Maritime Committee on Archaeological Cooperation, Susan Blair, New Brunswick. Archaeological Services, 1993 **Diversity and Complexity in Prehistoric Maritime Societies** Bruce J. Bourque, 2007-09-04 New England archaeology has not always been everyone s cup of tea only late in the Golden of nineteenth century archaeology as archaeology s focus turned westward did a few pioneers look northward as well causing a brief flurry of investigation and excavation Between 1892 and 1894 Charles C Willoughby did some exemplary excavations at three small burial sites in Bucksport Orland and Ellsworth Maine and made some models of that activity for exhibition at the Chicago World s Fair These activities were encouraged by E Putnam director of the Harvard Peabody Museum and head of anthropology at the Columbian Exposition Even earlier another director of the Peabody Jeffries Wyman spawned some real interest in the shellheaps of the Maine coast but that did not last very long Twentieth century New England archaeology specifically in Maine was for its first fifty years rather low key too with short lived but important activity by Arlo and Oric a Bates Harvard student prior to World War Later I another Massachusetts institution the Peabody Foundation at Andover took some minor but responsible steps toward further understanding of the area s prehistoric past **The Cambridge World Prehistory** Colin Renfrew, Paul Bahn, 2014-06-09 The Cambridge World Prehistory provides a systematic and authoritative examination of the prehistory of every region around the world from the early days of human origins in Africa two million years ago to the beginnings of written history which in some areas started only two centuries ago Written by a team of leading international scholars the volumes include both traditional topics and cutting edge approaches such as archaeolinguistics and molecular genetics and examine the essential questions of human development around the world The volumes are organised geographically exploring the evolution of hominins and their expansion from Africa as well as the formation of states and development in each region of different technologies such as seafaring metallurgy and food production The Cambridge World Prehistory reveals a rich and complex history of the world It will be an invaluable resource for any student or scholar of archaeology and related

disciplines looking to research a particular topic tradition region or period within prehistory **Ceramics in Circumpolar Prehistory** Peter Jordan, Kevin Gibbs, 2019-03-07 Throughout prehistory the Circumpolar World was inhabited by hunter gatherers Pottery making would have been extremely difficult in these cold northern environments and the craft should never have been able to disperse into this region However archaeologists are now aware that pottery traditions were adopted widely across the Northern World and went on to play a key role in subsistence and social life This book sheds light on the human motivations that lay behind the adoption of pottery the challenges that had to be overcome in order to produce it and the solutions that emerged Including essays by an international team of scholars the volume offers a compelling portrait of the role that pottery cooking technologies played in northern lifeways both in the prehistoric past and in more recent ethnographic times *The Archaeology of Human-Environmental Dynamics on the North American Atlantic Coast* Leslie Reeder-Myers, John A. Turck, Torben C.
