Legitimizing the Artist Luca Somigli,2003-12-15 In the late nineteenth and early twentieth centuries the production of literary and cultural manifestoes enjoyed a veritable boom and accompanied the rise of many avant garde movements Legitimizing the Artist considers this phenomenon as a response to a more general crisis of legitimation that artists had been struggling with for decades The crucial question for artists confronted by the conservative values of the dominant bourgeoisie and the economic logic of triumphant capitalism was how to justify their work in terms that did not reduce art to a mere commodity In this work Luca Somigli discusses several European artistic movements decadentism Italian futurism vorticism and imagism and argues for the centrality of the works of F T Marinetti in the transition from a fin de si cle decadent poetics exemplified by the manifestoes of Anatole Baju to a properly avant garde project aiming at a complete renewal of the process of literary communication and the abolition of the difference between producer and consumer It is to this challenge that the English avant garde artists and Ezra Pound in particular responded with their more polemical pieces Somigli suggests that this debate allows us to rethink the relationship between modernism and post modernism as complementary ways of engaging the loss of an organic relationship between the artist and his social environment *Action*

Art John Gray,1993-05-30 This comprehensive international bibliography is the first to attempt documentation of this diverse field covering the history of Artist s Performance It focuses on its early twentieth century antecedents in such movements as Futurism Dada Russian Constructivism and the Bauhaus as well as its peak period in the 1950s 1960s and 1970s with such developments as Gutai Fluxus Viennese Actionism Situationism and Guerrilla Art Action Major emphasis is also given to sources on 115 individual performance artists and groups More than 3700 entries document print and media materials dating from 1914 to 1992 Organized for maximum accessibility the sources are also extensively cross referenced and are indexed by artist subject title and author Three appendices identify reference works libraries and archives and addenda material not found in the book text and two others list artists by country and by group or collective **LECONS FAITES A L'ECOLE**

DES HAUTE ETUDES SOCIALES LOS ASPIRATION AUTONOMISTES EN EUROPE,1913 The Culture of Fragments Clara Orban,2023-11-20 Works of art such as paintings with words on them or poems shaped as images communicate to the viewer by means of more than one medium Here is presented a particular group of hybrid art works from the early twentieth

century to discover in what way words and images can function together to create meaning The four central artists considered in this study investigate word image forms in their work F T Marinetti invented parole in libert among other ideas to free language from syntactic connections Umberto Boccioni experimented with newspaper clippings on the canvas from 1912 1915 and these collages constitute an important exploration into word image forms Andr Breton s collection of poems Clair de terre 1923 contains several typographical variations for iconographic effect Ren Magritte explored the relationship between words and images juxtaposing signifiers to contradictory signifieds on the canvas A final chapter introduces media other than poetry and painting on which words and images appear Posters the theater and the relatively new medium of cinema foreground words and images constantly This volume will be of interest to scholars of twentieth century French or Italian literature or painting and to scholars of word and image studies

Nihilist Order Professor David Ohana, 2016-04-19 The explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements The Nihilist Order originally published in three hardcover volumes and now published in a consolidated paperback edition with an encompassing new Introduction inspired excellent review endorsements both amongst the academic and public spheres and has been heralded as a great achievement in European intellectual and cultural history

The Birth of Fascist Ideology Zeev Sternhell, Mario Sznajder, Maia Ashéri, 1994 When The Birth of Fascist Ideology was first published in 1989 in France and at the beginning of 1993 in Italy it aroused a storm of response positive and negative to Zeev Sternhell s controversial interpretations In Sternhell s view fascism was much more than an episode in the history of Italy He argues here that it possessed a coherent ideology with deep roots in European civilization Long before fascism became a political force he maintains it was a major cultural phenomenon This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment it was not a reactionary movement It represented instead an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity Sternhell argues that the conceptual framework of fascism played an important role in its development Building on radical nationalism and an antimaterialist revision of Marxism fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations At the same time its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy Nevertheless fascism opposed every bourgeois value universalism humanism progress natural rights and equality Thus as Sternhell shows the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity

Performance in the Texts of Mallarmé Mary Lewis Shaw, 1993-03-01 Performance in the Texts of Mallarm offers a new theory of performance in the poetic and critical texts of Stephane Mallarm a theory

challenging the prevailing interpretation of his work as epitomizing literary purism and art for art's sake. Following an analytical presentation of the concepts of ritual and performance generally applied, Mary Shaw shows that Mallarmé perceived music, dance, and theater as ideal languages of the body and therefore as ideal forms of ritual through which to supplement and celebrate poetic texts. She focuses on previously unexplored references to supplementary extratextual performances in four of Mallarmé's major poetic texts: *Herodiade*, *L'après-midi d'un faune*, *Ignorance*, and *Un coup de dés*, revealing the consistent formal expression of his original conception of literature's relationship to the performing arts. Shaw then discusses Mallarmé's monumental project *Le Livre*, a metaphysical book designed to be performed in a series of ritual celebrations. She analyzes and describes the intrinsic structure and contents of this unfinished work as the fullest realization of the text-performance relationship elaborated throughout Mallarmé's corpus. Shaw offers *Le Livre* as a prototype of avant-garde performance, drawing important parallels between Mallarmé's literary experimentation and crucial developments in twentieth-century arts.

The New Avant-garde in Italy John Picchione, 2004-01-01. The debate on literature and the arts provoked by the Italian neoavant-garde (neoavanguardia) is undoubtedly one of the most animated and controversial the country has witnessed from World War II to the present. Comprising the period between the late 1950s and the late 1960s, the phenomenon of the neoavanguardia involved key writers, critics, and artists both as insiders (Sanguineti, Balestrini, Guglielmi, Eco, and others) and adversaries (such as Pasolini, Calvino, and Moravia). In *The New Avant-Garde in Italy*, the first book in English to document the movement, John Picchione's objective is twofold: to provide a comprehensive analysis of the theoretical tenets that inform the works of the neoavanguardia and to show how they are applied to the poetic practices of its authors. The neoavanguardia cannot, Picchione argues, be defined as a movement with a unified program expressed in the form of manifestos or shared theoretical principles. It experiences irreconcilable internal conflicts that are explored as a split between two main blocs: one that is tied to the project of modernity, the other to postmodern aesthetic postures. This study suggests that some of the contentious views proposed by the neoavanguardia anticipated a wide range of issues that continue to be significant and pressing to this day.

Italian Fascism and the Female Body Gigliola Gori, 2012-12-06. This is the first text to examine women and sport in Italy during the period 1861-1945. To qualify and quantify the impact of fascism on Italian women's sport, the author first of all examines the pre-fascist period in terms of female physical culture. The text then describes how during the fascist era women moved strictly within a framework designed by medicine and eugenics, religious and traditional education. The country aspired to emancipation as promised by the fascist revolution, but emancipation was hard to advance under the fascist regime because of male hegemonic trends in the country. This book shows how the engagement of women in some sporting activity did promote and support some gender emancipation. The conclusion of the book demonstrates how in the post-war period women found it hard to advance further on for a number of reasons.

The Cinema of Attractions Reloaded Wanda Strauven, 2006. Twenty years ago, noted film scholars Tom Gunning and André Gaudreault introduced the phrase

cinema of attractions to describe the essential qualities of films made in the medium's earliest days those produced between 1895 and 1906 Now *The Cinema of Attractions Reloaded* critically examines the term and its subsequent wide ranging use in film studies The collection opens with a history of the term tracing the collaboration between Gaudreault and Gunning the genesis of the term in their attempts to explain the spectacular effects of motion that lay at the heart of early cinema and the pair's debts to Sergei Eisenstein and others This reconstruction is followed by a look at applications of the term to more recent film productions from the works of the Wachowski brothers to virtual reality and video games With essays by an impressive collection of international film scholars and featuring contributions by Gunning and Gaudreault as well *The Cinema of Attractions Reloaded* will be necessary reading for all scholars of early film and its continuing influence

Modernist Fiction R.W. Stevenson, 2014-09-11 In the revised edition of this popular text Randall Stevenson has expanded, re-emphasised and amended his work to make it even more relevant to today's student studying the Modernist period in literature The book covers a wide range of modernist novelists and novels and also provides an invaluable guide to key developments in the genre Stevenson has developed his text by adding a discussion of Conrad's *Heart of Darkness* which is now taught more regularly than *Lord Jim* In addition he takes a fresh look at the politics of the Modernists in conjunction with the politics of their texts pointing out the drawbacks of politically progressive readings of many modernist novels Finally in the section on gender Stevenson includes discussions of such significant figures as Djuna Barnes, HD, Katherine Mansfield and Rebecca West as well as expanding the reference to Gertrude Stein throughout The revisions in this updated text serve to make the author's arguments sharper and allow the text to remain central to the discussion of modernism, modernity and the novel
