Shaw,1979 **Talking Book Topics** ,1985 **Your Healing Journey Through Grief** Stanley Cornils,2002-09 This book enables readers to translate knowledge into action Grief is not a disease that needs to be cured but an experience that can be worked through by following a normal natural mourning process which if properly dealt with and completed can result in a resourceful and constructive outcome so that a person can recover from loss and life can go on The loss of a spouse or other special loved one is the most difficult and challenging experience of a person s life and unresolved grief can last a lifetime This book is a tool that can be used to learn how to survive loss Stanley Cornils believes a person can do more than just survive a loss he believes they can go on to lead a fulfilling life During the course of his studies Stanley Cornils discovered that grieving people go through similar phases and have certain problems in common The shock and numbness that stunned them when they learned of their loved one s death the denial of what happened the dreadful and horrendous suffering during the first few months the inability to accept the loss the loneliness of having to adjust to life without their loved one dealing with anger and guilt the dread that comes with the approach of a holiday season a birthday or anniversary dealing with money matters and trying to get their lives back on a normal track This book will help people understand that what they are experiencing is normal and it s okay to cry and be angry even with God People do not drown because they fall into the water they drown because they do not fight back in an effort to save themselves After many years of performing funeral services and observing the suffering of grieving families Stanley Cornils asked himself Isn t there something more I can do for these people As a result he developed his Grief Recovery Seminars and has presented them for the past twenty years Your Healing Journey Through Grief represents the culmination of Coping Skills Library of Congress.
