Waterstone's Guide to Books Waterstone & Co,1988 Grandmaster Secrets: Winning Quickly at Chess John Nunn,2008-02 In this tremendously instructive and entertaining work John Nunn selects 125 of the finest short decisive grandmaster games of the modern era For a grandmaster to lose a game in 25 moves or fewer takes something special and club players can learn a great deal from studying these miniatures Each of these games is a true battle with the result often in doubt until near the very end of the struggle Nunn identifies the most common causes of the errors that lead to the loser s demise and how one can seek to take dramatic advantage of the opponent s risky or faulty play In his thought provoking extended introduction he explains that in many cases the problem was of a psychological nature often the loser fails to accept that events have not unfolded according to plan and as a consequence steers into the reefs when there was still time to head for safer waters
