

The background of the book cover features a stack of old, worn books on the left and a sepia-toned photograph of a landscape on the right. The photograph shows a body of water, possibly a lake or a wide river, with a dark, silhouetted shoreline in the distance under a pale sky. The overall aesthetic is vintage and literary.

presents no advantages for the species in terms of survival and reproduction is universal across cultures because it fits constraints of the human mind An evolutionary perspective especially when coupled with insights from aesthetics and literary history has much to tell us about both verse and the lyrical impulse Boyd places the writing of lyrical verse within the human disposition to play with pattern and in an extended example he uncovers the many patterns to be found within Shakespeare's Sonnets Shakespeare's bid for readership is unlike that of any sonneteer before him he deliberately avoids all narrative choosing to maximize the openness of the lyric and demonstrating the power that verse can have when liberated of story In eschewing narrative Shakespeare plays freely with patterns of other kinds words images sounds structures emotions and moods argument and analogy and natural rhythms in daily seasonal and life cycles In the originality of his stratagems and in their sheer number and variety both within and between sonnets Shakespeare outdoes all competitors A reading of the Sonnets informed by evolution is primed to attend to these complexities and better able to appreciate Shakespeare's remarkable gambit for immortal fame

Petrarch's Lyric Poems Francesco Petrarca, 1976 Durling's edition of Petrarch's poems has become the standard Readers have praised the translation of the authoritative text as graceful and accurate conveying a real understanding of what this difficult poet is saying The literalness of the prose translation makes this book especially useful to students who lack a full command of Italian
