The Second World War Joanna Bourke, 2001 The Second World War saw an unprecedented expansion of suffering beyond the frontlines Of the 1 355 000 tons of bombs dropped on Germany for instance most fell on non military targets and of the 55 million people killed worldwide two thirds were civilians In *The Second World War A People's History* Joanna Bourke uncovers the grim stories of death and destruction lost behind those statistics Using diary entries oral histories poetry and letters home Bourke allows the people that lived and died in the global bloodletting to tell their own stories Soldiers who fought for all sides and in all of the major theatres tell of the fear and horror of combat Partisan fighters recount the daring risks they took and the torments of captivity Civilians describe the anxiety of approaching war their struggle for survival and their despair and helplessness as the war consumed their world Bourke chillingly demonstrates that

all of this sorrow and woe was the direct result of political and military decisions on both sides A brief objective synopsis of each campaign in the war clarifies the link between strategic military decisions and the massacre and inhumane treatment of non combatants events now known only by names like Nanking Sobibor Dresden and Nagasaki that was all too common in this brutal war This short engaging history is a poignant testimony to the memory of the innocents lost and a stark reminder that their demise was not inevitable indeed it was often strategically planned and methodically executed *The Second World War* Martin Gilbert,1991 It began with the German invasion of Poland on September 1 1939 By the time it came to an end on V J Day August 14 1945 it had involved every major power and become global in its reach In the final accounting it would turn out to be in both human terms and material resources the costliest war taking the lives of forty million people

Freemann, Jr.,2016 Merriam Press World War 2 History Series In the history of human existence no conflict has cratered the earth its people and their ways of living like World War II The battles that blazed across the globe from the late 1930s until 1945 caused more than sixty million deaths This writing aspires to present the tale of World War II in a concise yet digestible fashion and to stimulate the reader to delve further into its history In addition to the What Where and When of war it is appropriate to consider what forces and flaws contributed to the war s emergence This book begins with a review of the events and circumstances that gave birth to the conflict Then comes a discussion of the war s action in every significant theater of combat The book closes with the human and economic costs of the conflict an evaluation of the intended and unintended consequences of World War II and ethical questions the war has brought to the surface 19 photos 16 maps sources **The Second World War** A.
