The Destroyer and the Lamb Matthias Reinhard Hoffmann, 2005 Matthias Reinhard Hoffmann identifies an angelomorphic portrait of Christ in certain passages of Revelation and provides possible reasons for the inclusion of an angelomorphic Christology Angelomorphic Christology is not regarded as an isolated christological concept In turn the author compares angelomorphic Christology with the prominent Lamb Christology of Revelation A comparison of these concepts reveals that both Lamb and angelomorphic Christology serve the purpose of contrasting different functions of Christ The functions correspond with the implied perception of Christ by his followers on the one hand and his opponents on the other Accordingly Christ appears to be an eschatological juridical figure described in angelomorphic patterns to his

opposition while he is perceived as salvific redeemer in form of the Lamb by those who believe in him Such a christological perspective draws on traditions from the Exodus narrative namely the features of the Passover Lamb and the Destroying Angel Further equality between God and Christ is established despite an angelomorphic portrait of Christ especially those passages describing Christ as the Lamb put him on par with God But also within visions with an angelomorphic description of Christ his status as superior to angels and as an equal to God is displayed The Impact of the Dead Sea Scrolls Joseph A. Fitzmyer,2009 Since 1957 Joseph Fitzmyer S J has done extensive study and research on the Dead Sea Scrolls along with having written many publications on this topic The discovery of the Dead Sea Scrolls and the considerations and implications of how these important and historically significant findings impact biblical studies and ancient archaeology are presented by this renowned scholar The Impact of the Dead Sea Scrolls offers informative important background understanding and insightful reading that will appeal especially to students of the Bible and those interested in ancient archaeology Book jacket

The Caves of Qumran Marcello Fidanzio,2016-11-01 In Qumran studies the attention of scholars has largely been focused on the Dead Sea Scrolls while archaeology has concentrated above all on the settlement This volume presents the proceedings of an international conference Lugano 2014 dedicated entirely to the caves of Qumran The papers deal with both archaeological and textual issues comparing the caves in the vicinity of Qumran between themselves and their contents with the other finds in the Dead Sea region The relationships between the caves and the settlement of Qumran are re examined and their connections with the regional context are investigated The original inventory of the materials excavated from the caves by Roland de Vaux is published for the first time in appendix to the volume Qumran Cave 1 ,2010 Part one contains the photographic plates with the transcriptions on facing pages for easy comparison Part two presents the introductions notes and the catalogue of variants *Qumran cave 4. 1.
