**The Body** ??, 1987-01-01 This book explores mind body philosophy from an Asian perspective It sheds new light on a problem central in modern Western thought Yuasa shows that Eastern philosophy has generally formulated its view of mind body unity as an achievement a state to be acquired rather than as essential or innate Depending on the individual's own developmental state the mind body connection can vary from near dissociation to almost perfect integration Whereas Western mind body theories have typically asked what the mind body is Yuasa asks how the mind body relation varies on a spectrum from the psychotic to the yogi from the debilitated to the athletic from the awkward novice to the master musician Yuasa first examines various Asian texts dealing with Buddhist meditation kundalini yoga acupuncture ethics and epistemology developing a concept of the dark consciousness not identical with the psychoanalytic unconscious as a vehicle for explaining their basic view He shows that the mind body image found in those texts has a striking correlation to themes in contemporary French phenomenology Jungian psychoanalysis psychomatic medicine and neurophysiology The book clears the ground for a provocative meeting between East and West establishing a philosophical region on which science and religion can be mutually illuminating

**Retrieving Nicaea** Khaled Anatolios, 2011-08-01 Khaled Anatolios a noted expert on the development of Nicene theology offers a historically informed theological study of the development of the doctrine of the Trinity showing its relevance to Christian life and thought today According to Anatolios the development of trinitarian doctrine involved a global interpretation of Christian faith as a whole Consequently the meaning of trinitarian doctrine is to be found in a reappropriation of the process of this development such that the entirety of Christian existence is interpreted in a trinitarian manner The book provides essential resources for this reappropriation by identifying the network of theological issues that comprise the systematic scope of Nicene theology focusing especially on the trinitarian perspectives of three major theologians Athanasius Gregory of Nyssa and Augustine It includes a foreword by Brian E Daley
