SEBASTIAN SMEE

"Success in the arts," wrote Eugène Delacroix, "is not a matter of abridging, but of amplifying, and, if possible, of prolonging the sensation by all possible means." Lucian Freud is the great amplifier of twentieth-century figurative art. His pictures are infused with the most extraordinary sense of duration. He articulates the intimacy and sometimes the estrangement of a unique mode of paying attention to people.

All this he conveys into paint on canvas, and lines etched into copper. The resulting work has the same captivating resistance to preconception or definitive explanation that a mature person has. It induces corresponding uneasiness and tensions in the viewer.

The longer you look over the last decade of Freud's work—the subject of this volume—the more you are struck by the absence of any settled formula. No discernible "late style"—no sense of ebbing loose or passing back—has emerged over this period, which may be because Freud, as Frank Auerbach wrote in 2002, "has no safety net of manner. When ever his way of working threatens to become a style, he puts it aside like a blunted pencil and finds a procedure more suited to his needs."

More noticeable than any late-emerging manner, perhaps, is the quickening variety of the work: huge paintings have been comple-

ted alongside portraits alone, body portraits, grandchildren in various guises.

What determines these? "The only impulse," he often says similarly, "are similarly weak."

"The last few years I've caught up with myself," he says. "I noticed that in my painting I was using my brush more and more. I was annoyed by it being rather defective, rather deflected, but it was like people shouting because someone will get through. If you can use almost mechanical shout as well, the urgency."

The urgency may be the famously slow process (in most cases of no finish; some take years to work). Both, however,

Wacker,2021-02-03 Baroque Tendencies in Contemporary Art is a collection of essays by an international cadre of scholars addressing current trends within the field of contemporary art and how artists and architects reflect upon past traditions and fold them into the present Often referred to as the Neo Baroque scholarship on this topic first emerged in the 1980s with the publication of several notable studies in France but not translated into English until the 1990s in addition a number of recent exhibitions have focused on contemporary responses to the Baroque The Baroque and the Neo Baroque are frequently defined as having a propensity for instability seriality reflexivity fluidity and spectacle This is perhaps partly why in the millennial period there is so much interest in the Baroque we are seeking ways to find parallels between the art of then and the art of our own diverse pluralistic culture This book provides context for how contemporary artists meet and deal with the Baroque both formally and conceptually Among others it provides discussions of the work of American artists John Currin Jeff Koons Frank Stella Lisa Yuskavage American architect Frank Gehry European artists Lucian Freud Jenny Saville Emilio Vedova Latin American artists Monica Castillo Raphael Cauduro Yishai Judisman and New Zealand artists Richard Reddaway and Joanna Langford

The Art of Rivalry Sebastian Smee,2016-08-16 Pulitzer Prize winning art critic Sebastian Smee tells the fascinating story of four pairs of artists Manet and Degas Picasso and Matisse Pollock and de Kooning Freud and Bacon whose fraught competitive friendships spurred them to new creative heights Rivalry is at the heart of some of the most famous and fruitful relationships in history The Art of Rivalry follows eight celebrated artists each linked to a counterpart by friendship admiration envy and ambition All eight are household names today But to achieve what they did each needed the influence of a contemporary one who was equally ambitious but possessed sharply contrasting strengths and weaknesses Edouard Manet and Edgar Degas were close associates whose personal bond frayed after Degas painted a portrait of Manet and his wife Henri Matisse and Pablo Picasso swapped paintings ideas and influences as they jostled for the support of collectors like Leo and Gertrude Stein and vied for the leadership of a new avant garde Jackson Pollock s uninhibited style of action painting triggered a breakthrough in the work of his older rival Willem de Kooning After Pollock s sudden death in a car crash de Kooning assumed Pollock s mantle and became romantically involved with his late friend s mistress Lucian Freud and Francis Bacon met in the early 1950s when Bacon was being hailed as Britain s most exciting new painter and Freud was working in relative obscurity Their intense but asymmetrical friendship came to a head when Freud painted a portrait of Bacon which was later stolen Each of these relationships culminated in an early flashpoint a rupture in a budding intimacy that was both a betrayal and a trigger for great innovation Writing with the same exuberant wit and psychological insight that earned him a Pulitzer Prize for art criticism Sebastian Smee explores here the way that coming into one s own as an artist finding one s voice almost always involves willfully breaking away from some intimate s expectations of who you are or ought to be Praise

Who Am I? Miguel Angel Gonzalez-Torres,2024-10-17 Identity as a concept does not appear in psychoanalysis until the work of Erik Erikson in the 1950s but today it is considered a key factor in understanding individuals and groups It is a concept of enormous complexity encompassing biological aspects internalised object representations that determine the inner world of the subject and relational aspects in the real world Answering the question Who am I really is a task that can span a lifetime Constructing one's own identity involves social cognitive rational and unconscious processes These elements underpin the answer to this question and its corollary What is my value As we move from looking at individuals in isolation to looking at groups we are also confronted with processes of identity construction and repair this time group identities through movements in which sexuality and its expression in the group play a major role This volume begins by exploring how issues of identity underlie many of the phenomena that attract our attention today both as clinicians and as citizens It opens with social and political phenomena such as nationalism where identity issues are most evident and then looks at individual nations such as Spain and their difficulty in maintaining a valuable identity shared by its citizens This is followed by an

analysis of some aspects of social violence and the response to it electoral processes and the manipulation of citizens and also the impact on personal and group identity of the contemporary dynamics in large corporations where double speak and the infantilisation of employees have become commonplace In the second part Miguel Angel Gonzalez Torres reflects on how we can understand the sexual functioning of individuals and groups from an identity perspective emphasising the role of female sexuality as a sentinel element that signals deep group identity dynamics Gender identities and the social response to new proposals and attitudes in this area the contrast between desire and submission and the under explored complexity of the father's role in the contemporary family unit also require a look at the role of individual and collective identity Finally the focus is on artistic creation Mythical authors and mythical works always have an impact on personal and even social identity Many cinematographic works presuppose that the authors are searching for an answer to the question of identity who am I Or rather who are we The book concludes with a reflection on the reparative effect that the urban landscape can have on citizens through buildings and urban plans that relate to people and respond to their desires both conscious and unconscious The book proposes a journey through these three main areas reflecting on the importance of the construction and repair of individual and collective identity in our lives as social beings in our attitudes to sexuality and desire and in our dual role as creators and viewers of art It is the perfect book for curious minds

Fashion and Psychoanalysis Alison Bancroft,2012-02-28 There is an increasing trend within both the study of visual culture and fashion itself to restore fashion to an aesthetic role one that moves beyond its commercial success as a global industry and places fashion within a nexus of art the body and femininity This emphasis aims to separate fashion from mere clothing and illustrate its cultural power as an integral aspect of modern life In this innovative new book Alison Bancroft re examines significant moments in twentieth century fashion history through the focal lens of psychoanalytic theory Her discussion centres on studies of fashion photography haute couture queer dressing and fashion art in an attempt to shed new light on these key issues According to Bancroft problems of subjectivity are played out through fashion in the public arena and not just in the dark unknowable unconscious mind The question of what can be said and what can only be experienced and how these two issues may be reconciled become questions that fashion addresses on an almost daily basis Psychoanalysis has been profoundly influential in the arts thanks to its capacity to add layers of meaning to things that without it would remain obtuse and intractable It has proved crucial to the development of film studies art theory and literary criticism What it has not yet been brought into dialogue with in great depth is fashion By interpreting fashion within a psychoanalytic frame Bancroft illustrates how fashion articulates some of the essential and sometimes frightening truths about the body femininity and the self
