 Andrew Pollard,2001-01-01 Do children still matter in education With its focus on children s learning in the initial three years
 of schooling this book contains the first part of a report of an ethnographic study of individual pupils from the ages of four to
 11 in an English primary school **School Leadership** Professor Gerald Grace,Gerald Grace,2005-08-31 This text provides
 a study of the education policy scholarship of leadership It examines the ways in which concepts of educational leadership
 and management have evolved historically and culturally reviewing contemporary debates about the nature of school
 leadership The question of what school leadership could and should be is at the centre of political ideological and educational
 debate in many societies These debates involve cultural conservatives New Right marketers democrats and community
 educators feminists and critical theorists as well as school governors headteachers and teachers parents community
 members and school students These debates are reviewed and the theoretical context is illuminated by fieldwork accounts
 derived from the research participation of 88 headteachers working in English schools both primary and secondary Such
 accounts provide an insight into the challenges of contemporary school leadership as headteachers face new power
 relationships new curriculum responsibilities and management and marketing cultures which generate moral ethical and
 professional dilemmas for many of them Creative Teachers in Primary Schools Peter Woods,2019-07-17 Is creative
 teaching still possible in English schools Can teachers maintain and promote their own interests and beliefs as well as deliver
 a prescribed National Curriculum Originally published in 1995 this book explores creative teachers attempts to pursue their
 brand of teaching despite the changes Peter Woods has discovered a range of strategies and adaptations to this end among
 such teachers including resisting change which runs counter to their own values appropriating the National Curriculum
 within their own ethos enhancing their role through the use of others and enriching their work through the National
 Curriculum to provide quality learning experiences If all else fails such teachers remove themselves from the system and take
 their creativity elsewhere A strong theme of self determination runs through these experiences While acknowledging hard
 realities the book is ultimately optimistic and a tribute to the dedication and inspiration of primary teachers The book makes
 an important contribution to educational theory showing a range of responses to intensification as well as providing many
 detailed examples of collaborative research methods Improving the Primary School Mrs Joan Dean,Joan Dean,2005-06-23
 This book is a practical and informative guide on how to improve your primary school It is aimed at those in leadership
 positions headteachers senior staff advisors inspectors and education officers Aimed specifically at the primary school this
 book links research to classroom practice for results appeals to those in leadership roles is concise readable and of great

practical use provides the reader with information that can improve the individual school

Developmental Planning for School Improvement David Hopkins, 1995-01-01 This text represents the experiences from six English speaking countries in the field of school development planning There are chapters discussing staff development quality reviews and school organization and effectiveness

Assessing Quality in Applied and Practice-based Research in Education John Furlong, Alis Oancea, 2007-09-27 This book explores the challenges of assessing quality in applied and practice based research in education It offers various views on quality in applied and practice based research and proposes ways in which quality criteria may reflect more closely the diversity of applied research and its complex entanglements with practice and policy

Improving Children's Learning Joan Dean, 2003-09-02 How can teachers improve what they do in the primary classroom Which teaching methods will help you and your pupils to perform effectively These are the questions that every teacher will be asking him or herself in today's climate of targets and tables Much research over recent years has focused on the role of the teacher and how effective classroom practice is achieved The book discusses many areas of topical importance including teaching methods motivating learners and matching work to children how to structure children's learning classroom control and organisation teaching literacy teaching children with special education needs working with parents It also looks at the increasing role of the teacher as a researcher and how collaborative practices are providing a way for teachers to appraise both their own progress and that of their colleagues This book should be of particular interest to the classroom teacher who is looking for ways to develop his or her teaching but has limited time to explore the research It sets out to translate the findings of research into practical terms which teachers can easily use

Advocacy, Self-Advocacy and Special Needs

Philip Garner, Sarah Sandow, 2018-09-03 First published in 1995 This book concerns aspects of decision making by or on behalf of children who have special educational needs This is an area of concern given that little attention had previously been given to the views of children on matters relating to their education The book examines various themes relating to advocacy in relation to classroom practice school organisation and professional development in all phases of education Additionally the role of parents and of support agencies is considered Each theme is developed by an author with expertise in that field and the emphasis of the book is upon the practical considerations of implementing advocacy programmes in schools

Case Studies In Educational Change David S.G Carter, 2012-10-12 This text the second in a two volume set examining the process of educational reform describes case studies on the change process of education as it impacts on the individual at work The authors provide interesting comparisons of similar changes occurring within education in different national settings including Australia New Zealand Israel the USA and the UK The case studies are based on three themes systematic change the transition from policy to practice and curriculum contexts The effects of governmental control over the curriculum and attempts to reform education by legislation are explained and the similarities are seen as marginalisation of professional educators corporatisation of education systems instrumentalisation of curriculum and the

inability of those in power to draw from past knowledge on educational change Written to stand alone this book can also be read in conjunction with volume 1 International Perspectives on Educational Reform and Policy Implementation which examines the historical social and economic influences on education policy reform The authors argue that change takes a predictable format and once understood can be directed and managed The books are intended to be of interest to all involved in the planning and implementation of change together pointing the way to effective management of such change processes
