with gossip storytelling vigor and sheer science fictional play      Teaching Secondary Mathematics as if the Planet Matters  
 Alf Coles, Richard Barwell, Tony Cotton, Jan Winter, Laurinda Brown, 2013-07-18 This book moves us beyond a theoretical  
 pondering of the issues and makes concrete suggestions for teachers and students for how things can be different in  
 mathematics classrooms This is long overdue Peter Gates University of Nottingham Teaching Mathematics as if the Planet  
 Matters explores how Mathematics teachers can develop approaches to curriculum and learning which help students  
 understand the nature of the contemporary world It sets out a model for teaching and learning that allows teachers to  
 examine existing approaches to teaching and draw upon the insights of mathematics as a discipline to help students relate  
 classroom mathematics to global issues such as climate change the economy food supplies biodiversity human rights and  
 social justice Including practical examples suggestions for teaching activities and detailed further reading sections the book  
 covers the mathematics of description in the measuring recording and statistical analysis that informs our knowledge of  
 climate change consumption and sustainability the mathematics of prediction in the modelling used by governments  
 scientists and businesses to plan roads power stations and food supplies and their effects the mathematics of communication  
 in the news reports blogs and environmental campaigns incomplete without graphs charts and statistics The true worth of a  
 school subject is revealed in how far it can account for and respond to the major issues of the time The issue of the  
 environment cuts across subject boundaries and requires an interdisciplinary response Mathematics teachers are part of that  
 response and they have a crucial role in helping students to respond to environmental issues and representations      **The**
