Gibson, 1998-09-30 The bagpipe is one of the cultural icons of Scottish highlanders but in the twentieth century traditional Scottish Gaelic piping has all but disappeared Few recordings were ever made of traditional pipe music and there are almost no Gaelic speaking pipers of the old school left Recording an important aspect of Gaelic culture before it disappears John Gibson chronicles the decline of traditional Highland Gaelic bagpiping and Gaelic culture as a whole and provides examples of traditional bagpipe music that have survived in the New World Pulling together what is known of eighteenth century West Highland piping and pipers and relating this to the effects of changing social conditions on traditional Scottish Gaelic piping since the suppression of the last Jacobite rebellion Gibson

presents a new interpretation of the decline of Gaelic piping and a new view of Gaelic society prior to the Highland diaspora Refuting widely accepted opinions that after Culloden pipes and pipers were effectively banned in Scotland by the Disarming Act 1746 Gibson reveals that traditional dance bagpiping continued at least to the mid nineteenth century He argues that the dramatic depopulation of the Highlands in the nineteenth century was one of the main reasons for the decline of piping Following the path of Scottish emigrants Gibson traces the history of bagpiping in the New World and uncovers examples of late eighteenth century traditional bagpiping and dance in Gaelic Cape Breton Nova Scotia He argues that these anachronistic cultural forms provide a vital link to the vanished folk music and culture of the Scottish highlanders This definitive study throws light on the ways pipers and piping contributed to social integration in the days of the clan system and on the decline in Scottish Gaelic culture following the abolition of clans It also illuminates the cultural problems faced by all ethnic minorities assimilated into unitary multinational societies

The Crooked Stovepipe Craig Mishler,1993 Named for a popular local fiddle tune The Crooked Stovepipe is a rollicking detailed first ever study of the indigenous fiddle music and social dancing enjoyed by the Gwich in Athapaskan Indians and other tribal groups in northeast Alaska the Yukon and the northwest territories Though the music has obvious roots in the British Isles French Canada and the American South the Gwich in have used it in shaping their own aesthetic which is apparent in their choice of fiddle tunings bowing techniques foot clogging and a distinctively stratified tune repertoire Craig Mishler treats this rural subarctic artistic tradition as a distinctive regional style akin to Cajun bluegrass or string band music He uses convergence theory as the framework for showing how this aesthetic came about His skillful use of personal anecdotes interviews music examples dance diagrams and photographs will appeal to general readers interested in folk music and dance as well as to specialists
