## **Mardu Aborigines Living The Dream In Australias Desert:**

The Mardu Aborigines Robert Tonkinson,1991 Revised second edition contains updated introduction and expanded interpretations revised orthography new sections religion politics and hierarchy contesting the dream the mission era 1946 1969 self management mining Jigalong and outstations Parnngurr Punmu Gunawarriji deletes some details of initiation and sorcery see first edition for complete annotation *Drinking* I. de Garine, Valerie de Garine,2001 Over the last decades quite a few studies have been devoted to drinking Most of these were concerned with alcohol and written by social anthropologists This book presents multidisciplinary aspects of the ingestion of liquids at large addressing many of the overt and covert meanings of drinking from satisfying biological needs to communicating with humans and the hereafter attempting to reach a differential emotional state or seeking good health and longevity through the ingestion of appropriate beverages It includes papers from both biological and social scientists and covers a fair range of societies from rural and urban environments and in continents and countries ranging from Europe Africa and Latin America to Malaysia and the Pacific Property and Equality Thomas Widlok, Wolde Gossa Tadesse,2005 The ethnography of egalitarian social systems was first met with sheer disbelief Today it is still hotly debated in a number of fields and has gained sophistication as well as momentum This collection of essays on property and equality acknowledges this diversification by presenting research results in two complementary volumes They bring together a wide range of authoritative researchers most of whom have worked with hunter gatherer groups These two volumes cover existing ethnographic and theoretical ground while maintaining a clear focus on the relation between property and equality The book consists of the most recent work of prominent members of the original group of researchers in hunter gatherer studies among them James Woodburn and Richard Lee and very recent ethnography on hunter gatherers and other egalitarian systems Pacific Answers to Western Hegemony Jürg Wassmann,2020-09-02 The destruction of local identity through the relentless encroachment of a McDonald ized cultural imperialism is a global phenomenon Yet the reactions of Pacific peoples to this Western hegemony are diverse and encourage the creation of independent cultural identities through sports and games political mediations tourism media and filmmaking and the struggles for land rights and titles particularly in Australia This book based on extensive fieldwork addresses a subject of great immediacy to peoples of the Pacific Island nations It fills an important gap in existing ethnographic literature on the region and confidently navigates what had previously been considered uncharted even unchartable waters that wide sea between the classic ethnography of Oceania and contemporary anthropology s theoretical concerns with global relations and transnational cultures Its breadth rigour and timely contribution to post colonial politics in Oceania are certain to ensure that this book will provide an enduring contribution to the field *Information and Its Role in Hunter-Gatherer Bands* Robert K. Hitchcock, William A. Lovis, Robert Whallon,2011-12-31 Information and its Role in Hunter Gatherer Bands explores the question of how information broadly conceived is acquired stored circulated and utilized in small scale hunter gatherer

societies or bands Given the nature of this question the volume brings together a group of scholars from multiple disciplines including archaeology ethnography linguistics and evolutionary ecology Each of these specialties deals with the question of information in different ways and with different sets of data given different primacy The fundamental goal of the volume is to bridge disciplines and subdisciplines open discussion and see if some common ground either theoretical perspectives general principles or methodologies can be developed upon which to build future research on the role of information in hunter gatherer bands

**Re-writing Spatiality** Britta Kuhlenbeck,2010 The objective of this project is to encourage new ways of thinking about the meaning and significance of space It follows a desire that has been expressed and theorized by Henri Lefebvre and by extension Edward W Soja to remove Spatiality from the margin of the Trialectics of Being and to bring it into the Trialectics fold alongside with and of at least equal significance to Historicity and Sociality The thesis focuses on how space of the Pilbara region in Western Australia is produced in contemporary Australian writing film art and through lived experience The thesis argues for an understanding of space as essentially dynamic

**Religious Change and Indigenous Peoples** Helena Onnudottir,Adam Possamai,2016-04-08 Exploring religious and spiritual changes which have been taking place among Indigenous populations in Australia and New Zealand this book focuses on important changes in religious affiliation in census data over the last 15 years Drawing on both local social and political debates while contextualising the discussion in wider global debates about changing religious identities especially the growth of Islam the authors present a critical analysis of the persistent images and discourses on Aboriginal religions and spirituality This book takes a comparative approach to other Indigenous and minority groups to explore contemporary changes in religious affiliation which have raised questions about resistance to modernity challenges to the nation state and or rejection of Christianity or Islam Helena Onnudottir Adam Possamai and Bryan Turner offer a critical analysis to on going public political and sociological debates about religious conversion especially to Islam and changing religious affiliations including an increase in the number of people who claim no religion among Indigenous populations This book also offers a major contribution to the growing debate about conversion to Islam among Australian Aborigines Maoris and Pacific peoples

**The Human Swarm** Mark W. Moffett,2019-04-16 The epic story and ultimate big history of how human society evolved from intimate chimp communities into the sprawling civilizations of a world dominating species If a chimpanzee ventures into the territory of a different group it will almost certainly be killed But a New Yorker can fly to Los Angeles or Borneo with very little fear Psychologists have done little to explain this for years they have held that our biology puts a hard upper limit about 150 people on the size of our social groups But human societies are in fact vastly larger How do we manage by and large to get along with each other In this paradigm shattering book biologist Mark W Moffett draws on findings in psychology sociology and anthropology to explain the social adaptations that bind societies He explores how the tension between identity and anonymity defines how societies develop function and fail Surpassing Guns Germs and Steel and Sapiens The Human Swarm reveals how mankind

created sprawling civilizations of unrivaled complexity and what it will take to sustain them      Gardens of History and Imagination Gretchen Poiner, Sybil Jack, 2016-06-03 Whether on the ground or in the mind gardens carry meaning They reflect social and aesthetic values and may express hope anticipation or grief Throughout history they have provided a means of physical survival In creating and maintaining gardens people construe and construct a relationship with their environment But there is no single meaning carried in the word garden as idea and practice it reflects cultural differences in beliefs values and social organisation It embodies personal community even national ways of seeing and being in the world There are ten essays in Gardens of History and Imagination each of which examines the role of gardens and gardening in the settlement of New South Wales and in growing a colony and a state They explore the significance of gardens for the health of the colony for its economy for the construction of social order and moral worth No less do they reveal the significance of forming and reforming personal identities in this process For the immigrants gardening was an act of settlement it was also a statement of possession for individuals and for Britain For a long time it was with memories of home often selective and idealised that settlers made gardens but as the colony developed its own character so did gardening possibilities and practices      Ritual, Media, and Conflict Ronald L. Grimes, Ute Husken, Udo Simon, Eric Venbrux, 2011-03-23 An interdisciplinary team of twenty four scholars locates describes and explores cases in which media driven rituals or ritually saturated media instigate disseminate or escalate conflict The book s central question is When ritual and media interact either by the mediatizing of ritual or by the ritualizing of media how do the patterns of conflict change
