campbell Bannerman take their place on stage beside Oscar Wilde the Pankhursts and Lloyd George Motoring and aviation to become such an intrinsic part of life within the next decades had their beginnings in this period as pastimes for the rich From the wretched slums of England's great cities to their bustling docks and factories from the grand portals of Westminster to the violent political challenges of the Ulster

Unionists and the militant suffrage movement from Blackpool's tower and beach packed with holidaymakers to the trenches of the Western Front the energy creativity and often destructive turmoil of the years 1886-1918 are brought into focus in this magisterial history **THE NEW OXFORD HISTORY OF ENGLAND** The aim of the New Oxford History of England is to give an account of the development of the country over time It is hard to treat that development as just the history which unfolds within the precise boundaries of England and a mistake to suggest that this implies a neglect of the histories of the Scots Irish and Welsh Yet the institutional core of the story which runs from Anglo Saxon times to our own is the story of a state structure built round the English monarchy and its effective successor the Crown in Parliament While the emphasis of individual volumes in the series will vary the ultimate outcome is intended to be a set of standard and authoritative histories embodying the scholarship of a generation *For the File on Empire* NA NA,2016-02-25 **Protectorate Cyprus** Gail Dallas Hook,2015-02-17 A strategic outpost in the Eastern Mediterranean Cyprus was vital to British imperial ambitions in the East as the Ottoman Empire grew increasingly fragile in the nineteenth century Here Gail Dallas Hook describes the British occupation of Cyprus from 1878 to 1914 during which British government science and capital investment were installed alongside a new British colonial community building British Cyprus long before the island became a formal part of the British Empire Protectorate Cyprus further demonstrates how the British attempted to bring good government to Cyprus yet failed to resolve the issues of Muslim and Greek Orthodox divisions It is a unique representation of Britain's informal empire before World War I that has been little studied Protectorate Cyprus is a crucial addition to the history of the British Empire **Chocolate on Trial** Lowell Joseph Satre,2005 At the turn of the twentieth century Cadbury Bros Ltd was a successful Quaker owned chocolate manufacturer in Birmingham England celebrated for its model village modern factory and concern for employees In 1901 the firm learned that its cocoa beans purchased from Portuguese plantations on the island of S o Tom off West Africa were produced by slave labor **Chocolate on Trial** Cadbury Slavery and the Economics of Virtue in Imperial Britain gives a lively and highly readable account of the events surrounding the libel trial in which Cadbury Bros Ltd sued the London Standard following the newspaper's accusation that the firm was hypocritical in its use of slave grown cocoa As compelling now as at the turn of the previous century the issues probed by Lowell J Satre give invaluable historical background to contemporary issues of business ethics corporate social responsibility and globalization The story Satre tells illuminates what a stubbornly persistent institution slavery was and shows how Cadbury a company with a well regarded brand name and logo endured ethical dilemmas and challenges to its record for social responsibility **Chocolate on Trial** brings to life the age old conflict between economic interests and the value of human life Satre illuminates the stubborn persistence of the institution of slavery and shows how Cadbury a company with a well regarded brand name from the nineteenth century faced ethical dilemmas and challenges to its record for social responsibility **Chocolate on Trial** brings to life the age old conflict between economic interests and regard for the dignity of human life **Britain and the Armenian**

Question Akaby Nassibian,2023-11-06 First published in 1984 Britain and the Armenian Question examines the direction changes and ramifications of British policy towards Armenia during 1915 to 1923 The author has made extensive use of parliamentary papers and those of the Cabinet Foreign Office War Office and India office as well as documents produced by pro Armenian groups during the period This material is used to build up a detailed and incontrovertible study of British policy which shows the extent to which it was governed by self interest even when support for Armenia was its most altruistic Once Britain secured predominance in the Persian Gulf she lost all her interest in Armenian territory and the dilemma was posed when the war ended not only did she no longer need Armenia but also had to decide who to support in Russia Armenia lost out on all sides and was compelled eventually to adapt herself to the policies of the surrounding countries This is an interesting read for scholars and researchers of international relations and international political history

British Political Leaders Keith Laybourn,2001-08-16 This A Z biographical dictionary profiles Britain s prime ministers foreign secretaries home secretaries and Chancellors of the Exchequer from 1730 through the present all in clear concise language These leaders guided the nation through the loss of empire through two devastating world wars and into a new role as members of the European Union In clear accessible language this new dictionary shows how in the 18th century and to a lesser extent in the 19th century many of Britain s top leaders were linked more closely by family and factional interests than by party It also illustrates and helps to explain the rise of the Labour Party and the emergence of New Labour

The Origins of World War I Richard F. Hamilton,Holger H. Herwig,2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coterie in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coterie their backgrounds and training and on their unique agendas

British Foreign Secretaries and Japan, 1850-1990 Anthony Best,Hugh Cortazzi,2025-10-01 This book reviews the role of British Foreign Secretaries in the formulation of British policy towards Japan from the re opening of Japan in the middle of the nineteenth century to the end of the twentieth century It also takes a critical look at the history of British relations with Japan over these years Beginning with Lord John Russell Foreign Secretary 1859 1865 and concluding with Geoffrey Howe Secretary of State for Foreign Commonwealth Affairs 1983 1989 the volume also examines the critical roles of two British Prime Ministers in the latter part of the twentieth century Edward Heath and Margaret Thatcher who ensured that Britain recognized both the reality and the opportunities for Britain resulting from the Japanese

economic and industrial phenomenon Heath's main emphasis was on opening the Japanese market to British exports Thatcher's was on Japanese investment This volume is a valuable addition to the Japan Society's series devoted to aspects of Anglo Japanese relations which includes ten volumes of Britain Japan Biographical Portraits as well as British Envoys in Japan *Bankers and Diplomats in China 1917-1925* Roberta Allbert Dayer, 2013-11-05 First Published in 1981 Contrary to Chairman Mao's assertion that political power comes from the barrel of a gun this study contends that political power in China in the early 1920s emanated from the boardrooms of foreign banks The author's interest in the way financial concerns have shaped foreign policy began with the discovery that the Lloyd George government attempted to influence the American government's policy on the British war debts by offering concessions concerning the renewal of the Anglo Japanese Alliance This study should provide understanding concerning the causes of Chinese bitterness as well as suggest the conflicts experienced by diplomats in balancing public and private interests **British Imperialism** P.J. Cain, A. G.

Hopkins, 2014-01-14 A milestone in the understanding of British history and imperialism and truly global in its reach this magisterial account received numerous accolades from reviewers in its first edition The first to coin the phrase gentlemanly capitalism Cain and Hopkins make the strong and provocative argument that it is impossible to understand the nature and evolution of British imperialism without taking account of the peculiarities of her economic development In particular the growth of the financial sector and above all the City of London played a crucial role in shaping the course of British history and Britain's relations overseas Now with a substantive new introduction and a conclusion the scope of the original account has been widened to include an innovative discussion of globalization *The Lion and the Eagle* Kathleen Burk, 2018-08-23 An invigorating history of the arguments and cooperation between America and Britain as they divided up the world and an illuminating exploration of their underlying alliance Throughout modern history British and American rivalry has gone hand in hand with common interests In this book Kathleen Burk brilliantly examines the different kinds of power the two empires have projected and the means they have used to do it What the two empires have shared is a mixture of pragmatism ruthless commercial drive a self righteous foreign policy and plenty of naked aggression These have been aimed against each other more than once yet their underlying alliance against common enemies has been historically unique and a defining force throughout the twentieth century This is a global and epic history of the rise and fall of empires It ranges from America's futile attempts to conquer Canada to her success in opening up Japan but rapid loss of leadership to Britain from Britain's success in forcing open China to her loss of the Middle East to the US and from the American conquest of the Philippines to her destruction of the British Empire The Pax Americana replaced the Pax Britannica but now the American world order is fading threatening Britain's belief in her own world role *The Strange Survival of Liberal Britain* Vernon Bogdanor, 2022-10-20 Masterly A fascinating tour d'horizon of the Edwardian political scene This must be a definitive account Professor Jane Ridley author of *George V Never a Dull Moment* A tour de force sympathetic in its treatment of the

subject eminently wise in its judgement and invariably fair in its verdicts It purrs along like a Rolls Royce engine Professor T G Otte author of *Statesman of Europe A Life of Sir Edward Grey* This brilliant book from Britain s most important constitutional historian upends the orthodoxy about the decadent Edwardians A masterpiece of intelligent history both forceful and subtle which transforms how we view not just those most complex Edwardians but also our own equally complex times Professor Richard Aldous author of *The Lion and the Unicorn Gladstone vs Disraeli* Brilliant Instantly the leading history of this turbulent and critical period in Britain s transition towards a modern democracy Professor Robert Blackburn King s College London Vernon Bogdanor has the habit of unearthing gems that have been missed by others He does it again in this magisterial work on post Gladstonian Britain by challenging some of the long established myths about this period that deserve to be cast aside Professor Malcolm Murfett King s College London Professor Bogdanor argues with conviction and sometimes passion but always with judiciousness and in the light of deep reflection The result is a masterly work which speaks to the politics of our own time Alvin Jackson Richard Lodge Professor of History University of Edinburgh An extraordinary exploration of a political world whose dynamics continue to shape the future of liberal constitutionalism Bruce Ackerman Sterling Professor of Law and Political Science Yale University Crisp authoritative and lucid Nicholas Owen associate professor of politics University of Oxford The turbulent years of 1895 to 1914 changed Britain s political landscape for ever They saw a transition from aristocratic rule to mass politics and heralded a new agenda which still dominates today The issues of the period economic modernisation social welfare and equality secondary and technical education a new role for Britain in the world were complex and difficult Indeed they proved so thorny that despite the efforts of the Edwardians they remain among the most pressing problems we face in the twenty first century The period has often been seen as one of decadence of the strange death of liberal Britain In contrast Vernon Bogdanor believes that the robustness of Britain s parliamentary and political institutions and her liberal political culture with the commitment to rational debate and argument were powerful enough to carry her through one of the most trying periods of her history and so make possible the remarkable survival of liberal Britain In this wide ranging and sometimes controversial survey one of our pre eminent political historians dispels the popular myths that have grown up about this critical period in Britain s story and argues that it set the scene for much that is laudable about our nation today

[Diplomacy Before the Russian Revolution](#) M. Hughes,1999-09-30 This book reassesses the transformation of European diplomacy which took place at the beginning of the twentieth century It focuses on the British and Russian diplomatic establishments during the years 1894 1917 in order to illustrate both the heterogeneity and complex nature of the Old Diplomacy The book will ground discussion in a series of case studies designed to illustrate both the benefits and the pitfalls of generalizing about a complicated process of transformation that had a range of social political administrative and psychological dimensions

British Foreign Secretaries in an Uncertain World, 1919-1939 Michael Hughes,2004-08-02 The nature of international diplomacy and Britain s world role

changed immeasurably after the end of the First World War and this book shows how the various men who headed the Foreign Office during the interwar years sought to operate in the shifting political and bureaucratic environments that confronted them

British Foreign Secretaries in an Uncertain World examines the careers of each of the interwar Foreign Secretaries including Lord Curzon Ramsay MacDonald and Anthony Eden Using an extensive range of primary sources both published and unpublished official and private Michael Hughes provides a detailed assessment of how these men approached their role and how influential they were in international diplomacy The book also looks at the Foreign Secretaries successes or failures within the British political system analysing how influential the Foreign Office was under each Secretary in determining British foreign policy A fascinating book with a unique focus

British Foreign Secretaries in an Uncertain World takes a rigorous look at a key topic in British history

Isolated States Deon Geldenhuys,1990 This book examines a largely neglected phenomenon in the field of international relations the concept of the isolated state Deon Geldenhuys begins by discussing how he measures both voluntary and enforced international isolation by among other things membership of international organizations official visits and international censure He then presents a number of case studies of self isolation The remainder of the study is devoted to an analysis of the enforced isolation of Taiwan Israel Chile and South Africa Using a wealth of statistical material he demonstrates their varying degrees of isolation in the diplomatic military economic and socio cultural arenas of the international community

Old World, New World Kathleen Burk,2009 A history of the relationship between Great Britain and the United States ranges from the establishment of the first English colony in the New World to the present day examining both nations in terms of what connected them and what drove them apart

A Peace to End All Peace David Fromkin,2010-08-03 Published with a new afterword from the author the classic bestselling account of how the modern Middle East was created The Middle East has long been a region of rival religions ideologies nationalisms and ambitions All of these conflicts including the hostilities between Arabs and Israelis and the violent challenges posed by Iraq s competing sects are rooted in the region s political inheritance the arrangements unities and divisions imposed by the Allies after the First World War In *A Peace to End All Peace* David Fromkin reveals how and why the Allies drew lines on an empty map that remade the geography and politics of the Middle East Focusing on the formative years of 1914 to 1922 when all seemed possible he delivers in this sweeping and magisterial book the definitive account of this defining time showing how the choices narrowed and the Middle East began along a road that led to the conflicts and confusion that continue to this day A new afterword from Fromkin written for this edition of the book includes his invaluable updated assessment of this region of the world today and on what this history has to teach us

Thank you for reading **Lord Salisbury And Foreign Policy The Close Of The Nineteenth Century**. As you may know, people have look hundreds times for their favorite novels like this Lord Salisbury And Foreign Policy The Close Of The Nineteenth Century, but end up in malicious downloads.
