Maria Abbild Oder Vorbild Zur Sozialgeschichte Mittelalterlicher Marienverehrung:

The Holy Family and Its Legacy Albrecht Koschorke, 2003 Why do biblical themes continue to have such an impact on the popular imagination Why do Mary like mothers and Jesus like sons play such a prominent role not only in the late Middle Ages and the Reformation but also in the Enlightenment the nineteenth century with its faith in science and even our time in such movies as The Terminator and the Star Wars saga to the extent that we can count them among Western society's leading cultural archetypes And what does the figure of the father God reveal about the social and familial institutions of male dominated society In this provocative and engaging book Albrecht Koschorke suggests that the story of the Holy Family has become a cultural code embedded in secular society The Western nuclear family consists of the Christian prototype of mother father and child Thus the Holy Family has come to be a model for modern family dynamics The holy child stands at the center of centuries of art history just as the child stands at the center of parental attention today Similarly the roles of modern women and men provide dramatic parallels to the surrogate mother Mary and to Joseph a proxy for the absent father But as the position of the father in Christianity remains ambiguous Koschorke argues the Holy Family model actually disrupts the nuclear ideal with reverberations throughout Western culture including art literature film popular culture and political ideology The anomalies of the Christian nativity a present but nonbiological father and an absent spiritual father for example support the ideology of the state as a powerful and patriarchal determinant of society Ranging over two millennia of history and culture Koschorke deftly contrasts the cultural archetype of the Holy Family with the theories of Freud and Weber and with the literary works of Rousseau Kleist and others in an exploration that illuminates issues of historical religious artistic psychological and cultural significance *Maria, Abbild oder Vorbild?* Hedwig Röckelein, Claudia Opitz, Dieter R. The Oxford Handbook of Medieval Christianity takes as its subject the beliefs practices and institutions of the Christian Church between 400 and 1500AD It addresses topics ranging from early medieval monasticism to late medieval mysticism from the material wealth of the Church to the spiritual exercises through which certain believers might attempt to improve their souls Each chapter tells a story but seeks also to ask how and why Christianity took particular forms at particular moments in history paying attention to both the spiritual and otherworldly aspects of religion and the material and political contexts in which they were often embedded This Handbook is a landmark academic collection that presents cutting edge interpretive perspectives on medieval religion for a wide academic audience drawing together thirty key scholars in the field from the United States the UK and Europe Notably the Handbook is arranged thematically and focusses on an analytical rather than narrative approach seeking to demonstrate the variety change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it While providing a very wide ranging view of the subject it also offers an important agenda for further study in the field

Educating People of Faith John H. Van Engen, 2004 A much needed addition to the emerging literature on the formative power of religious practices *Educating People of Faith* creates a vivid portrait of the lived practices that shaped the faith of Jews and Christians in synagogues and churches from antiquity up to the seventeenth century This significant book is the work of Jewish Roman Catholic Orthodox and Protestant scholars who wished to discover and describe how Jews and Christians through history have been formed in religious ways of thinking and acting Rather than focusing solely on either intellectual or social life the authors all use the concept of practices as they attend to the embodied contextual character of religious formation Their studies of religious figures community life and traditional practices such as preaching sacraments and catechesis are colorful detailed and revealing The authors are also careful to cover the nature of religious education across all social levels from the textual formation of highly literate rabbis and monks engaged in Scripture study to the local formation of illiterate medieval Christians for whom the veneration of saints shrines street performances of religious dramas and public preaching by wandering preachers were profoundly formative *Educating People of Faith* will benefit scholars and teachers desiring a fuller perspective on how lived practices have historically formed people in religious faith It will also be useful to practical theologians and pastors who wish to make the resources of the past available to practitioners in the present Contributors John C Cavadini Anne L Clark Lawrence S Cunningham Joseph Goering Robert Goldenberg Stanley Samuel Harakas Robert M Kingdon Blake Leyerle Michael A Signer Philip M Soergel David C Steinmetz John Van Engen Lee Palmer Wandel Robert Louis Wilken Elliot R Wolfson

Mechthild of Magdeburg and Her Book Sara S. Poor, 2013-03-26 Sometime around 1230 a young woman left her family and traveled to the German city of Magdeburg to devote herself to worship and religious contemplation Rather than living in a community of holy women she chose isolation claiming that this life would bring her closer to God Even in her lifetime Mechthild of Magdeburg gained some renown for her extraordinary

book of mystical revelations *The Flowing Light of the Godhead* the first such work in the German vernacular Yet her writings dropped into obscurity after her death many assume because of her gender In *Mechthild of Magdeburg and Her Book* Sara S Poor seeks to explain this fate by considering Mechthild's own view of female authorship the significance of her choice to write in the vernacular and the continued if submerged presence of her writings in a variety of contexts from the thirteenth through the nineteenth century Rather than explaining Mechthild's absence from literary canons Poor's close examination of medieval and early modern religious literature and of contemporary scholarly writing reveals her subject's shifting importance in a number of differently defined traditions high and low Latin and vernacular male and female centered While gender is often a significant factor in this history Poor demonstrates that it is rarely the only one Her book thus corrects late twentieth century arguments about women writers and canon reform that often rest on inadequate notions of exclusion *Mechthild of Magdeburg and Her Book* offers new insights into medieval vernacular mysticism late medieval women's roles in the production of culture and the construction of modern literary traditions
