Looking Ahead Energy And The Environment:

Looking Ahead Virginia King,2000 **Geothermal Energy Update** ,1978-12 **Energy and Environmental Objectives, Hearing Before the Subcommittee on Environment of ...** United States. Congress. Senate. Committee on Commerce,1974 **Investigative Hearings on Energy and Environmental Activities of Federal Agencies During 1975** United States. Congress. House. Committee on Government Operations. Conservation, Energy, and Natural Resources Subcommittee,1975 **Energy and Environmental Objectives** United States. Congress. Senate. Committee on Commerce. Subcommittee on the Environment,1974 *Energy Research Abstracts* ,1978-02 **Investigative Hearings on Energy and Environmental Activities of Federal Agencies During 1975 (part 1)** United States. Congress. House. Government Operations Committee,1975 **Investigative Hearings on Energy and Environmental Activities of Federal Agencies During 1975: Hearings held April 10, 24; May 9; June 17, 1975** United States. Congress. House. Committee on Government Operations. Conservation, Energy, and Natural Resources Subcommittee,1975 *Looking Ahead* ,2000 *Looking Ahead* Raymond S. Nickerson,2021-12-17 This volume aims to review some of the recent developments and trends that seem especially relevant to any attempt to understand near term future possibilities to consider what a variety of knowledgeable people are saying about changes and developments that could occur and to relate the possibilities to needs and opportunities for human factors research Human factors in this case includes not only the implications of human capabilities and limitations for the design of equipment and machines intended for human use but also applied psychology in a more general sense In particular it is taken to involve social systems as well as physical ones the interaction of people with the environment as well as with machines the facilitation of communication between people as well as between people and computers and the design of policies and procedures as well as the design of equipment The author s intention is to focus on anticipated problems including opportunities as well as difficulties and ask how human factors research might contribute to solutions It is assumed that there are ways in which such research could be useful in addressing societal problems that the profession has not yet realized and that these are more likely to be recognized in the future if the community is actively seeking to identify them *Climate Change and Clean Energy Management* Henry Wang,2019-10-22 Climate change has never been more important than it is now as it has become arguably the world s most urgent problem Solving this problem is proving difficult and complex as it involves joint efforts by governments companies communities and innovators The increased use of fossil fuels associated with global economic growths has led to rising GHG emissions and global warming There are many challenges for countries that are enacting new climate and clean energy regulations in line with their Paris Agreement commitments Good government policies and corporate strategies are essential to support these efforts as part of the global climate change crisis This important book addresses the latest climate change impacts and developments in potential mitigation strategies These include fossil to clean energy transition smart low carbon city designs

green transportation electric vehicles green agriculture carbon emission trading carbon capture solutions plus climate finance and risk management Potential new policies and strategies to support the successful implementation of these important strategic areas are discussed together with high level country and business case examples This book is essential reading for policy makers government employees business executives professionals researchers and academics alike looking to affect change to global climate and energy policies
