Architectural Involutions offers an alternative genealogy of theater by revealing how innovations in architectural writing and practice transformed an early modern sense of interiority The book launches from a matrix of related platforms a term that in early modern usage denoted scaffolds stages and draftsmen s sketches to situate Alberti Shakespeare Jonson and others within a landscape of spatial and visual change As the English house underwent a process of inward folding replacing a logic of central assembly with one of dissemination the subject who negotiated this new scenography became a flashpoint of conflict in both domestic and theatrical arenas Combining theory with archival findings Mimi Yiu reveals an emergent desire to perform subjectivity to unfold an interior face to an admiring public Highly praised for its lucid writing comprehensive supplementary material and engaging tone Architectural Involutions was the winner of the 2016 MLA Prize for Independent Scholars
