Dreams Of Love Thato Motchello, 2017-06-19 Dreams We all have this deep great desire to live and achieve them In sleep they are mysterious and are full of oblique contradictory confusion to our reality And we often wonder what they mean and how we find ourselves in them At times they can be a pleasing wonderful and a great experience of fantasy and desire Yet and also they can be awfully terrifying horrific and a complete nightmare of an experience Well DREAMS OF LOVE is exactly for that It precisely explains how we find ourselves in a dream and how to consciously gain and take control of our dreams when we are in their realm by manipulating its reality very aware It gives the will power and solutions of how to live and achieve our most desired dreams in this world by understanding that the connection of dreams and reality are one

Brain-Based Parenting: The Neuroscience of Caregiving for Healthy Attachment Daniel A. Hughes, Jonathan Baylin, 2012-04-23 An attachment specialist and a clinical psychologist with neurobiology expertise team up to explore the brain science behind parenting In this groundbreaking exploration of the brain mechanisms behind healthy caregiving attachment specialist Daniel A Hughes and veteran clinical psychologist Jonathan Baylin guide readers through the intricate web of neuronal processes hormones and chemicals that drive and sometimes thwart our caregiving impulses uncovering the mysteries of the parental brain The biggest challenge to parents Hughes and Baylin explain is learning how to regulate emotions that arise feeling them deeply and honestly while staying grounded and aware enough to preserve the parent child relationship Stress which can lead to blocked or dysfunctional care can impede our brain s inherent caregiving processes and negatively impact our ability to do this While the parent child relationship can generate deep empathy and the intense motivation to care for our children it can also trigger self defensive feelings rooted in our early attachment relationships and give rise to unparental impulses Learning to be a good parent is contingent upon learning how to manage this stress understand its brain based cues and respond in a way that will set the brain back on track To this end Hughes and Baylin define five major systems of caregiving as they re linked to the brain explaining how they operate when parenting is strong and what happens when good parenting is compromised or blocked With this awareness we learn how to approach kids with renewed playfulness acceptance curiosity and empathy re regulate our caregiving systems foster deeper social engagement and facilitate our children s development

Infused with clinical insight illuminating case examples and helpful illustrations Brain Based Parenting brings the science of caregiving to light for the first time Far from just managing our children s behavior we can develop our parenting brains and with a better understanding of the neurobiological roots of our feelings and our own attachment histories we can transform a fraught parent child relationship into an open regulated and loving one **How to Get Your Child to Love Reading** Esmé

Jones-Allen,2009-11 This book is an Emotional Experience to Unleash Pain Hope and Determination When I wrote this book the thought never occurred to me that so many people shared similar if not the same exact experiences as I At first it was very difficult for me to express in words especially in writing deep secrets that were embedded with shame guilt and internal fears Before divine intervention helped me understand that childhood hurts are just that childhood hurts I was continuously engulfed in a battle that raged war between my spirit soul and body If these hurts are left untreated or unaddressed these childhood hurts have the potential of developing into an array of unwelcomed personality disorders emotional problems and physical illnesses that interferes with one s education relationships finances and spirituality Sadly human behaviors are often altered by society ills toxic environments and learned behaviors which deepens internal conflicts When a person recognizes that good is within them they are able to see themselves differently In order for many of us to move forward we will have to journey back a trip that goes far beyond one s immediate family circumstances and painful memories As recorded in Genesis the journey oftentimes must go back to the footsteps of the first family it is there that one will find blame guilt and shame in the midst of paradise a place of peace and love It is here where we can accept and understand the meaning of being created in God s image to mirror His presence in the earth Despite life adversities you can live a victorious life by knowing that Christ is in control of your life In this book Mirrored Reflection you will discover my personal pain and my personal determination to love and to be loved all embraced the Blessed Hope Ideas for Parents Mark Matlock,Christopher Lyon,2012-07-03 You
