Reformation has offered a clear integrated and coherent analysis and explanation of how Christianity in Western and Central Europe from Iceland to Hungary from the Baltic to the Pyrenees splintered into separate Protestant and Catholic identities and movements Catholic Christianity at the end of the Middle Ages was not at all a uniformly decadent or corrupt institution it showed clear signs of cultural vigour and inventiveness However it was vulnerable to a particular kind of criticism if ever its claims to mediate the grace of God to believers were challenged Martin Luther proposed a radically new insight into how God forgives human sin In this new theological vision rituals did not purify people priests did not need to be set apart from the ordinary community the church needed no longer to be an international body For a critical Reformation moment this idea caught fire in the spiritual political and community life of much of Europe Lay people seized hold of the instruments of spiritual authority and transformed religion into something simpler more local more rooted in their own community So were born the many cultures liturgies musical traditions and prayer lives of the countries of Protestant Europe This new edition embraces and responds to developments in scholarship over the past twenty years Substantially re-written and updated with both a thorough revision of the text and fully updated references and bibliography it nevertheless preserves the distinctive features of the original including its clearly thought out integration of theological ideas and political cultures helping to

bridge the gap between theological and social history and the use of helpful charts and tables that made the original so easy to use

The Tactics of Toleration Jesse Spohnholz, 2010-12-28 The Tactics of Toleration examines the preconditions and limits of toleration during an age in which Europe was sharply divided along religious lines During the Age of Religious Wars refugee communities in borderland towns like the Rhineland city of Wesel were remarkably religiously diverse and culturally heterogeneous places Examining religious life from the perspective of Calvinists Lutherans Mennonites and Catholics this book examines how residents dealt with pluralism during an age of deep religious conflict and intolerance Based on sources that range from theological treatises to financial records and from marriage registries to testimonies before secular and ecclesiastical courts this project offers new insights into the strategies that ordinary people developed for managing religious pluralism during the Age of Religious Wars Historians have tended to emphasize the ways in which people of different faiths created and reinforced religious differences in the generations after the Reformation s break up of Christianity usually in terms of long term historical narratives associated with modernization including state building confessionalization and the subsequent rise of religious toleration after a century of religious wars In contrast Jesse Spohnholz demonstrates that although this was a time when Christians were engaged in a series of brutal religious wars against one another many were also learning more immediate and short term strategies to live alongside one another This book considers these tactics for toleration from the vantage point of religious immigrants and their hosts who learned to coexist despite differences in language culture and religion It demands that scholars reconsider toleration not only as an intellectual construct that emerged out of the Enlightenment but also as a dynamic set of short term and often informal negotiations between ordinary people regulating the limits of acceptable and unacceptable behavior Published by University of Delaware Press Distributed worldwide by Rutgers University Press
