Ludwig I. von Bayern Heinz Gollwitzer, 1997 *The Oxford History of Modern German Theology, Volume 1: 1781-1848*

Grant Kaplan, Kevin M. Vander Schel, 2023-05-20 From the closing decades of the eighteenth century German theology has been a major intellectual force within modern western thought closely connected to important developments in idealism romanticism historicism phenomenology and hermeneutics Despite its influential legacy however no recent attempts have sought to offer an overview of its history and development Oxford History of Modern German Theology Vol I 1781 1848 the first of a three volume series provides the most comprehensive multi authored overview of German theology from the period from 1781 1848 Kaplan and Vander Schel cover categories frequently omitted from earlier overviews of the time period such as the place of Judaism in modern German society race and religion and the impact of social history in shaping theological debate Rather than focusing on individual figures alone Oxford History of Modern German Theology Vol I 1781 1848 describes the narrative arc of the period by focusing on broader intellectual and cultural movements ongoing debates and significant events It furthermore provides a historical introduction to each of the chronological subsections that divides the book Moreover unlike previous efforts to introduce this time period and geographical region the volume offers chapters covering such previously neglected topics as religious orders the influence of Romantic art secularism religious freedom and important but overlooked scholarly initiatives such as the Corpus Reformatorum Attention to such matters will make this volume an invaluable repository of scholarship and knowledge and an indispensable reference resource for decades to come

Die Herrscher Bayerns Alois Schmid, 2006 **Making Sense of Constitutional Monarchism in Post-Napoleonic**

France and Germany M. Prutsch, 2012-12-03 Focusing on the genesis of constitutional monarchism in the context of the French Restoration and its favourable reception in post Napoleonic Germany this study highlights the potential and limitations of a daring attempt to improve traditional forms of monarchical legitimacy by means of a modern representative constitution Regional History as Cultural Identity Kenneth J. Bindas, Fabrizio Ricciardelli, 2017-10-13 T00:00:00+02:00

This book brings together scholars to reflect upon the significance and meaning of local and regional history focusing on how these histories impact people's cultural identity through traditions culture language and politics Scholars from all over the world analyze the process of communal identity construction the feeling of belonging to one state or nation regardless of one's legal citizenship status by focusing on case studies from North America South America Africa and Europe By analyzing the cultural and social aspects of community formation through language religion symbols politics race and blood ties these papers reveal that national identity rather than being an inborn trait is more often a result of the presence of common elements in the daily lives of individuals *Cultures of Power in Europe during the Long Eighteenth Century* Hamish Scott, Brendan Simms, 2007-07-05 This volume seeks to get behind the surface of political events and to identify the forces

which shaped politics and culture from 1680 to 1840 in Germany France and Great Britain The contributors all leading specialists in the field explore critically how culture defined in the widest sense was exploited during the long eighteenth century to buttress authority in all its forms and how politics infused culture Individual essays explore topics ranging from the military culture of Central Europe through the political culture of Germany France and Great Britain music court intrigue and diplomatic practice religious conflict and political ideas the role of the Enlightenment to the very new dispensations which prevailed during and after the French Revolution and the Napoleonic watershed The book will be essential reading for all scholars of eighteenth century European history **Wilhelm I as German Emperor** Frederik Frank

Sterkenburgh, 2025-01-17 This book offers the first ever scholarly study of Wilhelm I as Germany's first Kaiser For decades Wilhelm has been dismissed by historians as a political nullity and an unwilling imperial figurehead who was perpetually overruled by chancellor Otto von Bismarck As a result scholars concluded that the imperial role did not reach maturity until the accession of Wilhelm II This book challenges this assumption by analysing how Wilhelm used self staging to effectuate his role as German emperor and set the precedent for his successors Friedrich III and Wilhelm II It explores how he oversaw and intervened in the political and military decision making processes his use of politics of history his understanding and practicing of the imperial role towards other German states and dynasties his self presentation in the new German capital and how his public persona was distorted in German cultural memory after his death in 1888 The book draws on a wealth of previously unexplored sources including material from Wilhelm's personal archive the archives of the Hohenzollern monarchy the Prussian state and local archives It offers a much needed reassessment of Wilhelm I and makes an important contribution to debates on the role of the Kaiser in German politics the political system and culture of the early German nation state and how the Hohenzollern monarchy adapted to the demands of generating popular support for its new German imperial role **Dichter und Lenker** Patrick Ramponi, Saskia Wiedner, 2014-11-14 **Nützliche Leichen** Jörg

Zedler, 2022-04-11 Ihre Selbstverständlichkeit hatte die monarchische Herrschaft spätestens mit der Französischen Revolution verloren Dennoch blieb sie im 19. Jahrhundert die vorherrschende Staatsform feierte in neu entstehenden europäischen Staaten sogar öffentliche Urstände Dies gelang ihr nicht zuletzt deshalb weil sie den Niederungen tagespolitischer Fragen enthoben wurde und zunehmend mit den nationalen Interessen ihrer Staaten und Gesellschaften verwuchs Der Sichtbarkeit von Dynastien und symbolischen Handlungen kam damit eine immer wichtigere Rolle zu noch dazu unter den Bedingungen einer explodierenden Medienlandschaft Jörg Zedler zeigt wie das Zeremoniell rund um den Tod eines Königs und einer Königin eine bedeutende Funktion bei der Integration der eigenen Gesellschaft ebenso wie bei der Repräsentation des Landes nach außen erlangte und dass Monarchinnen auch im Tod noch politische Funktionen hatten **European Monarchy** Heinz Duchhardt, Richard A.
