Trans Feminist Epistemologies in the US Second Wave Emily Cousens, 2023-08-01 Why do second wave and trans feminism rarely get considered together Challenging the idea that trans feminism is antagonistic to or arrived after second wave feminism Emily Cousens re-orient trans epistemologies as crucial sites of second wave feminist theorising By revisiting the contributions of trans individuals writing in underground print publications as well as the more well known arguments of Andrea Dworkin this book demonstrates that valuable yet overlooked trans feminist philosophies of sex and gender were present throughout the US second wave It argues that not only were these trans feminist epistemologies an important component of second wave feminism's knowledge production but that this period has an unacknowledged trans feminist legacy

The New Sex Wars Brenda Cossman, 2024-12-03 Revisits the sex wars of the 1970s and 80s and examines their influence on how we think about sexual harm in the MeToo era MeToo's stunning explosion on social media in October 2017 radically changed and amplified conversations about sexual violence as it revealed how widespread the issue is and toppled prominent celebrities and politicians But as the movement spread a conflict emerged among feminist supporters and detractors about how punishment should be doled out and how justice should be

served The New Sex Wars reveals that these clashes are nothing new Delving into the contentious debates from the 70s and 80s Brenda Cossman traces the striking echoes in the feminist divisions of this earlier period In exploring the history of past conflicts the resistance to finding common ground the media s pleasure in portraying the debates as polarized cat fights the simplification of viewpoints as pro and anti sex she shows how they have come to shape the MeToo era From the 70s to today Cossman examines tensions between the need for recognition and protection under the law and the colossal and ongoing failure of that law to redress historic injustice By circumventing law altogether MeToo has led us to question whether justice can be served outside of the courtroom Cossman argues for a different way forward one based on reparative models that focus on shared desired outcomes and the willingness to understand the other side Thoughtful and compelling The New Sex Wars explores what can be learned from these stories what traps we repeatedly fall into how we have been denied our anger and where to begin to make law work

Panels for Transportation Planning Thomas F. Golob,Ryuichi Kitamura,Lyn Long,2013-03-14 Panels for Transportation Planning argues that panels repeated measurements on the same sets of households or individuals over time can more effectively capture dynamic changes in travel behavior and the factors which underlie these changes than can conventional cross sectional surveys Because panels can collect information on

household attributes attitudes and perceptions residential and employment choices travel behavior and other variables and then can collect information on changes in these variables over time they help us to understand how and why people choose to travel as they do and how and why these choices are likely to evolve in the future This book is designed for a wide audience survey researchers who seek information on methodological advancements and applications transportation planners who want an improved understanding of dynamic changes in travel behavior and instructors of graduate courses in urban and transportation planning research methods economics sociology and public policy Each chapter has been prepared to stand alone to illustrate a particular theme or application The book is divided into topical parts which address the most salient issues in the use of panels for transportation planning panels as evaluation tools regional planning applications accounting for response bias and modeling and forecasting issues These parts describe panel applications in the US Australia Great Britain Japan and the Netherlands Each chapter is supplemented by extensive references more than 400 studies reflecting the work of more than 700 authors are cited in the text

White Feminists and Contemporary Maternity D. Hallstein, 2010-03-29 This work explores matrophobia the fear not of one's mother or of motherhood but of becoming one's mother in past and present white feminist analyses of motherhood and mothering By tracing white second wave feminism's strategic choice to organize first as sisters then as daughters O'Brien Hallstein argues matrophobia became embedded in past and continues to linger in contemporary feminist analyses As a result contemporary analyses reveal crucially important but limited understandings of contemporary motherhood and mothering This important work concludes that matrophobia can be reduced and eliminated by reorienting analyses to mutual responsiveness between sisters and daughters second and third wave feminists
