Secrets of Seduction Paulo Roberto de Sá Araújo,2021-10-02 Recent surveys reveal that about 84% of men feel insecure in flirting situations whether due to lack of courage fear of judgment feeling intimidated by the beauty of women not knowing what to say or even because of an ingrained shyness This is because these men do not understand the psychological aspects and mental triggers that are behind any human interaction In my teens I was very shy and embarrassed to talk to women who piqued my interest until I discovered that seduction and conquest skills

could be learned and I could really become a skilled seducer if I learned the right techniques After studying human behavior a lot and even graduating from courses on influence and persuasion I became an expert in communication and finally understood how some men conquer women so easily as if they were true magnets and attracted them to themselves with very little effort Thinking about helping other men to overcome these difficulties I wrote the book *Secrets of Seduction* where I teach all the powerful techniques of influence persuasion NLP and seduction that really changed my life I literally reveal all the secrets you've never been told about relating to women In it I teach practical strategies from basic to advanced to overcome any mental block gain self confidence interpret signals of interest and just by looking know exactly who are the women who are interested in you I also approach the best communication techniques with an almost hypnotic power to create connections which helped me not only in the seduction aspect but also in several areas of my life I hope this book adds the same value to you as it did to me
