**The Secret Pool** Kimberley Ridley, 2013 You might walk right by a vernal pool and not notice it Often mistaken for mere puddles in the woods vernal pools are the source of life for many interesting creatures These secret pools form every year when low places on the forest floor fill up with rain and melted snow They soon become home to hatching wood frogs spotted salamanders and fairy shrimp Even in late summer and fall creatures such as turtles and snakes rely on these places for shelter and food *Secret Chicago* Sam Weller, 2002-03 The Unique Guidebook to Chicago's Hidden Sites Sounds Tastes

Palmer, 2024-10-16 In 2018 while teaching her kids to swim and working on urban river restoration projects Hannah S Palmer began a journal of social encounters with water As she found herself dangling her feet in a seemingly all white swimming pool she started to worry about how her young sons would learn to swim Would they grow up accustomed to the stubbornly segregated pools of Atlanta Was it safe for them to wade in creeks laced with urban runoff or dive into the ever warming man made swimming holes of the South Should they just join the Y But these weren't just parenting questions In the South how we swim and whether we have access to water at all is tied up in race and class As she took her sons pool hopping across Atlanta Palmer found an intimate lens through which to view the city's neighborhoods In *The Pool Is Closed* she documents the creeks behind fences the springs in the sewers the lakes that had all but vanished since her own parents learned to swim In the process she uncovers complex stories about environmental history water policy and the racial politics of public spaces Nothing prepared Palmer for the contamination sewage and bodies that appear when you look at water too long Her search for water became compulsive a way to make sense of the world *The Pool Is Closed* is a book about water where it flows and where it floods who owns it and what it costs It's also a story about embracing parenthood in a time of environmental catastrophe and political anxiety of dwindling public space and natural resources It chronicles a year long quest to find a place to swim and finding instead what makes shared water so threatening and wild *India Rubber World and Electrical Trades Review* John Robertson Dunlap, Henry Clemens
