## **Losing Your Sight:**

**How To Go Blind and Not Lose Your Mind** Mike Harmer, 2005-08-01 How To Go Blind And Not Lose Your Mind discusses the process of losing your sight and ways to deal with it Written through the eyes of a person who has been through the process and survived How To Go Blind And Not Lose Your Mind begins at the diagnosis walks you through the stages of sight loss and explores emotional and physical problems associated with going blind It describes low vision legal blindness loss of independence and what it may mean to you You will find what help and visual aids are available There are physical and emotional problems with loss of sight however you can still keep your vision about living and enjoy a full happy life This book gives more than just hope it is the vision you need while losing your sight *Prayer Changes Things* Dag Heward-Mills, 2023-02-20 Prayer changes things When you spend time in prayer you become anointed and begin to move in the supernatural Every time you pray supernatural things happen Whatever is a source of concern to you can be addressed by prayer You may not know any important person but you can pray You may not have money but you can pray Don't wait until you have a crisis before you pray Learn how to pray now In this captivating book on Prayer Bishop Dag Heward Mills reminds the Christian of the potential he has available through the power of Prayer Prayer changes things **Seerstone** Joe Fasbinder, 2018-05-30 Seerstone is a thoroughly researched tension wrought tale of greed and how it dazzles and threatens sometimes using the most arcane and unearthly means to conquer a man and his family and to wring seemingly impossible changes potentially enormous changes in the life of Dayer Preston who with his wife has always striven to work toward the light as they understand it The story takes place at the dawn of the nineteenth century in Williker Township a cold and dying place in western New York State at a time when it seemed that there was no magic strong enough to make things right to bring forth abundance from an earth that withheld its bounty despite man's best efforts Despite the magic that stirred the spirits of heaven and earth It is a strange and unearthly time It was an era in which an average everyday person knew that if you put a few hairs in a glass of water they would turn into worms overnight and that to assure prosperity lamens scrawled with magic words would be placed behind the mantel The line between magic and reality was blurred and so the arrival of a ritual magician at your door on an early spring night wasn't much to be noticed not even when he began to bring a struggling farm family closer and closer to the line between objective reality and a world ruled over by magic words scrawled on a page It is a tale of mystery How much can the magician Walters bring forth How much of what he says are lies And how much of what he possesses can bring forth bounty and potential wealth from an unforgiving earth How much is simply evil And can it be controlled And why is Dayer Preston so necessary to the grandest of all the magic rituals that awaits them *Losing Your Sight* Ellen Daniels, 2001 This very positive book explains what it is really like to be blind and how the sighted can help to make their lives easier Topics include The eye and what blind people see describing and illustrating distortions in vision caused by various eye conditions Communication emphasising the importance in the sighted world of eye contact and body

language and what happens when these communication aids are taken away Barriers created by assumptions which often underestimate the capabilities of the visually impaired Hazards and how best to avoid them The value of counselling giving a unique insight into problems the blind and their carers face Registration names addresses phone numbers and websites of useful organisations Clearly and sympathetically written this is an invaluable guide for professional and lay readers alike

**When You Can't Believe Your Eyes** Hannah Fairbairn,2019-07-05 This book was first projected in 2004 when Author Hannah Fairbairn was teaching interpersonal skills at the Carroll Center for the Blind in Newton Massachusetts The experiences of her adult students and her own experience of sight lost convinced her that everyone losing vision needs access to good information about the process of adjustment to losing sight and practical ways to use assertive speech When You Can t Believe Your Eyes is intended for anyone going through vision loss their friends and families It will inform readers how to get expert professional help face the trauma of loss and navigate the world using speech more than sight Each of the twelve chapters in the book contain many short sections and bullet point lists intended to facilitate access to the right information It begins where you begin at the doctor s office or the hospital Since vision loss takes many forms there are suggestions for questions you might ask to get a clear diagnosis and the best treatment Part One also has a description of legal blindness and possible prevention advice about your job and tips for life at home Part Two is about believing in yourself as you deal with the loss the anger and the fear before you come up for air and consider training Parts Three and Four describe using assertive speech and action in all kinds of settings as your independence and confidence increase Part Five gives detailed information about everything from dating and caring for babies to senior living volunteering and retaining your job It is hoped that by reading and trying out the suggestions the reader will recover full confidence become a positive assertive communicator and lead a satisfying life Because vision loss happens mostly in older years the book is written with seniors particularly in mind Professionals will also find it to be a useful resource for their patients

Roizen,Mehmet Oz,2007-10-30 The body is the most fascinating machine ever created and nobody talks about it in ways that are as illuminating and compelling as Dr Michael Roizen and Dr Mehmet Oz Most people think of the aging of our bodies the same way we think of the aging of our cars the older we get the more inevitable it is that we re going to break down Most of us believe that at age 40 or so we begin the slow and steady decline of our minds our eyes our ears our joints our arteries our libido and every other system that affects the quality of life and how long we live it But according to Dr Roizen and Dr Oz that s a mistake Aging isn t a decline in our systems It s actually very purposeful The very systems and biological processes that age us are designed to help us when we re a little bit younger So what s our role as part of the aging population To learn how those systems work so we can reprogram them to work the way they did when we were younger Your goal should be die young at any age That means you live a high quality of life with everything from working joints to working genitals until the day you die At the core of this landmark book are the Major Agers 14 biological processes that control your rate of aging Some you ve heard of some you haven t and some you never knew contributed to the aging process Some speed decline others inhibit your repair mechanisms These Major Agers are everything from short telomeres and inefficient mitochondria to stem cells and wacky hormones The doctors explain the principles of longevity and many of the causes of aging and how to fight the effects The climax of the book is a 14 day plan to help you along your path to staying young The doctors want you to be able to integrate important processes into your daily life in order to make staying young routine but first you ll need to

measure your real age and health right now Staying young encompasses your emotions and mental health as well as your exercise habits eating habits personal hygiene and genes among other things Wouldn't you like to know how to prevent your body from aging badly The original YOU book showed how bodies work in general and YOU On a Diet explained how bodies lose weight and stay fit Now in YOU Staying Young Drs Michael Roizen and Mehmet Oz illuminate the mysterious mechanisms with a lively metaphor the modern city What differentiates a vibrant and thriving city that ages gracefully from one that is worn down and rusted out Despite genetic differences which are like the geography upon which the city is built cities age differently because of the way residents treat their education system stem cells power plants mitochondria electrical grids brains transportation routes blood vessels and landfills fat You as mayor resident and street cleaner have the power to balance your biological budget to ensure a life that's both long and strong Thankfully just as cities can invest in renewal and improving their repair processes so can you YOU Staying Young is filled with signature YOU Tools including YOU Tests YOU Tips and visual and verbal metaphors to bring the science to life
