BOOK JACKET

An Introductory Book of Diraasat-ul-Islam Fardun Ali Middy, 2021-08-21 Allah has guided you here and you are now trying to understand Islam a centuries old religion which had survived in its original form from the time of the last Prophet of Allah pbuh Now several questions may raise in one's mind why Islam is so great Is it means that all the people of other religions are on a path of astray Is Islam disrespecting other religions How Islam could be such inhumane In this book the

author had tried to give some answers to these questions IN SHAA ALLAH The book is presenting the truth in front of the whole family of Adam pbuh After observing our present social conditions and our next generation the author thinks it is obliged upon every single follower of the Prophet pbuh to pay attention in recognizing the true Islam and spreading the true knowledge of Qur an which guides the whole Humanity You may find comparative explanations Quranic Vedic and Biblical interpretation in a beautiful compared form in this book Let s check it out In Shaa Allah it would be beneficial *Sacred Tropes: Tanakh, New Testament, and Qur'an as Literature and Culture* Roberta Sabbath,2009-09-30 Contemporary sacred text scholarship has been stimulated by a number of intersecting trends a surging interest in religion sacred texts and inspirational issues burgeoning developments in and applications of literary theories intensifying academic focus on diverse cultures whether for education or scholarship Although much has been written individually about Tanakh New Testament and Qur an no collection combines an examination of all three Sacred Tropes interweaves Tanakh New Testament and Qur an essays Contributors collectively and also often individually use mixed literary approaches instead of the older single theory strategy Appropriate for classroom or research the essays utilize a variety of literary theoretical lenses including environmental cultural studies gender psychoanalytic ideological economic historicism law and rhetorical criticisms through which to examine these sacred works **Elijah Muhammad and Islam** Herbert Berg,2009-03 Elijah Muhammad is arguably the most significant figure in the history of Islam in the United States Successor to W D Fard the founder of the Nation of Islam and a mentor to Malcolm X Elijah Muhammad led the Nation of Islam for over forty years In *Elijah Muhammad and Islam* Herbert Berg focuses on Elijah Muhammad s religiosity which is frequently brought into question as the authenticity of the Nation of Islam as truly Islamic remains hotly debated To better comprehend this powerful and controversial figure Berg contextualizes Elijah Muhammad and his religious approach within the larger Islamic tradition exploring his use of the Qur an his interpretation of Islam and his relationships with other Muslims Above all Berg seeks to understand not define or label Muhammad as a Muslim To do otherwise he argues is to misunderstand and distort the man his teachings his movement and his legacy **Puritan Islam** Barry A. Vann,2011-09-27 In this unique analysis of Muslim population shifts in the Western world geographer Barry A Vann provides fresh insights into the theological factors that play into these demographic trends Vann examines the imagined geographies of Muslims with a puritan orientation People with this mind set are little inclined to accept a pluralistic multicultural live and let live concept of society And conflicts between conflicting value systems are almost inevitable Vann notes that this purist approach to Islam is certainly not universal among Muslims and there are many varying interpretations that are more moderate in outlook Nonetheless the undeniable theological background of all Muslim communities colors their values and attitudes and must be taken into consideration when attempting to understand the potential conflicts between contiguous Muslim and non Muslim groups Given the fact that the population of Muslim immigrants is growing in traditionally Christian and increasingly secular countries of the

Western world while the resident populations are either stagnant or declining Vann's insightful analysis of the ways in which Islam influences perceptions of community and geography is of great relevance **Sacred Paths of the West** Theodore M Ludwig, 2015-08-07 This text combines study of the dynamic historical development of each religious tradition with a comparative thematic structure Students are encouraged to discover and explore the nature of religious experience by comparing basic themes and issues common to all religions finding connections with their own personal experiences By sensitively introducing descriptive material within a comparative thematic structure this text helps students to understand how each religion provides for its adherents patterns and meanings that make up a full way of life Sacred Language, Vernacular Difference Annette Damayanti Lienau, 2024-01-09 How Arabic influenced the evolution of vernacular literatures and anticolonial thought in Egypt Indonesia and Senegal Sacred Language Vernacular Difference offers a new understanding of Arabic's global position as the basis for comparing cultural and literary histories in countries separated by vast distances By tracing controversies over the use of Arabic in three countries with distinct colonial legacies Egypt Indonesia and Senegal the book presents a new approach to the study of postcolonial literatures anticolonial nationalisms and the global circulation of pluralist ideas Annette Damayanti Lienau presents the largely untold story of how Arabic often understood in Africa and Asia as a language of Islamic ritual and precolonial commerce assumed a transregional role as an anticolonial literary medium in the nineteenth and twentieth centuries By examining how major writers and intellectuals across several generations grappled with the cultural asymmetries imposed by imperial Europe Lienau shows that Arabic as a cosmopolitan interethnic and interreligious language complicated debates over questions of indigeneity religious pluralism counter imperial nationalisms and emerging nation states Unearthing parallels from West Africa to Southeast Asia Sacred Language Vernacular Difference argues that debates comparing the status of Arabic to other languages challenged not only Eurocentric but Arabocentric forms of ethnolinguistic and racial prejudice in both local and global terms Muslims in the West After 9/11 Jocelyne Cesari, 2009-12-04 This book is the first systematic attempt to study the situation of European and American Muslims after 9/11 and to present a comprehensive analysis of their religious political and legal situations Since 9/11 and particularly since the Madrid and London bombings of 2004 and 2005 the Muslim presence in Europe and the United States has become a major political concern Many have raised questions regarding potential links between Western Muslims radical Islam and terrorism Whatever the justification of such concerns it is insufficient to address the subject of Muslims in the West from an exclusively counter terrorist perspective Based on empirical studies of Muslims in the US and Western Europe this edited volume posits the situation of Muslim minorities in a broader reflection on the status of liberalism in Western foreign policies It also explores the changes in immigration policies multiculturalism and secularism that have been shaped by the new international context of the war on terror This book will be of great interest to students of Critical Security Studies Islamic Studies Sociology and Political Science in general Jocelyne Cesari is an Associate at Harvard's
