to strike out before the Army of the Potomac successfully sailed back to Washington and linked up with Pope's army. Lee daringly split his army to threaten Pope's supply lines, forcing Pope to fall back to Manassas to protect his flank and maintain his lines of communication. At the same time, the left half of Lee's army under Stonewall Jackson potentially exposed against the larger Union army until the other wing under James Longstreet linked back up. Thus, in late August 1862, the Army of Northern Virginia and the Army of Virginia found themselves fighting over nearly the exact same land the South and North fought over in the First Battle of Bull Run 13 months earlier. When Pope's army fell back to Manassas to confront Jackson, his wing of Lee's army dug in along a railroad trench and took a defensive stance. The battle began with the Union army throwing itself at Jackson the first two days. But the concentration on Stonewall's men opened up the Union army's left flank for Longstreet's wing, which marched 30 miles in 24 hours to reach the battlefield by the late afternoon of August 29. Lee used Longstreet's wing on August 30 to deliver a devastating flank attack before enough reinforcements from the retreating Army of the Potomac reached the field, sweeping Pope's Army from Manassas and forcing the Union soldiers into yet another disorderly retreat from Manassas to Washington D.C., a scene eerily reminiscent of the First Battle of Bull Run. The Greatest Civil War Battles: The Second Battle of Bull Run comprehensively covers the campaign and the events that led up to the battle, the fighting itself, and the aftermath of the battle. Accounts of the battle by important participants are also included, along with maps of the battle and pictures of important people, places, and events. Includes a Bibliography of each battle for further reading. After Fort Sumter, the Lincoln Administration pushed for a quick invasion of Virginia with the intent of defeating Confederate forces and marching toward the Confederate capitol of Richmond. Lincoln pressed Irvin McDowell to push forward. Despite the fact that McDowell knew his troops were inexperienced and under pressure from the Washington politicians, he was forced to launch a premature offensive against Confederate forces in Northern Virginia. McDowell's strategy during the First Battle of Bull Run was grand, and in many ways it was the forerunner of a tactic Robert E. Lee, Stonewall Jackson, and James Longstreet executed brilliantly on nearly the same field during the Second Battle of Bull Run in August 1862. McDowell's plan called for parts of his army to pin down Beauregard's Confederate soldiers in front while marching another wing of his army around the flank and into the enemy's rear, rolling up the line. McDowell assumed the Confederates would be forced to abandon Manassas Junction and fall back to the next defensible line, the Rappahannock River. In July 1861, however, this proved far too difficult for his inexperienced troops to carry out effectively. The Second Battle of Bull Run, August 28-30, 1862, was one of the most decisive battles fought

during the Civil War and it was also one of the most unlikely. Less than three months before the battle, Joseph E. Johnston's Army of Northern Virginia had been pushed back nearly all the way to Richmond by George B. McClellan's Army of the Potomac so close that Union soldiers could see the church steeples of the Confederate capital. And yet at the end of Second Manassas, Robert E. Lee's Army of Northern Virginia found itself in the field unopposed about 20 miles away from the Union capital of Washington, D.C. How could such a remarkable reversal of fortunes take place so quickly? After Lee succeeded the wounded Johnston, he pushed McClellan's Army of the Potomac away from Richmond and back up the Peninsula in late June, only to then swing his army north to face a second Union army, John Pope's Army of Virginia. Needing to strike out before the Army of the Potomac successfully sailed back to Washington and linked up with Pope's army, Lee daringly split his army to threaten Pope's supply lines, forcing Pope to fall back to Manassas to protect his flank and maintain his lines of communication. At the same time, it left half of Lee's army under Stonewall Jackson potentially exposed against the larger Union army until the other wing under James Longstreet linked back up. Thus, in late August 1862, the Army of Northern Virginia and the Army of Virginia found themselves fighting over nearly the exact same land the South and North fought over in the First Battle of Bull Run 13 months earlier. *Debacles at Bull Run* comprehensively covers both campaigns, the events that led up to the battles, the fighting itself, and the aftermath of both battles. From August 28 to August 30, 1862, Union and Confederate armies fought for the second time on the Manassas, Virginia battlefield. The Battle of Second Manassas, or Second Bull Run, was the culmination of General Robert E. Lee's campaign after the Seven Days to shift the fighting from the vicinity of Richmond to northern Virginia. Lee's victory placed him in a position to carry the war north of the Potomac River and set the stage for the Maryland Campaign of 1862. *Summer Lightning* is a battlefield guide that sequentially follows the fighting from Brawner's Farm on August 28 to the final Confederate attacks against Union positions at Henry Hill on August 30. *Summer Lightning* uses a series of twenty stops with multiple positions to guide the reader through the battlefield and to positions and routes used by both armies, thus providing a view of the engagement. With easy-to-follow directions, detailed tactical maps, extensive eyewitness accounts, and editorial analysis, the reader is transported to the center of the action. A detailed order of battle for both armies is provided, as well as information on important sites away from the main battlefield. **The Battle of Second Manassas** Captivating History, 2021-07-20

Discover the Battle of Second Manassas in this captivating book on what transpired from August 28th to August 30th, 1862, near the Bull Run River in northeastern Virginia. The Battle of Second Manassas was part of the northern Virginia campaign under Confederate General Robert E. Lee's leadership and unfolded during the summer of the second year of the American Civil War. The battle played out on the same ground as the Battle of First Manassas, which took place almost

a year before and both engagements revealed startling similarities including Confederate victories As at the Battle of First Manassas the Northerners superior numbers and reinforcements should have ensured a quick and easy victory However the newly appointed General Lee and his freshly formed army along with his leading legendary generals Stonewall Jackson Jeb Stuart and Old Pete Longstreet made quick work of their enemies After the considerable blunders of the Northern units during the battle Union careers leaders were summarily demoted or transferred Political infighting and poor tactical decisions rendered the Yankees weak and underprepared As at First Manassas the Yankees skedaddled their way back to Washington and out of southern Virginia The loss of the Battle of Second Manassas also known as the Second Battle of Bull Run in the North opened the way for the Confederacy to infiltrate Yankee territory and possibly garner international support for their cause But would they succeed In this book you will learn The events that led to the Battle of Second Manassas Who the key players were for the North and South and what became of them The tactical errors that forced a Northern loss at Second Manassas How the battle was pivotal for the northern Virginia campaign The attitudes behind some of the Civil War s most brutal fighting Why the events of that time did not ultimately lead to a Southern victory in the war Scroll up and click the add to cart button to learn more about the Second Battle of Manassas

[Illustrated Edition]** Major Kent Thomas,2014-08-15 Includes Civil War Map and Illustrations Pack 224 battle plans campaign maps and detailed analyses of actions spanning the entire period of hostilities The concept of winning wars when outnumbered is critical to United States doctrine in the 1980s and 1990s As the product of domestic and allied force structuring our most dangerous enemy has developed a clear cut superiority in mass That disadvantage does not however relieve planners of the responsibility for developing plans that propose ways of defeating our larger enemy This study examines the elements of operational dynamics in light of their use as tools in the development of such a plan The vehicle for this examination is the Second Manassas Campaign of the American Civil War During that campaign Robert E Lee's use of the elements of what we now term operational dynamics enabled him to transition from operational defense to offense move smoothly from interior lines of operation to exterior lines and defeat a numerically superior force This analysis demonstrates the utility of operational dynamics in achieving such results **The Battle of Second Manassas** Joseph W. struggled to get his army across the river while it was under fire from Confederates in Fredericksburg and things only got worse when they did. The battle is mostly remembered for the piecemeal attacks the Union army made on heavily fortified positions. Longstreet's men took up on Marye's Heights. As they threw themselves at Longstreet's heavily fortified position along the high ground, the Northern soldiers were mowed down again and again. During the battle, Lee turned to Longstreet and commented, "It is well that war is so terrible; otherwise we should grow too fond of it." In early May 1863, the Army of the Potomac was at the height of its power as it bore down on Lee's Army of Northern Virginia near Fredericksburg. With an army nearing 130,000 men, Joe Hooker's Army of the Potomac was twice the size of the Army of Northern Virginia. Despite being outnumbered, Lee sized up his opponents and decided to divide his forces in the face of the enemy, sending Stonewall Jackson to turn the Union army's right flank while the rest of the army maintained positions near Fredericksburg. The Battle of Chancellorsville is one of the most famous of the Civil War, and the most famous part of the battle was Stonewall Jackson's daring march across the Army of the Potomac's flank, surprising the XI Corps with an attack on May 2, 1863. Having seized the initiative, half of Lee's army launched desperate attacks on Hooker's forces near the Wilderness over the next 2 days while simultaneously defending against Union attacks around Fredericksburg that pushed the other half of his army back several miles. On May 3, Lee's heavily outnumbered army had just won the most stunning victory of the war. Robert E. Lee's Greatest Victories analyzes all three of the battles, including the campaigns that led up to them and the way they affected the Civil War at the time and in the future. You'll learn about the 3 battles like never before.
