R B Stars Of 1953:

The Late Great Johnny Ace and the Transition from R&B to Rock 'n' Roll James M. Salem, 2001 Johnny Ace's crooning style and stirring ballads made him the first postwar African American artist to cross over to a white audience After a string of R B hits Ace released the million selling Pledging My Love a song headed to the top of the charts when the singer accidentally shot himself in his dressing room between sets at a show James M Salem captures the enigmatic captivating and influential R B legend Venturing from raucous Beale Street to Houston's vibrant Fourth Ward Salem places Johnny Ace within a multifaceted world of postwar rhythm and blues that included B B King Johnny Otis Big Mama Thornton and Gatemouth Brown Salem also examines how entrepreneur Don D Robey and his wife Evelyn Johnson promoted Ace to the top of the charts Yet fame as always had a price Ace's tours on the Chitlin Circuit meant endless one night stands and a grueling schedule that kept him on the road 340 days per year Comprehensive and filled with anecdotes The Late Great Johnny Ace and the Transition from R B to Rock n Roll tells the story of the star who fused black and white styles and changed American popular music forever

Bad Girls Amanda H. Littauer, 2015-07-17 In this innovative and revealing study of midcentury American sex and culture Amanda Littauer traces the origins of the sexual revolution of the 1960s She argues that sexual liberation was much more than a reaction to 1950s repression because it largely involved the mainstreaming of a counterculture already on the rise among girls and young women decades earlier From World War II era victory girls to teen lesbians in the 1940s and 1950s these nonconforming women and girls navigated and resisted intense social and interpersonal pressures to fit existing mores using the upheavals of the era to pursue new sexual freedoms Building on a new generation of research on postwar society Littauer tells the history of diverse young women who stood at the center of major cultural change and helped transform a society bound by conservative sexual morality into one more open to individualism plurality and pleasure in modern sexual life

The Arabs and the Stars Paul Kunitzsch, 2017-05-15 The influence of Arabic Islamic science on European astronomy is still evident in the number of terms and star names which derive from the Arabic These articles examine what the Arabs and other peoples of the Islamic world knew about the fixed stars and the constellations and the astrological traditions they associated with them Professor Kunitzsch shows how the early folk astronomy of the Arabs was radically altered without being swept away by the discovery of ancient Greek also Indian and Persian sources by far the most important of these was the Almagest of Ptolemy This knowledge was then transmitted to medieval Europe to Byzantium and especially to Spain as the articles go on to describe and was a vital factor in stimulating the development of scientific thought in the West

The Black Stars Who Made Baseball Whole Rick Swaine, 2014-09-24 For major league baseball the decade following Jackie Robinson's 1947 debut was one of slow yet persistent change Four other black players made their first brief big league appearances that year followed by only two in 1948 and four in 1949 But by the end of 1959 122 black ballplayers

had made it to the big leagues Like Robinson their lives were made difficult off the field and on it they dodged beanballs and spikes This book brings attention to the accomplishments of this transitional generation of African American players made up of men like Luscious Luke Easter Sam The Jet Jethroe and Sad Sam Jones many of whom spent years in the minors the Negro leagues or both before getting their shot Chapters on each season from 1947 to 1959 incorporate biographical and career profiles for 25 players who stood out during baseball s integration A final chapter covers the outstanding minor league players who for various reasons never got a real chance to play major league ball Appendices include a roster of black major leaguers from 1947 through 1959 a list of black player firsts and statistics on the year by year population of black players in the majors Science Abstracts ,1927 **High Energy Phenomena Around Collapsed Stars** F. Proceedings of the NATO Advanced Study Institute Carg se Corsica France September 2 13 1985 Pass Receiving in Early Pro Football Jerry Roberts,2016-01-14 Big television contracts in the 1960s created the Super Bowl as well as the 1970 merger of the National Football League with the pass oriented American Football League Since then professional football has been America s most popular televised team sport developing into a wide open passing game by the 21st century Handling the completion side of the aerial game receivers are not often as celebrated as quarterbacks or coaches even in the era of San Francisco 49er Jerry Rice s supremacy This book provides a history of pro pass receiving and its influence on the game prior to the televised era The author studies pro football s formative and mid 20th century years highlighting the players who pulled pigskins from flight like the legendary Don Hutson Gibby Welch Johnny Blood Ray Flaherty Crazy Legs Hirsch Mac Speedie Choo Choo Roberts and many others *The Origin of Stars and Planetary Systems* Charles J. Lada,N.D. Kylafis,2012-12-06 A few years after the publication of *The Physics of Star Formation and Early Stellar Evolution* we received a request from the publisher for an up dated second edition of this popular reference book As originally intended the volume had proved to be a useful text book for graduate astronomy courses and seminars which dealt with topics related to stellar origins The book was based on a series of lectures delivered by a distinguished group of leading researchers at a NATO Advanced Study Institute ASI held in May 1990 on the island of Crete Greece The primary goal of the ASI was in fact to produce a book which would simultaneously provide a broad and systematic overview of as well as a rigorous introduction to the fun damental physics and astronomy at the heart of modern research in star formation and early stellar evolution However by 1995 concern had arisen among those who used the text as a reference for graduate seminars and courses that the book would need to be updated to stay abreast of the discoveries and progress in this rapidly evolving field After some discussion we concluded that a new edition of the book was warranted and that the goal of producing a new edition would be best accomplished by organizing a second ASI in Crete to review the progress in star formation research *Official Baseball Annual* National Baseball Congress of America,1972 **The Nature of Dusty Star-Forming Galaxies** William Cowley,2017-10-02 This thesis combines a theoretical model of galaxy formation with a treatment of the radiative transfer in

the titular dusty star forming galaxies Embedding this within the well established CDM Lambda cold dark matter cosmology the author was able to simulate galaxy populations from which realistic observational images were synthesised Based on further analysis he shows that there is a good correspondence with observations from new instruments such as the SCUBA2 bolometric camera and the Atacama Large Millimeter Array ALMA interferometer and reveals some novel aspects of this exciting galaxy population In particular he shows that blending of these galaxies in the imaging produces an artificial enhancement in their clustering which he dubs blending bias This implies that the host dark matter halo masses for these galaxies have previously been significantly overestimated He also presents amongst the first predictions from a galaxy formation model for observations of these galaxies that will be made by the James Webb Space Telescope the successor to the Hubble Space Telescope

[The Realm of Interacting Binary Stars](#) J. Sahade,G.E. McCluskey,Y. Kondo,2012-12-06 More than two centuries have elapsed since the story of the interacting binary stars began with the rediscovery of the variability of Algol by John Goodricke and the interpretation he proposed for explaining the regular periodic brightness variations which he found Over this long span of time our knowledge about these systems has been growing and we have now reached a fairly good understanding of the structure and behavior of this interesting group of objects This book contains a timely summary of our present knowledge of interacting binary stars The chapters have been written by distinguished scientists who have done relevant research in the field of interacting binary stars

Physical Processes in Fragmentation and Star Formation Roberto Capuzzo-Dolcetta,C. Chiosi,Alberto Di Fazio,2012-12-06 Recent years have witnessed the expansion and multiplication of the observations of star formation and fragmentation accompanied by a consequent growth in the study of the underlying physical processes the chemistry the sites the times etc Moreover recent studies have shown that the formation of stars is likely to share many features with the formation of other self gravitating objects The present volume therefore discusses the formation of such objects in a systematic and comparative manner
