The Ra Expeditions Thor Heyerdahl, 1993 *The Ra Expeditions* Thor Heyerdahl, 1971 **Soul of the Hurricane** Nelson Simon, 2021-10-26 *Soul of the Hurricane* is a remarkable debut from a singular storyteller David Isay Peabody Award winning creator of StoryCorps Nelson Simon didn't want to sign up as a last minute crew member to transport a Norwegian schooner from Brooklyn to Bermuda But one thing led to another and there he was He told himself that it would be a sort of pleasure cruise a week in the Gulf Stream with a gourmet chef on board some down time on a tropical island then a quick flight home What did it matter that he had practically no sailing experience The eight other crew members had plenty they just needed an extra pair of hands What could possibly go wrong It was October 1991 and the ship was Anne Kristine the oldest continuously sailing vessel in the world What awaited them was Hurricane Grace the southern end of what came to be known as the Perfect Storm *Soul of the Hurricane* tells an unlikely tale that begins with an unexpected invitation and ends in the dead of night somewhere far from home with a Coast Guard helicopter above and a dark angry sea below **Norwegian Maritime Explorers and Expeditions Over the Past Thousand Years** Øystein Johansen, 1999 Norwegian maritime explorers and expeditions take you on the greatest journeys of discovery over a thousand years Throughout Norwegian history the sea has been the most important highway used by Norwegians in their travels along our almost 2000 kilometre long coast or to more distant destinations Some explorers set off in search of new territories for commercial reasons like Viking Ottar around the year 890 A D and Leif Eiriksson in 999 A D Jens Munk in 1619 or Carl Anton Larsen and Otto Sverdrup in the twentieth century Others like Fridtjof Nansen and Roald Amundsen had a burning desire to explore new countries and realize personal ambitions or like Thor Heyerdahl they have wanted to prove a theory about ancient vessels and their ability to cross oceans All these explorers have one key characteristic in common they look upon the sea as a natural element to be mastered but not conquered They conducted their expeditions on nature's own terms in spite of the risks involved The chapters of this book tell stories of daring courage stubborn endurance and scientific curiosity and the drama and tension derive not only from the explorers struggle with the forces of nature but also from the outstanding personalities of the men who made these journeys Publisher's description **The Rotarian**, 1972-01 Established in 1911 The Rotarian is the official magazine of Rotary International and is circulated worldwide Each issue contains feature articles columns and departments about or of interest to Rotarians Seventeen Nobel Prize winners and 19 Pulitzer Prize winners from Mahatma Gandhi to Kurt Vonnegut Jr have written for the magazine *MotorBoating*, 1971-11 *Oslo (Rough Guides Snapshot Norway)* Rough Guides, 2017-05-01 The Rough Guides Snapshot Norway Oslo is the ultimate travel guide to Norway's capital city and the surrounding Oslofjord It leads you through the city with reliable information and comprehensive coverage of all the sights and attractions from art galleries to museums and castles to Viking longship collections Detailed maps and up to date listings pinpoint the best cafés restaurants hotels shops bars and nightlife ensuring you make the most of

8 Men and a Duck charts the hilarious and unnerving Pacific voyage as it rolls between waves of high drama and high farce from the five-day launch off a Chilean beach to the bungled phone call that triggered a naval rescue alert to the sad fate of Pedro the duck to the constant race against the inexorable sinking of the soggy hull On a fateful South American bus trip journalist Nick Thorpe overheard some fellow passengers discussing an improbable plan to sail 2,500 miles from northern Chile to Easter Island on the Viracocha a boat made of reeds The crew's aim in reviving this pre-Incan boat-building technology was twofold to reopen the controversial migration theories of Thor Heyerdahl who sailed his boat the Kon-Tiki from Peru to Polynesia in 1947 and to have one heck of an adventure in the process Thorpe talked his way on board Captain Phil Buck's Viracocha only to find himself plagued by uncertainty Why did the crew include a tree surgeon a jewelry salesman and two ducks What happened to the navigator Did anybody actually know how to sail And most important where was the life raft Despite the best efforts of storms and sharks and fast-moving freighters an alarming lack of sailing qualifications and a rival explorer dogging the adventure at every turn the crew members of the Viracocha lived to tell their

extraordinary tale right through to its wickedly unexpected conclusion Nick Thorpe's account is by turns funny touching and thrilling a story of friendship fate and the unlikely distances people will go for real adventure New York Magazine, 1974-08-26 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
