## **Lucien Herva Lhomme Construit:**

Lucien Hervé Olivier Beer, 2004 Lucien Hervé 1910 one of the great architectural photographers of the twentieth century collaborated with Le Corbusier from 1949 until the renowned architect died in 1965 Hervé approached his subjects seeking not only to document the buildings he was commissioned to photograph but also especially to convey a sense of space texture and structure Through light and shadow Hervé defined the dialogue between substance and form By delineating a strong contrast between light and shadow as well as placing emphasis on building details the photographer was able to communicate the depth of a room the surface of a wall or the strength of a building's framework For too long Hervé the master of architectural photography has eclipsed Hervé the photographer whose career began as early as 1938 and whose subject matter varied widely Featuring more than one hundred of his photographs in every genre this book celebrates Hervé's work as an artist creating images that serve not simply as records but stand as works of a singular imagination *Lucien Hervé* Imola Gebauer, 2017 Cet ouvrage est publié l'occasion de l'exposition éponyme présentée conjointement au Jeu de Paume Paris et au Jeu de Paume au Château de Tours du 18 novembre 2017 au 27 mai 2018 Figure majeure de la photographie d'architecture Lucien Hervé 1910 2007 est surtout célèbre pour sa collaboration avec Le Corbusier bien qu'il ait œuvré auprès d'autres illustres bâtisseurs du XXe siècle Il suffit d'un détail ce grand constructeur d'images pour voquer l'ensemble et du contraste entre ombre et lumière pour traduire l'espace A travers la rigueur de ses cadrages il n'a eu de cesse de jouer avec la géométrie parfois jusqu'à l'abstraction Lucien Hervé est aussi un homme d'un engagement social profond cherchant en tout lieu la présence du vivant Cet ouvrage lui rend hommage en initiant un dialogue comme il le faisait entre l'ancien et le moderne le traditionnel et le novateur l'abstrait et l'humain *The Eiffel Tower*, 2003-01-13 When it opened in 1889 Parisians were appalled by the useless and monstrous tower Gustave Eiffel planted in the heart of their beloved city That enmity however was short lived The Eiffel Tower is a pictorial study of the great structure by acclaimed architectural photographer Lucienne Herve whose ethereal images convey the balance between the tower's elegant ironwork and its sheer physical force *Journal of the Society of Architectural Historians* Society of Architectural Historians, 2002 Includes special issues **American Book Publishing Record**, 2005 *Building with Light* Robert Elwall, 2004 Ever since its invention photography has enjoyed a close and mutually stimulating relationship with architecture an association underlined by one description of photography as building with light So well established is this link that photography is now regarded as the easiest and most reliable means of making architecture and its ideas accessible to a wider public Our first sometimes our only impression of a building often comes from a photograph and the skilled photographer can help us to see even the most familiar structures with a fresh eye This book offers a lively exploration of the development of architectural photography and some of its key themes From the earliest examples of the genre in the nineteenth century to today's digital revolution Robert Elwall skilfully focuses on the changing aesthetic of the medium worldwide Included are such topics as the early influence of

architectural drawing the growth of specialist photographic firms documenting the nineteenth century building boom the influence of photography on both architectural practice and history the invention of half tone reproduction the role of photography in the spread of Modernism the impact of colour photography during the 1970s and 1980s and the increasing use of computers to shape a new direction Authoritatively written by a world renowned expert and illustrated with arresting images from collections throughout the world this study is essential reading for anyone interested in architecture photography and the history of their special relationship Book jacket *Architecture intérieure-Créé* ,2002
