Lucretius Bk Iii De Rerum Natura:

Michael Oakeshott Selected Writings Collection Michael Oakeshott, 2014-08-26 A collection of 6 volumes of Oakeshott's work Notebooks 1922-86 Early Political Writings 1925-30 The Concept of a Philosophical Jurisprudence Vocabulary of a Modern European State Lectures in the History of Political Thought and What is History **Michael Oakeshott: Notebooks, 1922-86** Michael Oakeshott, Luke O'Sullivan, 2014-01-21 From the 1920s to the 1980s Oakeshott filled dozens of notebooks with his private reflections both personal and intellectual Their contents range from aphorisms to miniature essays forming a unique record of his intellectual trajectory over his entire career This volume makes them accessible in print for the first time drawing together a host of his previously inaccessible observations on politics philosophy art education and much else besides Religion in particular emerges as an ongoing concern for him in a way that is not visible from his published works The notebooks also provide a unique source of insight into Oakeshott's musings on life thanks to the hitherto unsuspected existence of the series of Belle Dame notebooks that were written in the late 1920s and early 1930s but which only came to light two decades after his death At the same period in which he was developing the concepts that would form Experience and its Modes Oakeshott's personal life lead him to reflect extensively on love and death themes that highlight his enduring romantic affinities Accompanied by an original editorial introduction the volume allows readers to see for themselves exactly which works Oakeshott used in compiling each of his notebooks providing a much clearer record of his intellectual influences than has previously been available It will be an essential addition to the library of his works for all those interested in his ideas **Reason and Sexuality in Western Thought** David West, 2005-05-06 This book traces the genealogy of ideas of reason self and sexuality in the West opening the way to a richer and more diverse understanding of sexual experience Western philosophy and religion have distorted and continue to distort our experience of sex and love through three far reaching constellations of reason self and sexuality Thinkers like Plato Aquinas and Kant helped to fashion an ascetic ideal of reason hostile to bodily pleasures and sexual diversity By contrast philosophical hedonism advocates a less demanding conception of rationality and defends sexual pleasure But this approach of thinkers like Hume Bentham La Mettrie and de Sade is still one sided and limiting A third constellation Romanticism avoids the limitations of both forms of rationalism but in the name of a religion of love and passion that ultimately threatens the integrity of the self In Reason and Sexuality in Western Thought a richer understanding of sexual experience is traced to a dissident philosophical tradition In their different ways Montaigne Spinoza Hegel and Kierkegaard Marcuse and Foucault contribute to a more holistic multi layered and open conception of reason sexuality and the self This book will be essential reading for all students of philosophy and gender studies The Poetry of Victorian Scientists Daniel Brown, 2013-01-31 The first study of poetry by Victorian scientists a unique record of the nature and cultures of Victorian science **De Rerum Natura**, 1987 **Sceptres and Sciences in the Spains** Ruth Hill, 2000-01-01 Sceptres and Sciences argues convincingly that previous research on the

Hispanic Late Baroque has underweighted the ideologies of ethnicity and empire embedded in Cartesianism and French neoclassicism a masterful work of scholarship should become essential reading in the field of Colonial and Spanish Enlightenment Studies Bulletin of Hispanic Studies An Introduction to Comparative Philosophy Walter Benesch,1997-01-31 This original and accessible text is more than an introduction to comparative philosophy in the East and West It is also a guide to philosophizing as a thinking process In addition to outlining the presuppositions of different traditions it discusses their methods and techniques for reasoning in what the author calls four dimensions of philosophical space object subject the situational and the aspective perspective dimension The Metaphysics of Death John Martin Fischer,1993 This collection of seventeen essays deals with the metaphysical as opposed to the moral issues pertaining to death For example the authors investigate among other things the issue of what makes death a bad thing for an individual if indeed death is a bad thing This issue is more basic and abstract than such moral questions as the particular conditions under which euthanasia is justified if it is ever justified Though there are important connections between the more abstract questions addressed in this book and many contemporary moral issues such as euthanasia suicide and abortion the primary focus of this book is on metaphysical issues concerning the nature of death What is the nature of the harm or bad involved in death If it is not pain what is it and how can it be bad Who is the subject of the harm or bad if the person is no longer alive how can he be the subject of the bad An if he is not the subject who is Can one have harm with no subject When does the harm take place Can a harm take place after its subject ceases to exist If death harms a person can the harm take place before the death occurs If death can be a bad thing would immortality be a desirable alternative This family of questions helps to frame the puzzle of why and how death is bad Other subjects addressed include the Epicurean view that death is not a misfortune for the person who dies the nature of misfortune and benefit the meaningfulness and value of life and the distinction between the life of a person and the life of a living creature who is not a person There is an extensive bibliography that includes science fiction treatments of death and immortality Hellenistic and Early Modern Philosophy Jon Miller,Brad Inwood,2003-06-26 Early modern philosophers looked for inspiration to the later ancient thinkers when they rebelled against the dominant Platonic and Aristotelian traditions The impact of the Hellenistic philosophers principally the Stoics Epicureans and Skeptics on such philosophers as Descartes Leibniz Spinoza and Locke was profound and is ripe for reassessment This collection of essays offers precisely that Leading historians of philosophy explore the connections between Hellenistic and early modern philosophy in ways that take advantage of new scholarly and philosophical advances The essays display a challenging range of methods and will be an invaluable point of reference for philosophers historians of ideas and classicists

A Platonick Song of the Soul Henry More,1998 This is the first complete modern edition of Henry More's long philosophical poem A Platonick Song of the Soul 1647 This early work written in Spenserian stanzas is a sustained literary presentation of the Neoplatonic doctrine of the immateriality and immortality of the soul The Introduction to this book

discusses both the literary background of the work and its varied philosophical and scientific sources from Plotinus to Ficino and Galileo **Conjunctions of Mind, Soul and Body from Plato to the Enlightenment** Danijela

Kambaskovic,2014-09-25 This book examines the nexus between the corporeal emotional spiritual and intellectual aspects of human life as represented in the writing of the Middle Ages and the Renaissance Authors from different fields examine not only the question of the body and soul or body and mind but also how this question fits into a broader framework in the medieval and early modern period Concepts such as gender and society morality sexuality theological precepts and medical knowledge are a part of this broader framework This discussion of ideas draws from over two thousand years of Western thought from Plato in the fifth century BC and the fourth century Byzantine dialogues on the soul to the philosophical and medical writings of the early 1700s There are four sections to this book each section is based on where the authors have found a conjunction between the body and mind soul The work begins with a section on text and self perception which focuses on creative output from the period The second conjunction is human emotions which are described in their social contexts The third is sex where the human body and mind are traditionally believed to meet The fourth section Material Souls engages with bodies and other material aspects of existence perceived studied or utilised as material signs of emotional and spiritual activity Isis George Sarton,1922 Brief table of contents of vols I XX in v 21 p 502 618 *Henry More. Immortality of the Soul A. Jacob,2012-12-06 The significance of Henry More s vitalist philosophy in the history of ideas has been realized relatively recently as the bibliography will reveal The general neglect of the Cambridge Platonist movement may be attributed to the common prejudice that its chief exponents especially More were obscure mystics who were neither coherent in their philosophical system nor attractive in their prose style I hope that this modern edition of More s principal treatise will help to correct this unjust impression and reveal the keenness and originality of More s intellect which sought to demonstrate the relevance of classical philosophy in an age of empirical science The wealth of learning ranging as it does from Greek antiquity to 17th century science and philosophy that informs More s intellectual system of the universe should in itself be a recommendation to students of the history of ideas Though for those in search of literary satisfaction too there is not wanting in More s style the humour and grace of a man whose erudition did not divorce him from a sympathetic understanding of human contradictions As for More s elaborate speculations concerning the spirit world in the final book of this treatise I think that we would indeed be justified in regarding their combination of classical mythology and scientific naturalism as the literary and philosophical counterpart of the great celestial frescoes of the Baroque masters **Late**

Medieval and Early Modern Corpuscular Matter Theories ,2022-05-20 This volume deals with corpuscular matter theory that was to emerge as the dominant model in the seventeenth century By retracing atomist and corpuscularian ideas to a variety of mutually independent medieval and Renaissance sources in natural philosophy medicine alchemy mathematics and theology this volume shows the debt of early modern matter theory to previous traditions and thereby explains its

bewildering heterogeneity The book assembles nineteen carefully selected contributions by some of the most notable historians of medieval and early modern philosophy and science All chapters present new research results and will therefore be of interest to historians of philosophy science and medicine between 1150 and 1750 **Astrology and Magic from the Medieval Latin and Islamic World to Renaissance Europe** Paola Zambelli, 2024-10-28 Astrology and Magic from the Medieval Latin and Islamic World to Renaissance Europe brings together ten of Paola Zambelli's papers on the subject four of which are published in English for the first time The papers in Part I of this volume deal with theories the ideas of astrology and magic held by Renaissance thinkers astrologers ideas on universal history and its cycles i e catastrophes and rebirths theories and myths regarding the spontaneous generation of man himself Part II focuses on the role of astrologers in Renaissance society As political counsellors courtiers and academics their ideas were diffused and appreciated in both popular and high culture Part III looks at the Great Conjunction of 1524 and on the long and extended debate surrounding it which would not have been possible prior to Gutenberg since astrologers printed numberless booklets full of religious and political innuendo predicting the catastrophe flood as well as earthquake or fire foreseen for February 1524 which in the event proved to be a month of extraordinary mild weather Part IV reprints some review articles of twentieth century scholars whose writing has contributed to our understanding of the historical problems concerning magic and other connected debates **Minds, Bodies, Machines, 1770-1930** D. Coleman, H. Fraser, 2011-04-11 It is during the nineteenth century the age of machinery that we begin to witness a sustained exploration of the literal and discursive entanglements of minds bodies machines This book explores the impact of technology upon conceptions of language consciousness human cognition and the boundaries between materialist and esoteric sciences **Les Misérables** Victor Hugo, 2013-11-07 A brilliant modern translation by Christine Donougher of Victor Hugo's thrilling masterpiece with an introduction by Robert Tombs This is the best translation of the novel available in English as recommended by David Bellos in *The Novel of the Century* Victor Hugo's tale of injustice heroism and love follows the fortunes of Jean Valjean an escaped convict determined to put his criminal past behind him But his attempts to become a respected member of the community are constantly put under threat by his own conscience and by the relentless investigations of the dogged policeman Javert It is not simply for himself that Valjean must stay free however for he has sworn to protect the baby daughter of Fantine driven to prostitution by poverty A magnificent achievement It reads easily sometimes racily and Hugo's narrative power is never let down An almost flawless translation which brings the full flavour of one of the greatest novels of the nineteenth century to new readers in the twenty first William Doyle *Times Literary Supplement* The year's most interesting publication from Penguin Classics was a new translation by Christine Donougher of the novel we all know as *Les Misérables* You may think that 1 300 pages is a huge investment of time when the story is so familiar but no adaptation can convey the addictive pleasure afforded by Victor Hugo's narrative voice by turns chatty crotchety buoyant and savagely ironical it's made to seem so contemporary and fresh in

Donougher's rendering that the book has all the resonance of the most topical state of the nation novel Telegraph Christine Donougher's seamless and very modern translation of Les Misérables has an astonishing effect in that it reminds readers that Hugo was going further than any Dickensian lament about social conditions The Wretched touches the soul Herald Scotland
