The Lost Realms (Book IV) Zecharia Sitchin, 1990-09-01 The Earth Chronicles series is based on the premise that mythology is not fanciful but the repository of ancient memories that the Bible ought to be read literally as a historic scientific document and that ancient civilizations older and greater than assumed were the product of knowledge brought to Earth by the Anunnaki Those Who from Heaven to Earth Came The 12th Planet the first book of the series presents ancient evidence for the existence of an additional planet in the Solar System the home planet of the Anunnaki In confirmation of this evidence recent data from unmanned spacecraft has led astronomers to actively search for what is being called Planet X The subsequent volume The Stairway to Heaven traces man s unending search for immortality to a spaceport in the Sinai Peninsula and to the Giza pyramids which had served as landing beacons for it refuting the notion that these pyramids were built by human pharaohs Recently records by an eye witness to a forgery of an inscription by the pharaoh Khufu inside the Great Pyramid corroborated the book s conclusions The Wars of Gods and Men recounting events closer to our times concludes that the Sinai spaceport was destroyed 4 000 years ago with nuclear weapons Photographs of Earth from space clearly show evidence of such an explosion Such gratifying corroboration of audacious conclusions has been even swifter for The Lost Realms In the relatively short interval between the completion of the manuscript and its publication archaeologists linguists and other scientists have offered a coastal theory in lieu of the frozen trekking one to account for man s arrival in
