

Across Race and Ethnicity, Voters Gave Trump Lower Ratings on Popularity and Higher Ratings on Actual Job Approval

White voters were most likely to be favorable to Trump (net +5 favorable) and approve of the job he did as president (net +18 approve). The vast majority of Black and AAPI voters gave him negative ratings on both, while views were more mixed among Hispanic voters.

Please indicate how favorable or unfavorable you are to:
Donald Trump.

Do you approve or disapprove of the way **Donald Trump**
handled his job when he was president?

Respondents who are multi-racial are coded as each race the individual identifies as - as multi-racial respondents can be coded as multiple racial or ethnic categories. Nationwide survey of 1,000 self-reported 2024 voters conducted October 31-November 9, 2024. For more info, visit navigatormethods.org.

Race And Gender In The American Economy Views Across The Spectrum

**Drucilla Barker, Suzanne
Bergeron, Susan F. Feiner**

Race And Gender In The American Economy Views Across The Spectrum:

Race and Gender in the American Economy Susan Feiner,1994 Presents the competing explanations conservative liberal and radical for the persistence of racial sexual and economic inequality Over 60 articles examine the influence of race and gender in the American economy All sides of these economic issues are presented in a fairly non technical way

Introducing Race and Gender into Economics Robin L Bartlett,2002-09-11 Economics has tended to be a very male middle class white discipline *Introducing Race and Gender into Economics* is a ground breaking book which generates ideas for integrating race and gender issues into introductory economics courses Each section gives an overview of how to modify standard courses including macroeconomics methodology microeconomics as well as race and gender sensitive issues This up to date work will be of increasing importance to all teachers of introductory economics

The Elgar Companion to Economics and Philosophy John Bryan Davis,Alain Marciano,Jochen Runde,2005-01-01 there are many first rate contributions here Those contributions make this collection valuable especially to readers who are already knowledgeable about the various areas in which the interests of philosophers and economists overlap Daniel M Hausman *Journal of Economic Methodology* *The Elgar Companion To Economics and Philosophy* is a very good read Every library should buy it now John King *History of Economics Review* The volume collects articles surveying developments in such related fields as economic methodology ethics epistemology and social ontology Many of the articles are forward looking and as such constitute substantive and original and at times provocative contributions to the literature The volume as a whole is a success the editors are to be congratulated for their efforts Bruce J Caldwell University of North Carolina Greensboro US This Companion is called economics and philosophy but actually it is about the philosophy of economics and all the great questions in the subject are here The weather in the philosophy of economics has been stormy lately and the climate continues to this day to be unsettled Will the storms soon settle down to give way to calmer days Read this excellent collection of informative papers in the field to stimulate your own answer to that question Mark Blaug University of London and University of Buckingham UK *The Elgar Companion to Economics and Philosophy* aims to demonstrate exactly how these two important areas have always been linked and to illustrate the key areas of overlap The Companion is divided into distinct parts each of which highlights a leading area of scholarly concern political economy conceived as social philosophy the methodology and epistemology of economics and social ontology and the ontology of economics The contributors are well known and distinguished authors from a variety of disciplines who have been invited both to survey and to provide a personal assessment of current and prospective future states of their respective areas of philosophical interest Academics and students who have an interest in economics and philosophy political philosophy and the history of ideas will find this book of great appeal as will researchers working in the field and readers interested in the nature of the discipline of economics

Five Generations of a Mexican American Family in Los Angeles Christina Chavez,2007-04-09 Despite their citizenship

and English monolingualism Mexican Americans have long been known to remain largely working class which academically has meant that they tend to be mostly high school graduates with low rates of college attendance and completion Attempting to understand this phenomenon Five Generations of a Mexican American Family in Los Angeles chronicles the home work and school lives of the author s multigenerational family throughout the twentieth century Using oral histories of 33 members across five generations the Fuentes story illuminates the interaction between race ethnicity and class at home in the labor market and in schools which circumscribe the opportunity and resources or lack thereof for academic success Generally findings show that these factors work together to reproduce the family s social standing over generations Equally important the analysis reveals how the persistence and strength of the Fuentes heritage cultural values buena educaci n and familism have insulated them from the continued threat of racial discrimination and economic hardship in American life The Fuentes story provides the reader with a keen view of the process by which Fuentes moved from immigrants to ethnic Americans and shows how they have gracefully survived the harsh and unpredictable nature of being of a racial minority and the working class

International Handbook on Teaching and Learning Economics Gail Mitchell Hoyt, KimMarie McGoldrick, 2012 The International Handbook on Teaching and Learning Economics is a power packed resource for anyone interested in investing time into the effective improvement of their personal teaching methods and for those who desire to teach students how to think like an economist It sets guidelines for the successful integration of economics into a wide variety of traditional and non traditional settings in college and graduate courses with some attention paid to primary and secondary classrooms The International Handbook on Teaching and Learning Economics is highly recommended for all economics instructors and individuals supporting economic education in courses in and outside of the major This Handbook provides a multitude of rich resources that make it easy for new and veteran instructors to improve their instruction in ways promising to excite an increasing number of students about learning economics This Handbook should be on every instructor s desk and referenced regularly Tawni Hunt Ferrarini The American Economist In delightfully readable short chapters by leaders in the sub fields who are also committed teachers this encyclopedia of how and what in teaching economics covers everything There is nothing else like it and it should be required reading for anyone starting a teaching career and for anyone who has been teaching for fewer than 50 years Daniel S Hamermesh University of Texas Austin US The International Handbook on Teaching and Learning Economics provides a comprehensive resource for instructors and researchers in economics both new and experienced This wide ranging collection is designed to enhance student learning by helping economic educators learn more about course content pedagogic techniques and the scholarship of the teaching enterprise The internationally renowned contributors present an exhaustive compilation of accessible insights into major research in economic education across a wide range of topic areas including Pedagogic practice teaching techniques technology use assessment contextual techniques and K 12 practices Research findings principles courses measurement factors influencing

student performance evaluation and the scholarship of teaching and learning Institutional administrative issues faculty development the undergraduate and graduate student and international perspectives Teaching enhancement initiatives foundations organizations and workshops Grounded in research and covering past and present knowledge as well as future challenges this detailed compendium of economics education will prove an invaluable reference tool for all involved in the teaching of economics graduate students new teachers lecturers faculty researchers chairs deans and directors

Humanism Challenges Materialism in Economics and Economic History Roderick Floud, Santhi Hejeebu, David Mitch, 2017-01-23 Most of the existing research on economic history relies either solely or ultimately on calculations of material interest to explain the major events of the modern world However care must be taken not to rely too heavily on materialism with its associated confidence in perfectly rational actors that simply do not exist What is needed for a more cogent understanding of the long history of capitalist growth is a more realistic human centered approach that can take account of the role of nonmaterial values and beliefs an approach convincingly articulated by Deirdre McCloskey in her landmark trilogy of books on the moral and ethical basis of modern economic life With *Humanism Challenges Materialism in Economics and Economic History* Roderick Floud Santhi Hejeebu and David Mitch have brought together a distinguished group of scholars in economics economic history political science philosophy gender studies and communications who synthesize and build on McCloskey's work The essays in this volume illustrate the ways in which the humanistic approach to economics that McCloskey pioneered can open up new vistas for the study of economic history and cultivate rich synergies with a wide range of disciplines The contributors show how values and beliefs become embedded in the language of economics and shape economic outcomes Chapters on methodology are accompanied by case studies discussing particular episodes in economic history *The Crisis in Economics* Edward Fullbrook, 2003-04-03 Charts the impact the PAE Network has had so far and constitutes a manifesto for a different kind of economics it features key contributions from all the major voices in heterodox economics including Tony Lawson Geoff Hodgson and Sheila Dow **The Elgar Companion to Feminist Economics** Janice Peterson, Margaret Lewis, 2001-01-01 Comprehensive reference work introducing readers to the field of feminist economics It addresses key concepts as well as feminist economic critiques and reconstructions of major economic theories and policy debates **The Values of Economics** Irene van Staveren, 2013-03-07 In his *Ethics* Aristotle argued that human beings try to further a variety of values by balancing them stating that people try to find a middle road between excess and deficiency The author develops and applies this idea to the values of economics arguing that in the economy freedom justice and care are also balanced to further ends with scarce means Freedom is furthered through market exchange justice through a redistributive role of the state and care through mutual gifts of labour and sharing of resources in the economy The book argues that economics is and has always been about human values which guide enable constrain and change economic behaviour *Borderlands of Economics* Nahid Aslanbeigui, Young B. Choi, 2005-06-23 In recent years

there has been increasing discontent with the abstract nature of mainstream economics The book explores the ways in which economics might be reconnected both with the real world and with other disciplines

How Society Makes Itself: The Evolution of Political and Economic Institutions Howard J Sherman, 2015-06-01 This radical account of the evolution of political social and economic institutions weaves together strands of anthropology sociology political science history and economics In a highly readable text Howard Sherman explains the interconnections of ideas and economic forces and traces the evolution of social and economic institutions from primitive times to the present Sherman focuses on the myth of inevitable progress in technology and argues that it progresses only when social and economic institutions and dominant ideas encourage it to improve He shows that throughout history technology as a part of the economic forces ebbs and flows to create or undermine existing economic institutions

The Heterogeneity Link of the Welfare State and Redistribution Udaya R. Waglé, 2013-11-26 This book situates ethnic heterogeneity in the larger discussion of the welfare state and its redistributive outcomes poverty and inequality By using comprehensive longitudinal data covering 1980 to 2010 from 17 high income countries this analysis helps achieve a major milestone in comparative welfare state research both conceptually and methodologically Conceptually it elevates the relevance of growing ethnic heterogeneity in thinking about how politics and economics of the welfare state operate collectively impacting the magnitudes of poverty and inequality Methodologically the analysis conducted in this book provides broader empirical tests for the many propositions and discourses found in the literature based largely on anecdotal evidence case studies and unjustifiably limited quantitative data The innovative operationalization of the multidimensional character of both welfare state policies and ethnic heterogeneity help broaden the analytical frameworks of comparative welfare state research The outcome is a major advance in the way we understand the causes and redistributive consequences of the welfare state in which ethno racial religious and especially immigration heterogeneity can play a crucial role A thorough and insightful analysis presented in this book helps students researchers and policymakers better understand the ethnic heterogeneity connections of the welfare state and redistribution together with a comparative perspective of the changing faces of ethnic heterogeneity welfare state policies and poverty and inequality in high income countries

Valuing Us All April Laskey Aerni, KimMarie McGoldrick, 1999-12-15 Argues for making economics classrooms more inclusive through changes in course content and teaching methods

Class in America Robert E. Weir, 2007-06-30 In the United States social class ranks with gender race and ethnicity in determining the values activities political behavior and life chances of individuals Most scholars agree on the importance of class although they often disagree on what it is and how it impacts Americans This A Z encyclopedia the first to focus on class in the United States surveys the breadth of class strata throughout our history for high school students to the general public Class is illuminated in 525 essay entries on significant people terms theories programs institutions eras ethnic groups places and much more This useful set is an authoritative fascinating source for in demand information on key aspects of our culture and

society and helps researchers to narrow down a broad topic Class is revealed from angles that often intersect through history with entries such as Founding Fathers the Industrial Revolution Westward Expansion through economics with entries such as Dot com Bubble Robber Barons Chicago School of Economics Lottery Wage Slaves Economic Equal Opportunity Act Stock Market Inheritance Taxes Wal Mart Welfare through social indicators such as Conspicuous Consumption the Hamptons WASP Homelessness Social Climbing through politics with entries such as Anarchism Braceros Heritage Foundation Communist Party Kennedy Family and through culture through entries such as Country Music The Great Gatsby Television and Studs Terkel Class is also approached from ethnic sexual religious educational and regional angles Special features include an introduction timeline suggested reading per entry cross references reader s guide to topics and thorough index Sample entries Immigration Education Labor Movement Pink Collar Workers AFL CIO Strikes Great Depression Jacob Riis Literature the Rockefellers Slavery Music Academia Family Suburbia McMansions Taxation Segregation Racism Ivy League Robber Barons Philanthropists Socialites Religion Welfare the American Dream Dot com Millionaires Equal Opportunity Founding Fathers Wage Slaves Industrial Revolution Capitalism Economics Appalachia Horse Racing Gender Communist Party Country Clubs Religion American Indians Conspicuous Consumption Studs Terkel Film Class Consciousness Work Ethic Media Television Puritans Homelessness Status Symbols Assimilation Melting Pot Art Westward Expansion Poverty The Great Gatsby Stock Market Working Poor Gated Communities the Hamptons Social Climbing Crime Lottery Elitism WASP American Dream Noam Chomsky Fortune Magazine

Out of the Margin Susan Feiner, Edith Kuiper, Notburga Ott, Jolande Sap, Zafiris Tzannatos, 2005-07-22 *Out of the Margin* is the first volume to consider feminist concerns across the entire domain of economics The book addresses the philosophical roots of rational economic man power relations and conflicts of interest within the family the limitations of relying on secondary data and the policy implications of neo classical models With its range and depth of coverage this is not only an excellent introduction to the field but also indispensable for those seeking more in depth knowledge of issues of gender and economics

Political Economy Goes to the Movies Satyananda J. Gabriel, 2021-11-14 *Political Economy Goes to the Movies* provides an introduction to political economy using a wide range of popular films and documentaries as the objects of analysis The work helps readers to understand and analyze the economic and related political cultural and ecological relationships depicted in selected films This is achieved through the lens of past and present economic theories and in the context of debates over the dynamic influence of economics on individual life chances Film may have more to teach us about the real world than the abstractions of certain economic theories A world of income inequality child labor in mills and mines local rebellions against land seizures and wars triggered by economic conflicts provide the context for many films mirroring real world events Some films depict the interacting and intersecting political economic cultural and ecological contexts within and between variant economic relationships whereas other films show catastrophes such as economic depressions disruptive social transitions violent revolutions and existential

environmental degradation a world in disequilibrium Films allow us to see a panoply of human social relationships and related problems even to explore cataclysmic moments in our species life but not to necessarily see the why of these relationships and problems Simultaneously mainstream economics has severe constraints on what can be analyzed Film exposes this weakness of the mainstream model Twelve Years a Slave Trumbo The Big Short and others are analyzed for their realism by referencing documented historical social events and behavioral economics provides further data for analyzing the realism of social interaction within the films Exploring events and contexts absent from the typical economics text or the basic level economics classes this work is essential reading for students and scholars of political economy in both economics and politics departments as well as those of pluralist economics and Marxist economics The New Economic Criticism Martha Woodmansee, Mark Osteen, 2005-10-09 This is a pathbreaking work which develops a new form of economic analysis This collection brings together 27 essays by influential literary and cultural historians as well as representatives of the vanguard of postmodernist economics *Project Impact - Disseminating Innovation in Undergraduate Education* Ann McNeal, 1998-02 Contains abstracts of innovative projects designed to improve undergraduate education in science mathematics engineering and technology Descriptions are organized by discipline and include projects in astronomy biology chemistry computer science engineering geological sciences mathematics physics and social sciences as well as a selection of interdisciplinary projects Each abstract includes a description of the project published and other instructional materials additional products of the project and information on the principal investigator and participating institutions *Liberating Economics, Second Edition* Drucilla Barker, Suzanne Bergeron, Susan F. Feiner, 2021-02-08 In this brand new critical analysis of economics Barker Bergeron and Feiner provide a feminist understanding of the economic processes that shape households labor markets globalization and human well being to reveal the crucial role that gender plays in the economy today With all new and updated chapters the second edition of *Liberating Economics* examines recent trends in inequality global indebtedness crises of care labor precarity and climate change Taking an interdisciplinary and intersectional feminist approach the new edition places even more emphasis on the ways that gender race class sexuality and nationality shape the economy It also highlights the centrality of social reproduction in economic systems and makes connections between the economic circumstances of women in global North and global South Throughout the authors reject the idea that there is no alternative to our current neoliberal market economy and offer alternative ways of thinking about and organizing economic systems in order to achieve gender equitable outcomes Written in an accessible and engaging style this book will be of interest to students and scholars across a range of fields policymakers and any reader interested in creating just futures

Handbook for Achieving Gender Equity Through Education Susan S. Klein, Barbara Richardson, Dolores A. Grayson, Lynn H. Fox, Cheris Kramarae, Diane S. Pollard, Carol Anne Dwyer, 2014-05-22 First published in 1985 the *Handbook for Achieving Gender Equity Through Education* quickly established itself as the essential reference work concerning gender

equity in education This new expanded edition provides a 20 year retrospective of the field one that has the great advantage of documenting U S national data on the gains and losses in the efforts to advance gender equality through policies such as Title IX the landmark federal law prohibiting sex discrimination in education equity programs and research Key features include Expertise Like its predecessor over 200 expert authors and reviewers provide accurate consensus research based information on the nature of gender equity challenges and what is needed to meet them at all levels of education Content Area Focus The analysis of gender equity within specific curriculum areas has been expanded from 6 to 10 chapters including mathematics science and engineering Global Diversity Focus Global gender equity is addressed in a separate chapter as well as in numerous other chapters The expanded section on gender equity strategies for diverse populations contains seven chapters on African Americans Latina os Asian and Pacific Island Americans American Indians gifted students students with disabilities and lesbian gay bisexual and transgender students Action Oriented All chapters contain practical recommendations for making education activities and outcomes more gender equitable A final chapter consolidates individual chapter recommendations for educators policymakers and researchers to achieve gender equity in and through education New Material Expanded from 25 to 31 chapters this new edition includes more emphasis on male gender equity and on sexuality issues special within population gender equity challenges race ability and disability etc coeducation and single sex education increased use of rigorous research strategies such as meta analysis showing more sex similarities and fewer sex differences and of evaluations of implementation programs technology and gender equity is now treated in three chapters women s and gender studies communication skills relating to English bilingual and foreign language learning and history and implementation of Title IX and other federal and state policies Since there is so much misleading information about gender equity and education this Handbook will be essential for anyone who wants accurate research based information on controversial gender equity issues journalists policy makers teachers Title IX coordinators equity trainers women s and gender study faculty students and parents
