Second Century Christianity:

Christianity in the Second Century James Carleton Paget, Judith Lieu, 2017-05-15 Christianity in the Second Century seeks to show how academic study on this critical period of Christian development has undergone change over the last thirty years It focuses on contributions from early Christian and ancient Jewish studies and ancient history all of which have contributed to a changing scholarly landscape **After the Apostles** Walter H. Wagner, Through deft use of available data and texts Wagner brings the enigmatic second century to life Selecting five fateful challenges issues of Creation human nature Jesus identities roles of the church and Christians in society he shows what was at stake for emerging Christianity and how its five key players responded Map glossary bibliography **Christianity in the Second Century** Emily J. Hunt, 2003-09-02 Tatian is a significant figure in the early Church his work both representing and revealing his second century context This study offers a detailed exploration of his thought It is also a valuable introduction to the entire period particularly the key developments it witnessed in Christianity Emily Hunt examines a wide range of topics in depth Tatian's relationship with Justin Martyr and his Oration to the Greeks the Apologetic attempt to defend and define Christianity against the Graeco Roman world and Christian use of hellenistic philosophy Tatian was accused of heresy after his death and this work sees him at the heart of the orthodox heterodox debate His links with the East and his Gospel harmony the Diatessaron lead to an exploration of Syriac Christianity and asceticism In the process scholarly assumptions about heresiology and the Apologists relationship with hellenistic philosophy are questioned and the development of a Christian philosophical tradition is traced from Philo through Justin Martyr to Tatian and then within several key Syriac writers This is the first dedicated study of Tatian for more than forty years **Christianity at the Crossroads** Michael J. Kruger, 2018-03-06 Christianity in the twenty first century is a global phenomenon But in the second century its future was not at all certain Michael Kruger's introductory survey examines how Christianity took root in the second century how it battled to stay true to the vision of the apostles and how it developed in ways that would shape both the church and Western culture over the next two thousand years **Second-century Christianity** Robert McQueen Grant, 2003-01-01 This revised and expanded edition of a book that first appeared in 1945 offers an inside look at the growth and spread of Christianity in the second century by providing source materials from pagan witnesses Christian churches and movements that became known as heretical Reading these selections provides a first hand sense of issues and concerns in that period It brings the reader right into the arena in which Christianity and Christians were being discussed and provides a first hand look at what churches were facing as the Christian movement spread Thirty nine sections plus a biography are included [Christianity in the Second Century](#) James Carleton Paget, Judith Lieu, 2017 Christianity in the Second Century shows how academic study on this critical period of Christian development has undergone substantial change over the last thirty years The second century is often considered to be a time during which the Christian church moved relentlessly towards forms of institutionalisation and consolidated itself against so

called heretics **Explorations in the Second Christian Century** Judith M. Lieu, 2024-11-11 As allegiance to Jesus Christ spread across the Roman Empire in the second century writings practices and ideas erupted in a creative maelstrom Many of the patterns of practice and belief that later become normative emerged in the midst of debate and argument with neighbours who shared or who rejected that allegiance Authoritative texts principles of argument attitudes to received authority the demands of allegiance in the face of opposition identifying who belonged and who did not all demanded attention These essays explore those divergent voices and the no less diverse and lively debates they have inspired in recent scholarship Image and Reality Judith Lieu, 2003-06-01 Judith Lieu examines the rhetorical function of Jews in the early texts of the second century and seeks to acknowledge the complex nature of an issue which is too easily proclaimed Christian anti-Semitism Christianity in the Second Century James Carleton Paget, Judith Lieu, 2017-05-15 Christianity in the Second Century shows how academic study on this critical period of Christian development has undergone substantial change over the last thirty years The second century is often considered to be a time during which the Christian church moved relentlessly towards forms of institutionalisation and consolidated itself against so called heretics However new perspectives have been brought within recent scholarship as the period has attracted interest from a variety of disciplines including not only early Christian studies but also ancient Judaism and the wider world of the early imperial scholarship This book seeks to reflect this changed scholarly landscape and with contributions from key figures in these recent re evaluations it aims to enrich and stimulate further discussion **Found Christianities** M. David Litwa, 2022-02-24 M David Litwa tells the stories of the early Christians whose religious identity was either challenged or outright denied In the second century many different groups and sects claimed to be the only Orthodox or authentic version of Christianity and Litwa shows how those groups and figures on the side of developing Christian Orthodoxy often dismissed other versions of Christianity by refusing to call them Christian However the writings and treatises against these groups contain fascinating hints of what they believed and why they called themselves Christian Litwa outlines these different groups and the controversies that surrounded them presenting readers with an overview of the vast tapestry of beliefs that made up second century Christianity By moving beyond notions of gnostic heretical and orthodox Litwa allows these lost Christianities to speak for themselves He also questions the notion of some Christian identities surviving or perishing arguing that all second century Catholic groups look very different to any form of modern Roman Catholicism Litwa shows that countless discourses ideas and practices are continually recycled and adapted throughout time in the building of Christian identities and indeed that the influence of so called lost Christianities can still be felt today *Justification in the Second Century* Brian J. Arnold, 2017-02-20 This book seeks to answer the following question how did the doctrine of justification fare one hundred years after Paul's death c AD 165 This book argues that Paul's view of justification by faith is present in the second century a thesis that particularly challenges T F Torrance's long held notion that the Apostolic Fathers abandoned this doctrine The Doctrine of Grace in the

Apostolic Fathers 1948 In the wake of Torrance's work there has been a general consensus that the early fathers advocated works righteousness in opposition to Paul's belief that an individual is justified before God by faith alone but second century writings do not support this claim Each author examined Clement of Rome Ignatius of Antioch Epistle to Diognetus Odes of Solomon and Justin Martyr contends that faith is the only necessary prerequisite for justification even if they do indicate the importance of virtuous living This is the first major study on the doctrine of justification in the second century thus filling a large lacuna in scholarship With the copious amounts of research being conducted on justification it is alarming that no work has been done on how the first interpreters of Paul received one of his trademark doctrines It is assumed wrongly that the fathers were either uninterested in the doctrine or that they misunderstood the Apostle Neither of these is the case This book is timely in that it enters the fray of the justification debate from a neglected vantage point Engaging Early Christian History Ruben R. Dupertuis, Todd Penner, 2014-09-03 This book extends scholarly debate beyond the analysis of pure historical debates and concerns to focus on the associations between Acts and the diverse contemporaneous texts writers and broader cultural phenomena in the second century world of Christians Romans Greeks and Jews Second-century Christianity Robert McQueen Grant, 1946 *A Companion to Second-Century Christian 'Heretics'* Antti Marjanen, Petri Luomanen, 2008 The book deals with thinkers and movements that were embraced by many second century religious seekers but which are now largely forgotten or known only as heretics Basilides Sethianism Valentinus school Marcion Tatian Bardaisan Montanists Cerinthus Ebionites Nazarenes Jewish Christianity of the Pseudo Clementines and Elchasites Death in Second-Century Christian Thought Jeremiah Mutie, 2015-07-30 Death in Second Century Christian Thought explores how the meaning of death was conceptualised in this crucial period of the history of the church Through an exploration of key metaphors and other figures of speech that the early church used to talk about this fascinating and controversial topic Jeremiah Mutie argues that the church fathers selected adapted and exploited existing pagan ideas about the subject of death in order to offer a distinctively Christian view based on Biblical texts The death burial and resurrection of Jesus were critical to this development as was the Christian promise of eternal life In this erudite book Mutie shows how Christians engaged with the views of death in late antiquity coming up with their own characteristic belief in life after death **A Companion to Second-Century Christian 'Heretics'** Antti Marjanen, Petri Luomanen, 2005-07-01 The book deals with thinkers and movements that were embraced by many second century religious seekers but which are now largely forgotten or known only as heretics Basilides Sethianism Valentinus school Marcion Tatian Bardaisan Montanists Cerinthus Ebionites Nazarenes Jewish Christianity of the Pseudo Clementines and Elchasites **Christianity in the Second Century** Emily Jane Hunt, 2003 Tatian is a significant figure in the early Church his work both representing and revealing his second century context This study offers a detailed exploration of his thought It is also a valuable introduction to the entire period *Intertextuality in the Second Century* D. Jeffrey Bingham, Clayton N. Jefford, 2016-12-05 This volume offers an

appreciation of the value of intertextuality from Greek Roman Jewish and biblical traditions as related to the post apostolic level of Christian development within the second century Not least of these foundational pillars is the certain impact of the Second Sophistic movement during this period with its insipient influence on much of early Christian theology s formation The variety of these strands of inspiration created a tapestry of many diverse elements that came to shape the second century Christian situation Here one sees biblical texts at work Jewish and Greek foundations at play and interaction among patristic authors as they seek to reconcile their competing perspectives on what it meant to be Christian within the contemporary context

Paul and the Second Century Michael F. Bird, Joseph R. Dodson, 2011-05-05 This volume looks at the imprint and influence that the writings of the Apostle Paul had in the second century examining the Pauline corpus in conjunction with key second century figures and texts such as Ignatius Polycarp and the Epistle of Diognetus It investigates the impact of Paul s legacy and examines how this legacy shaped the Christianity that emerged in the second century as represented by the Apostolic Fathers the early Christian Apologists and among Gnostic and Judeo Christian groups
