Secondhand Smoke:

Secondhand Smoke Exposure and Cardiovascular Effects Institute of Medicine, Board on Population Health and Public Health Practice, Committee on Secondhand Smoke Exposure and Acute Coronary Events, 2010-02-21 Data suggest that exposure to secondhand smoke can result in heart disease in nonsmoking adults Recently progress has been made in reducing involuntary exposure to secondhand smoke through legislation banning smoking in workplaces restaurants and other public places The effect of legislation to ban smoking and its effects on the cardiovascular health of nonsmoking adults however remains a question Secondhand Smoke Exposure and Cardiovascular Effects reviews available scientific literature to assess the relationship between secondhand smoke exposure and acute coronary events The authors experts in secondhand smoke exposure and toxicology clinical cardiology epidemiology and statistics find that there is about a 25 to 30 percent increase in the risk of coronary heart disease from exposure to secondhand smoke Their findings agree with the 2006 Surgeon General's Report conclusion that there are increased risks of coronary heart disease morbidity and mortality among men and women exposed to secondhand smoke However the authors note that the evidence for determining the magnitude of the relationship between chronic secondhand smoke exposure and coronary heart disease is not very strong Public health professionals will rely upon Secondhand Smoke Exposure and Cardiovascular Effects for its survey of critical epidemiological studies on the effects of smoking bans and evidence of links between secondhand smoke exposure and cardiovascular events as well as its findings and recommendations **Secondhand Smoke**, 2006 Second Hand Smoke Patty Friedmann, 2002 Zib and Wilson Bailey think the thick cloud of cigarette smoke enveloping their mother is what probably killed their father Certainly the toxicity of Jerusha Bailey's cynical attitudes has driven her children far from New Orleans Jerusha soon befriends Dustin Puglia a ten year old living next door with a poisonous mother of his own The two become attached in this hilarious story of responsibility and blame *EPA National Publications Catalog* United States.
