Ambivalent Literary Farewells to the German Democratic Republic John David Pizer, 2021-08-02 This study reverses the question implicit in title of Christa Wolf's now canonical 1990 novella Was bleibt What remains looking instead at what was lost during the process of German reunification It argues that in their work during and after the Wende most literary authors from both East and West Germany responded ambivalently to the reunification Many felt on the one hand a keen sense of loss as the GDR dissolved and an expanded Federal Republic summarily absorbed former Eastern Germany They mourned the ideals of democratic socialism tolerance and internationalism that the GDR had held dear as well as the country's rich cultural life On the other hand however they recognized that the GDR was a fundamentally corrupt surveillance state whose industry weighed heavily on the environment while failing to buoy the country's economy By looking at works by some of the most important authors from either side of the border this study shows that those who unequivocally embraced the reunification were clearly in the minority

Humor, Satire, and Identity Jill E. Twark, 2007 Explores the Eastern German literary trend of the 1990s employing humor and satire to come to terms with socialism's failure and a difficult unification process This title surveys ten novels including works by Brüssig Schulze and Hensel These contemporary texts help define Germany today from a specific East German perspective

Humor, Satire, and Identity Jill Twark, 2012-02-14 This is the first book in English to survey the Eastern German literary trend of employing humor and satire to come to terms with experiences in the German Democratic Republic and after the fall of the Berlin Wall As sophisticated attempts to make sense of socialism's failure and a difficult unification process these contemporary texts help define Germany today from a specific Eastern German perspective Grounded in politics and history ten humorous and satirical novels are analyzed for their literary aesthetics and language cultural critiques and socio-political insights The texts include popular novels such as Thomas Brüssig's Helden wie wir Ingo Schulze's Simple Stories and Jens Sparschuh's Der Zimmerspringbrunnen as well as

lesser known but equally relevant works like *Schlehwins Giraffe* by Bernd Schirmer and *Katerfrhst ck* by Erich Loest. A broad spectrum of humor and satire theories is applied to probe texts from various angles and suggest multi layered answers to the question of how these literary modes function in postwall Germany to construct a specifically Eastern German identity. Interviews the author conducted with five of the satirists are appended as primary sources and contribute to the interpretation of the texts.

Two Into One William Abbey, 1993

La narrativa de la unificación alemana Manuel

Maldonado Alemán, 2009. Los acontecimientos en torno a la unificación de Alemania de 1990 no sólo transformaron el mundo al mismo tiempo desataron un auténtico revulsivo en la producción artística de Alemania que motivó la aparición de un nuevo panorama literario. Las nuevas circunstancias propiciaron el surgimiento de la denominada literatura de la unificación en la que destaca una narrativa rica y de extraordinaria diversidad que ha dado un importante impulso y una nueva vitalidad a la literatura alemana. Sustentada en un cambio de mentalidad y generacional la narrativa de la unificación se ocupa de los acontecimientos acaecidos en torno a la caída del muro de Berlín y del cambio de época al que esta dio lugar de sus antecedentes y sus consecuentes de la nueva situación creada tras la unificación y del pasado histórico que la motivó. Quiénes son los autores que se han ocupado de la unificación de Alemania. Cuáles son las narraciones más significativas y las características que las definen. Este volumen da respuesta a estas cuestiones a través del análisis de un amplio número de obras que atienden a la problemática política económica social cultural y humana de la unificación de Alemania.

Literature & Place,

1800-2000 Peter Brown, 2008. Ten original essays examine the transactions between real places and the literary imagination including the reinvention of real places in literary form from 1800 to the present day. They deal with different kinds of locations: islands, countries, cities, the topoi writers use to articulate a sense of place, maps, ruins, landscape, history, their generic manifestations in fiction, travel writing, topography, autobiography and poetry, and the theoretical and methodological issues which arise. The focus moves outwards from local to regional and national issues covering questions of cultural identity, space, representation, historicity and modernity in England, Scotland, Ireland, France, Germany, the United States and the South Pacific. The contributors are drawn from both sides of the Atlantic and include established scholars as well as newer voices.

Voices in Times of Change David Rock, 2000-09-01. Taking an interdisciplinary approach this volume offers an overview of the role of writers, intellectuals, citizens and the churches both before but particularly after 1989 in the GDR and the new Germany. Friedrich Schorlemmer provides the focal point giving the book its coherence. Issues related to his role in the GDR, church and citizens movement are examined as well as his support for GDR writers both before and after unification and his own writings on east and west German literature. After general surveys on intellectuals, civil rights groups, opposition movements and churches in the transformation of east Germany, the volume focuses on Friedrich Schorlemmer himself. A chapter on the significance of the role that he played is followed by interviews with him and an original essay by him giving his personal view of the role of intellectuals, citizens and writers in east Germany. The volume is rounded off by a chapter on

the reactions of lesser known writers and finally on the responses of prominent GDR writers to unification and on the changing role of writers in society Combining literary and cultural with social and political analysis this volume provides a lively and multifaceted picture of the new Germany **German Writers and the Politics of Culture** Paul Cooke, Andrew
