Chapter 2 AP World History Summary Each civilization faces challenges from politics to environment and everything in between. This chapter explains how each society became urbanized even though it was very tough. Nubia, China, Olmec, and Chavin are connected though each are separated by millions of miles and geological isolation. In China, dynasties rule all over the land; the Shang dynasty begins China's history with the rise of power of it's clans. It contains the earliest recorded writing documents, and they introduced bronze during 2000 B.

C. E. The region was ran by a warrior aristocracy who loved warfare, hunting, exchanging, feasting, and wine revelry; the King of Shang always traveled for courts of his subordinates to reinforce their loyalty. Nomadic people that owned desert regions, or steppe lands were given demonstration power also. Religion in the Shang dynasty was enforced, the Kings used divination to determine the will of their ancestors and Gods to win favor. Nubia is located in the Nile River Valley and was over run by the Egyptians because of they have gold mines.

After Egypt took charge, Nubia became Kush and adapted the Egyptian culture. Nubia decided to help local Palestine who struggled with the Assyrians in 701 B. C. E. ; this was a mistake because the Assyrians invaded and overthrown Egypt so that made a downfall for Nubia. After a while, Nubia became in control again, they still kept the Egyptian language, however Sub-Saharan culture replaced the Egyptian culture when Meroe became better suited for agriculture and trade. On the other side of the world, the Olmec civilization is completely isolated from the world.

It's located in Mesoamerica which is one of the most impressive early civilizations. The King's Power was used to make people build large scale irrigation and drainage works, and by the 1000 B. C. E. they have become a civilization. In addition to the geological isolation, Olmec have frequent volcanic eruptions and earth quakes, and mountains that separate the region into micro environments. Evolution developed into urbanization and appearance of powerful political and religious elites. The people were very advanced for their time; they made he calendar and based their urban centers to reflect astronomical observations. The Olmec civilization influenced the Mayans and considered the most influential earliest Mesoamerican civilization. The most impressive early Urban South American civilization is Chavin. It's home to the most dense population. Maize increased the food supply of the coast and interior foothills, thus, allowing greater leverage for civilization. They have a form of political integration and trade dependency on it's neighbors that may have relied on military force.

Their religion was based on praising their royal ancestors and gods that can take on animal form. The most praised animal is the jaguar; human sacrifices were made at temple platforms. These civi

People That changed the Course of History: The Story of Queen Victoria 200 Years After Her Birth Danielle Thorne, 2018. Almost 200 years ago, the cries of a newborn baby echoed through the halls of London's Kensington Palace. No one who celebrated Princess Victoria's birth in the late spring of 1819 could have imagined that the little girl, born fifth in line to the English throne, would be the ruling monarch of the United Kingdom in just a few short years. The 19th century was a time of great change. For Princess Alexandrina Victoria, misfortune would strike early with the loss of her father, a lonely childhood, and a mother determined to control her. As teen queen, Queen Victoria ruled with stubbornness, strength, and humility that nourished the advancement of the Industrial Revolution, soothed the tempers of European warmongers, and changed life in England in diverse and sometimes controversial ways. Through her published journals and letters, this beloved figure has come to be known as more than just an aristocratic young woman with a crown, but a queen for the ages. Victoria ruled on her own terms for an astounding 63 years. She survived illness, political plots, the birth of nine children, assassination attempts, and a personal heartbreak that would transform her from a royal ruling mother into a mourning widow. Through it all, she maintained an iron determination to finish her course. Under her reign, the United Kingdom reached its historic peak of world power and dominion, influencing change and life around the globe. A small woman with glowing round eyes and a ready wit, Queen Victoria is remembered today as the charming giantess who ruled while the sun never set on the British Empire.

Events That Changed the Course of History: The Story of the Grand Canyon's Establishment 100 Years Later Hannah Litwiller, 2017. The Grand Canyon is one of America's loveliest landmarks. That's a pretty noncontroversial statement, right? Wrong, at least if you lived 100 years ago. Teddy Roosevelt, the Wild West-loving president, wanted the Grand Canyon to be a national park, an untarnished natural beauty that every American could have the chance to admire. Yet a lot of people just didn't think the Grand Canyon was that charming.

The isolation and barrenness appalled some early visitors. What was pretty about the jagged cliffs and bare rock with their garish colors and terrifying abysses. It wasn't just aesthetics that made the Grand Canyon's path to becoming a national park rocky. Minors wanted to keep searching for potential fortunes in the nooks and crannies of the canyon. A handful of independent minded settlers who had made makeshift houses near the rim to enjoy the peace and solitude weren't excited about the prospect of tourists. Railroads had already built their own hotels and didn't want the National Park Service to benefit from an influx of visitors. But somehow these hurdles were overcome because the Grand Canyon became a national park on February 26, 1919.

Events That Changed the Course of History: The Story of Alabama Becoming a State 200 Years Later Myra Faye Turner, 2018

Sweet Home Alabama: the skies are blue and the history is deep. Its distinctive culture stands as a pinnacle of the Deep South with a football team that has won more than 15 national championships, tasty local specialties like pulled pork and fried dill pickles, and a southern drawl that's as sweet as sorghum molasses. But there's more to Alabama than what meets the eye. Before Alabama became one of the shining stars on the American flag, its history had already begun. Alabama 200 years ago was a very different place. Before Alabama was even a speck in the eyes of white settlers, native populations thrived upon its rich red soil. But when Europeans landed in the New World, everything changed, and the gears of modern history began to turn. While Alabama seems to be a place to sleepily lounge in the sun and watch the world rush by, its own history was anything but lethargic. Once the ball toward statehood began rolling in Alabama, little could stop it. Alabama seemingly had a hand in every major event in U.S. history, from the Revolutionary War to the Civil Rights movement to current events with history in the making, and everything in between. In *Events That Changed the Course of History: The Story of Alabama Becoming a State 200 Years Later*, you'll learn how this underdog of a state that is often written off has a unique and ever-changing history that will surely leave you wanting to visit and see the history for yourself.

Story World and Photodramatist, 1924 **Things That Changed the Course of History: The Story of the Invention of the Typewriter 150 Years Later** Hannah Sandoval, 2017. Maybe you've never used a typewriter yourself, but you've probably seen a movie set sometime in the 20th century that features a room full of them. Perhaps you've heard the distinctive clickety clack of the machine, the loud ping when the typists get to the end of the line, and the gentle swoosh as the typists start all over again. For those of us who grew up with computers, typewriters have an undeniable fascination, but let's stop trying to think of the typewriter as something that is vintage. Let's start considering it as the amazing technological development that it was and is. To this day, keyboards follow the QWERTY format because Christopher Latham Sholes, the inventor of the typewriter, designed his keyboards this way. Women were able to enter the workforce with decent paying jobs because being a typist was deemed an acceptable position for women. The industrialization of the economy was helped along by this more sophisticated device. Not only is the typewriter the direct predecessor of the computer, which has completely changed the way we communicate, but it's also a charming machine in its own right with its clickety clack ping and swoosh. Experience the story of the invention of the typewriter with help from our featured guests: Linda Deutsch, famed former Associated Press reporter; Dorothy Portnoy, long time typing teacher in Manhattan; and Steven Hausman, technology consultant and former Deputy Director for the National Institute of Health. 10/19/2016 12:00:00 AM People Who Changed the Course of History: The Story of Alexander Hamilton 265 Years After His Birth Antone Pierucci, 2018-11-20
