Ecology and Literatures in English Françoise Besson, 2018-12-14 In all latitudes writers hold out a mirror leading the reader to awareness by telling real or imaginary stories about people of good will who try to save what can be saved and about animals showing humans the way to follow Such tales argue that in spite of all destructions and tragedies if we are just aware of and connected to the real world around us to the blade of grass at our feet and the star above our heads there is hope in a reconciliation with the Earth This may start with the emergence or rather the return of a nonverbal language restoring the connection between human beings and the nonhuman world through a form of communication beyond verbalization Through a journey in Anglophone literature with examples taken from Aboriginal African American English Canadian and Indian works this book shows the role played by literature in the protection of the planet It argues that literature reveals the fundamental idea that everything is connected and that it is only when most people are aware of this connection that the world will change Exactly as a tree is connected with all the animal life in and around it texts show that nothing should be separated From Shakespeare's theatre to ecopoetics from travel writing to detective novels from children's books to novels all literary genres show that literature responds to the violence destroying lands men and nonhuman creatures whose voices can be heard through texts

Experiencing Environment and Place through Children's Literature Amy Cutter-Mackenzie,Phillip Payne,Alan Reid,2014-06-11 Recent scholarship on children s literature displays a wide variety of interests in classic and contemporary children s books While environmental and ecological concerns have led to an interest in ecocriticism as yet there is little on the significance of the ecological imagination and experience to both the authors and readers young and old of these texts This edited collection brings together a set of original international research based chapters to explore the role of children s literature in learning about environments and places with a focus on how children s literature may inform and enrich our imagination experiences and responses to environmental challenges and injustice Contributions from Australia Canada USA and UK explore the diverse ways in which children s literature can provide what are arguably some of the first and possibly most formative engagements that some children might have with nature Chapters examine classic and new storybooks mythic tales and image based and or written texts read at home in school and in the field Contributors focus on exploring how children s literature mediates and informs our imagination and understandings of diverse environments and places and how it might open our eyes and lives to other presences understandings and priorities through stories their telling and re telling and their analysis This book was originally published as a special issue of Environmental Education Research Real Writing Mitchell Nobis,Daniel Laird,Carrie Nobis,Dawn Reed,Dirk Schulze,2016-09-23 High school writing prompts often ask students to provide overly simplified responses to complicated issues but a person s stance in the real world can rarely if ever be reduced to agree or disagree Arguments are complex with more than two points of view and a range of evidence to consider however writing classes don t always embrace that complexity Real Writing Modernizing the Old School Essay contends that engaging fully with complex texts and difficult nuanced arguments helps students become better thinkers and writers more fully prepared for life both in and after high school By offering students current texts to read and issues to

discuss teachers introduce their students to more complex arguments Real Writing Modernizing the Old School Essay recognizes the value of various types of texts but the need for contemporary readings in our literature and composition classes is important for relevancy related to student engagement the Common Core State Standards and participation in our democratic society This book shares curricular moves to engage students in reading and writing authentic arguments
