Marketing Of Rebellion Insurgents Media And International Activism:

The Marketing of Rebellion Clifford Bob, 2006

Human Rights Discourse in a Global Network Lena

Khor, 2016-05-13 In her innovative study of human rights discourse Lena Khor takes up the prevailing concern by scholars who charge that the globalization of human rights discourse is becoming yet another form of cultural legal and political imperialism imposed from above by an international human rights regime based in the Global North To counter these charges she argues for a paradigmatic shift away from human rights as a hegemonic immutable and ill defined entity toward one that recognizes human rights as a social construct comprised of language and of language use She proposes a new theoretical framework based on a global discourse network of human rights supporting her model with case studies that examine the words and actions of witnesses to genocide Paul Rusesabagina and humanitarian organizations Doctors Without Borders She also analyzes the language of texts such as Michael Ondaatje's *Anil's Ghost* Khor's idea of a globally networked structure of human rights discourse enables actors textual and human who tap into or are linked into this rapidly globalizing system of networks to increase their power as speaking subjects and in so doing to influence the range of acceptable meanings and practices of human rights in the cultural sphere Khor's book is a unique and important contribution to the study of human rights in the humanities that revitalizes viable notions of agency and liberatory network power in fields that have been dominated by negative visions of human capacity and moral action

The Insurgent's Dilemma David H.

Ucko, 2022-06-01 Despite attracting headlines and hype insurgents rarely win Even when they claim territory and threaten governmental writ they typically face a military backlash too powerful to withstand States struggle with addressing the political roots of such movements and their military efforts mostly just mow the grass yet for the insurgent the grass is nonetheless mowed and the armed project must start over This is the insurgent's dilemma the difficulty of asserting oneself of violently challenging authority and of establishing sustainable power In the face of this dilemma some insurgents are learning new ways to ply their trade With subversion spin and disinformation claiming centre stage insurgency is being reinvented to exploit the vulnerabilities of our times and gain new strategic salience for tomorrow As the most promising approaches are refined and repurposed what we think of as counterinsurgency will also need to change The Insurgent's Dilemma explores three particularly adaptive strategies and their implications for response These emerging strategies target the state where it is weak and sap its power sometimes without it noticing There are options for response but fresh thinking is urgently needed about society legitimacy and political violence itself
