Adaptations of Mental and Cognitive Disability in Popular Media Whitney Hardin, Julia E. Kiernan, 2022-03-31 Examining representations of mental difference this collection focuses on the ways that adaptations including remakes reboots and other examples of remixed narratives can shape and shift the social contexts and narratives we use to define mental disability The movement of narratives across media via adaptation or within media but across time and space in the case of remakes and reboots is a common tactic for revitalization allowing storytellers to breathe new life into tired narratives remedying past inaccuracies

and making them accessible and relevant for contemporary audiences Thus this collection argues that adaptation provides a useful tool for examining the constraints or opportunities different media impose on or afford narratives or for measuring shifts in ideology as narratives move across cultures or through time Further narrative functions within this collection as a framework for examining the ways that popular media exerts rhetorical power allowing for deeper understandings of the ways that mental disability is experienced by differently situated individuals and revealing relationships with broader social narratives that attempt to push definitions of disability onto them Life in an Egyptian Village in Late Antiquity Giovanni R. Ruffini, 2018-10-11 Most ancient history focuses on the urban elite Papyrology explores the daily lives of the more typical men and women in antiquity Aphrodito a village in sixth century AD Egypt is antiquity's best source for micro level social history The archive of Dioskoros of Aphrodito introduces thousands of people living the normal business of their lives loans rent contracts work agreements marriage divorce In exceptional cases the papyri show raw conflict theft plunder murder Throughout Dioskoros struggles to keep his family in power in Aphrodito and to keep Aphrodito independent from the local tax collectors The emerging picture is a different vision of Roman late antiquity than what we see from the view of the urban elites It is a world of free peasants building networks of trust largely beyond the reach of the state Aphrodito's eighth century AD papyri show that this world dies in the early years of Islamic rule **The Hidden Life** Bryan Fraser, 2005-12
