Lost Tombs Manniche, 2014-02-24 First published in 1988 The Theban private tombs form a major source for our knowledge of Egyptian society Ostensibly a great amount of work has been done in the necropolis over the past one hundred and sixty years of its modern history and the bibliography for this area is among the most extensive in Egyptology Many of the 415 or so decorated tombs have received a full publication but for a great number only selected scenes have been made available and a surprising amount remains to all intents and purposes unpublished The present study is concerned with a number of painted tombs of the Eighteenth dynasty which were visited by the early travellers but the exact location of which is now unknown The careful drawings and tracings made by these pioneers are apparently all that remains to show the appearance of these tombs Some of the scenes represented are not found elsewhere in the necropolis and others have special points of interest or unique details linguistic iconographic and religious to offer This very important material has not previously been used by scholars and it has not been recognized that fragments of some of these vanished tombs can actually be traced to collections in museums and elsewhere *The Lost Tomb* Kent R. Land of Our Fathers Francesca Stavrakopoulou,2011-04-17 The biblical motif of a land divinely promised and given to Abraham and his descendants is argued to be an ideological reflex of post monarchic territorial disputes between competing socio religious groups The important biblical motif of a Promised Land is founded upon the ancient Near Eastern concept of ancestral land hereditary space upon which families lived worked died and were buried An essential element of concept of ancestral land was the belief in the post mortem existence of the ancestors who were venerated with grave offerings mortuary feasts bone rituals and standing stones The Hebrew Bible is littered with stories concerning these practices and beliefs yet the specific correlation of ancestor veneration and certain biblical land claims has gone unrecognized The book remedies this in presenting evidence for the vital and persistent impact of ancestor veneration upon land claims It proposes that ancestor veneration which formed a common ground in the experiences of various socio religious groups in ancient Israel became in the Hebrew Bible an ideological battlefield upon which claims to the land were won and lost

1980 outside Jerusalem The tomb was proved to belong to the second temple period 538 BC 70 CE The book also investigates the claim by James Cameron and Simcha Jacobovici that this tomb contained the remains of Jesus and Mary Magdalene as well as the remains of a child that belonged to them *Egyptology at the Dawn of the Twenty-first Century: Archaeology* zahi hawass,Lyla Pinch Brock,2003 This comprehensive three volume set marks the publication of the proceedings of the Eighth International Congress of Egyptologists held in Cairo in 2000 the largest Congress since the inaugural meeting in 1979 Organized thematically to reflect the breadth and depth of the material presented at this event these papers provide a survey of current Egyptological research at the dawn of the twenty first century The proceedings include the eight Millennium Debates led by esteemed Egyptologists addressing key issues in the field as well as nearly every paper presented at the Congress The 275 papers cover the whole spectrum of Egyptological research Grouped under the themes of archaeology history religion language conservation and museology and written in English French and German these contributions together form the most comprehensive picture of Egyptology today **The Swords of Ezekiel** Tom McCall ThD,Ed Barrett MS,2024-05-08 To those who have a fairly good background in the hard sciences Maybe Ezekiel really did mean horses and ancient armor The Swords of Ezekiel accepts the plain teaching of the text that the Magog raiders wield weapons from the generation before the Gunpowder Revolution and use horses for transportation Consequently the narrative that emerges is a dramatic departure from the generally accepted modern weapons teaching of present day scholars In this alternative understanding the two chapters are complementary descriptions of the same series of events i e One has details that the other does not have The chronological narrative emerges when the two segments are properly aligned like a spline gear on a drive shaft Thoroughly referenced this is the book to read for a better understanding of the relationship between natural science European history legend as guide to history art as secular prophet archaeology outside the Near East and Bible prophecy The primary motives for the raid are anti Israel resentment jealousy and near starvation levels of crop failure hunger The absence of modern weapons is explained as a combination of industrial collapse and an as yet unobserved destabilization of nitrate based propellants and explosives The merchants of Tarshish are identified as the British Commonwealth based on cultural heritage mineral resources geography and geopolitics The Swords of Ezekiel also suggests a location for these events on the prophetic timeline
